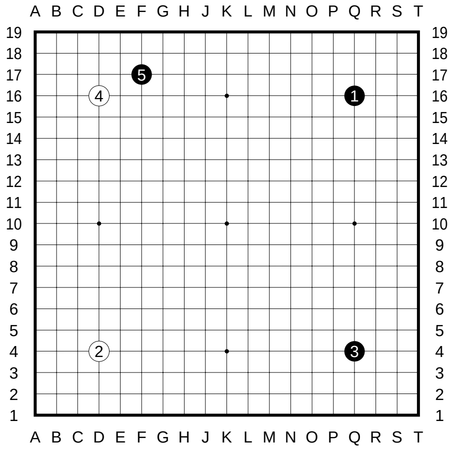
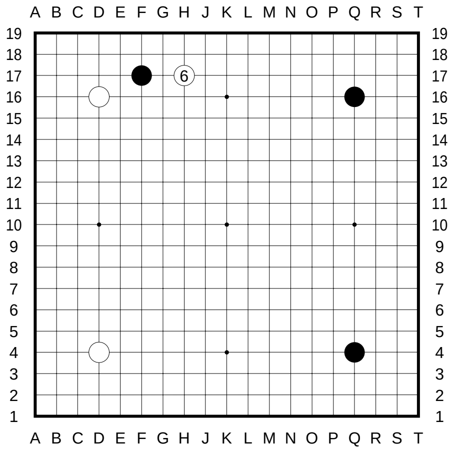
1 The Game

Black: sweat, 6d
White: playboy, NR
Date: 1993-02-04
Place: IGS: 128.32.201.46 6969
Result: W+Resign



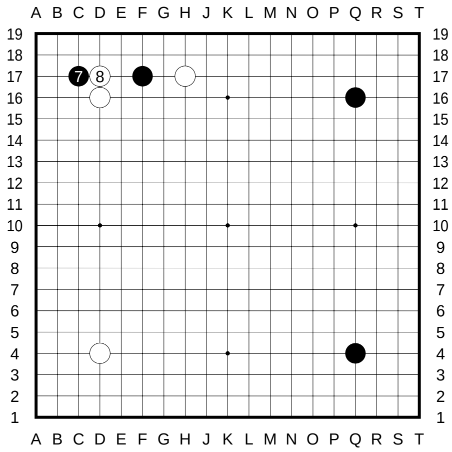
Black 1 – Black 5

sweat(6d) zhuge is rice!
he is rice= zhuge
bh(1d) interesting, :–)



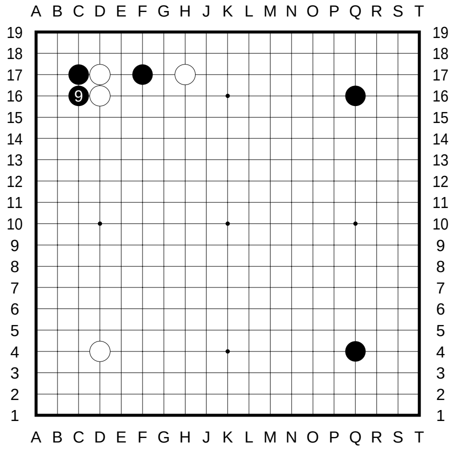
White 6

zhuge(NR) what did he say? :–)



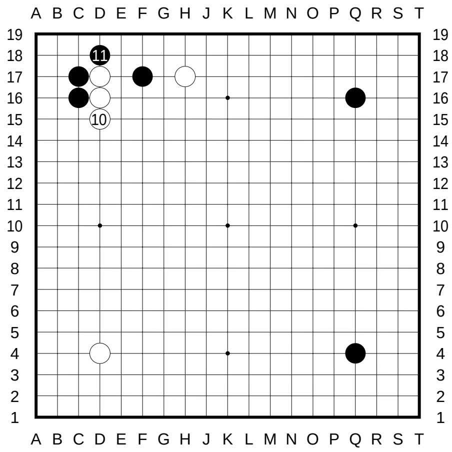
Black 7 – White 8

bh(1d) he said u were rice



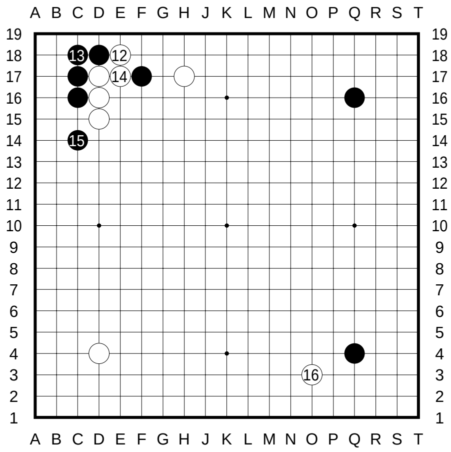
Black 9

willfor(3k) now we know what 6d's are thinking about when they play. :)



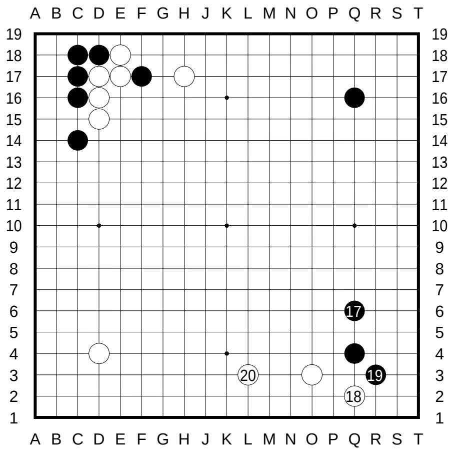
White 10 – Black 11

zhuge(NR) huh? he must be hungry. :–)
bh(1d) obviously, :–)



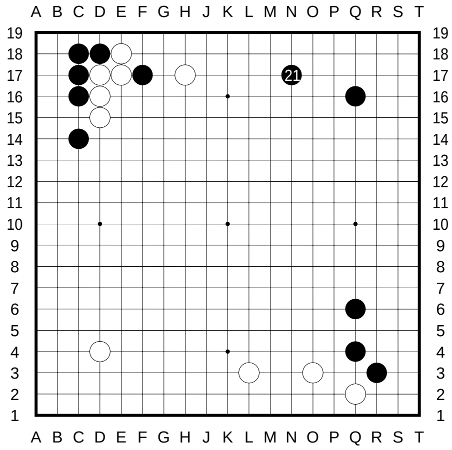
White 12 – White 16

willfor(3k) w doesn't seem to be hungry, though. h17 is too close.
xray(???) interesting when one player uses say and the other tell.
bh(1d) no, sweat is hungry
xray(???) you get half a conversation.
zhuge(NR) you're right xray –– and read them later in the game record... you just keep guessing. :–)



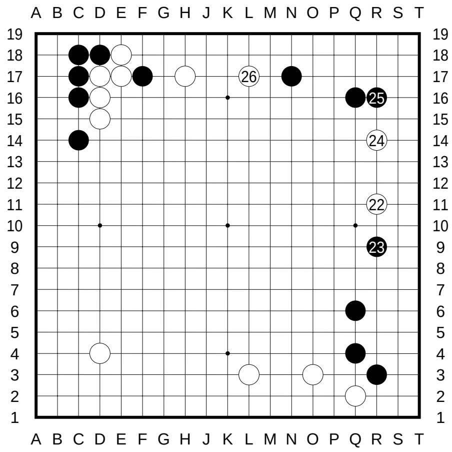
Black 17 – White 20

zhuge(NR) i guess playboy is twice as old as sweat. :–)
pogmohon(9k) r10



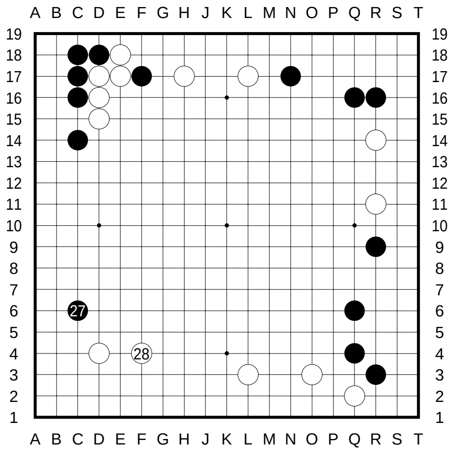
Black 21

bh(1d) really?
zhuge(NR) close.
bh(1d) playboy is an old playboy? :–)



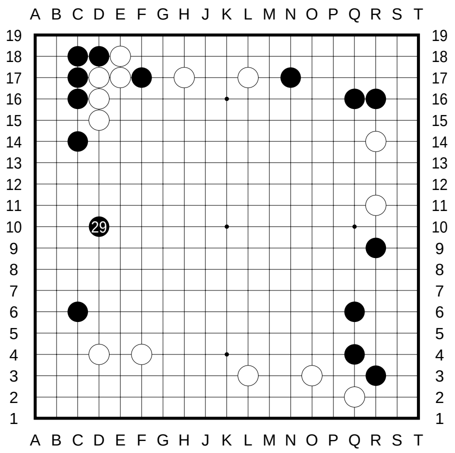
White 22 – White 26

zhuge(NR) i was actually trying to do some homework... but a game like this... m16?
amor(1k) post yr homework to r.r.g. zhuge, we may help u :)
kathy(NR) i need help too.



Black 27 – White 28

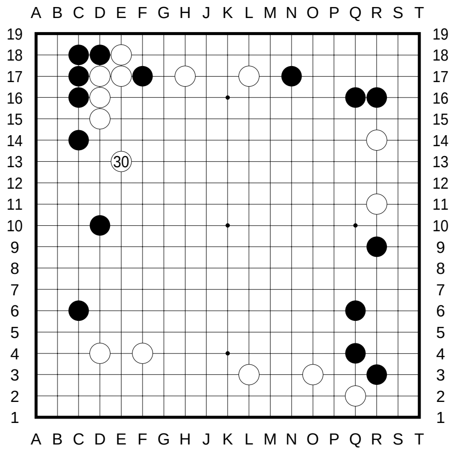
amor(1k) for ? , kathy?



Black 29

kathy(NR) homework and tests, of course

zhuge(NR) we can help you after your tests, kathy, but not before or during. :–)



White 30

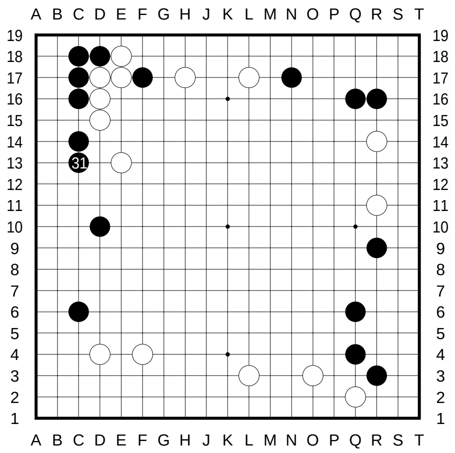
screwup(NR) help what
Finally, I watch a non–fighting game.

zhuge(NR) don't say that too early, screwup.

screwup(NR) It was weird that I have seen 4 hard fighting games in a two.
All from 6ds.

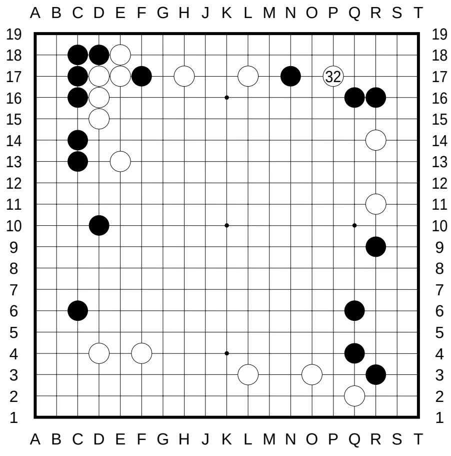
kathy(NR) the difference of this game will be less than 2 pts, i think.

zhuge(NR) good prediction, kathy.



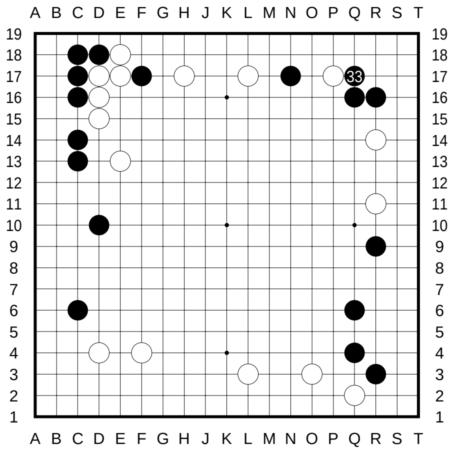
Black 31

hoonsoo(NR) we cannot tell yet



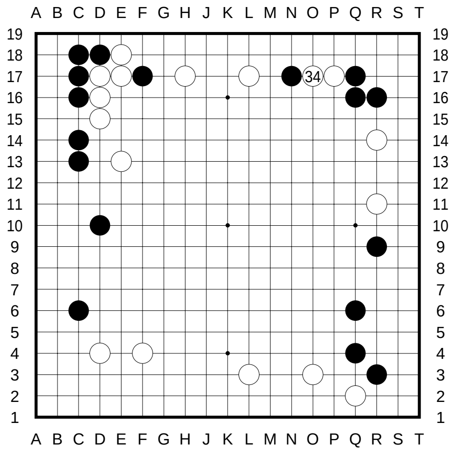
White 32

zhuge(NR) here we go...
ychen(NR) a civilized game?
screwup(NR) why I did not know we have a new kibitzer star, kathy. :)
zhuge(NR) almost, ychen.
hoonsoo(NR) right side w is the point
kathy(NR) don't screw me up with u guys.
screwup(NR) No, I didn't. Did I? :)
bh(1d) tough decision for b
kathy(NR) how old is playboy?
screwup(NR) It looks like I can take a nap for the game.
bh(1d) a playboy can't be very old, :–)
lhh(30k) why ask for age?
screwup(NR) I think kathy was asking how handsome he is. :)
kathy(NR) why not?



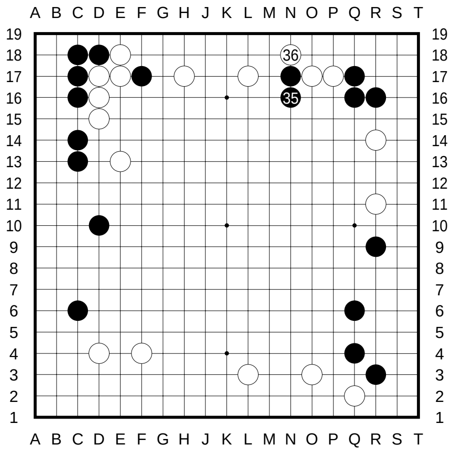
Black 33

zhuge(NR) he's very handsome, according to the sky. what?
kathy(NR) strange move.
zhuge(NR) i couldn't have dreamed of q17!
ychen(NR) q17 looks prety ug
xray(???) why not q14?
kathy(NR) typo maybe.
bh(1d) new move
screwup(NR) typo?
zhuge(NR) yeah, pretty ugly. or uglily pretty. :–)
screwup(NR) Maybe, this is new joseki.
kathy(NR) i know sweat is a Junior high student.
screwup(NR) Really?
zhuge(NR) senior high.
kathy(NR) junior high
or maybe grade 10
bh(1d) a Chinese?
kathy(NR) he is a korean
cgjih(2d) do



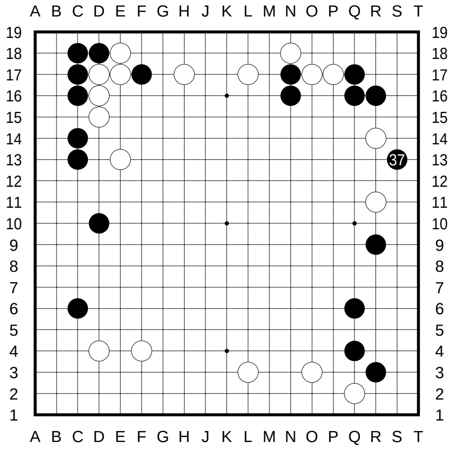
White 34

xray(???) w o17?
screwup(NR) Wow! xray is 7d. clap!!
kathy(NR) n16
xray(???) i think as fast as playboy :–)
kathy(NR) he is xray.
screwup(NR) no! faster than him.
dracular(3k) q 17 is bad
bh(1d) that new move costed playboy 5 min
kathy(NR) who will be the leading kibitzer or Sat.
on sat.
pjiang(NR) o16 next
screwup(NR) Everyone!
zhuge(NR) o16?
dracular(3k) doesn't b know p17 and o17 is very usually attack approach?
kathy(NR) that will definitely screw things up.
zhuge(NR) well, b might be thinking r14–r11 two stones...
screwup(NR) So what?!



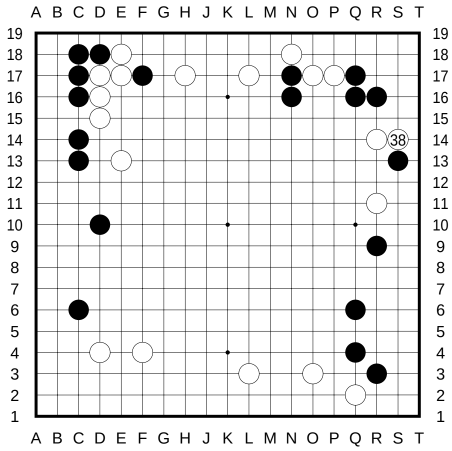
Black 35 – White 36

pjiang(NR) b making some miscalculation here
screwup(NR) When I come here, I have already screwed my work up.
pjiang(NR) o16 only move next
kathy(NR) p14 for b now
zhuge(NR) q17 simply surprised me.
kathy(NR) me too.
screwup(NR) Not me. :)
dracular(3k) p14?



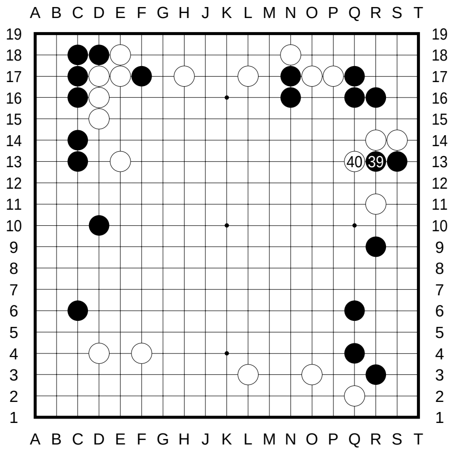
Black 37

screwup(NR) I like to watch something new. :)
dracular(3k) q14
xray(???) s13 means b wants territory. too early!
zhuge(NR) wow... i feel this will be a hard fighting game... (screwup? :−)
normally sweat plays faster.
bh(1d) yeah, bad news for screwup
xray(???) w might choose to p15 here.
screwup(NR) You are wrong! I like fighting game actually.
bh(1d) i like p15
screwup(NR) The bloodier, the better for me. :) :)
kathy(NR) i couldn't image sat.'s kibitzing.
zhuge(NR) but you've seen 4 such games in a row! not so good to your body.
xray(???) we won't be calling many moves bad, I expect on Sat.
kathy(NR) let's get psyched. :−)
screwup(NR) Since I drank so much blood, my body is still very good. :)
bh(1d) after tonite, screwup shouldn't come on sat, :−)
screwup(NR) why not?
bh(1d) 'cause jiang is the king of fight, :−)
screwup(NR) I will definitely come to disappoint your guys, (oh) and girls.
As I said, I like fighting.
kathy(NR) king of fight?



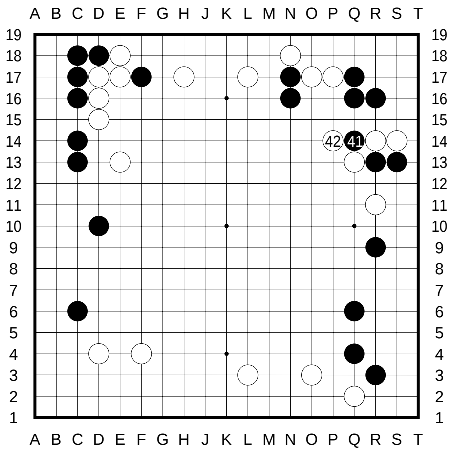
White 38

zhuge(NR) or co−king of fight (with Kato Masao) :−)
kathy(NR) does jiang speak english?
zhuge(NR) yes he does.
screwup(NR) Jiang's games are always enjoyable.
pjiang(NR) does jiang ever play in this server?
screwup(NR) Sure, ask ychen.
zhuge(NR) yes he did! (ychen? :−)
kathy(NR) but somebody said jiang is only in top 40 of the world.
bh(1d) that's not bad, kathy
screwup(NR) He was a victim. Actually, I was a victim too. :(
kathy(NR) but for a kind of king......
zhuge(NR) so is nie (top 40 :−)



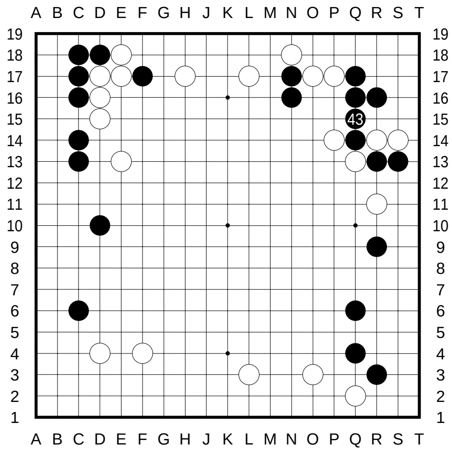
Black 39 – White 40

xray(???) Nie is top 10.
zhuge(NR) which belongs ot top 40.
pjiang(NR) cut at q 14



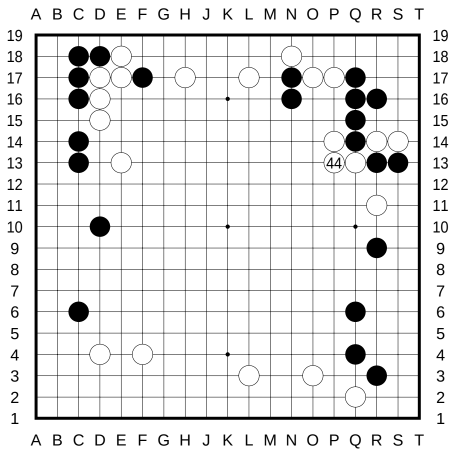
Black 41 – White 42

pjiang(NR) w s14 is an overplay



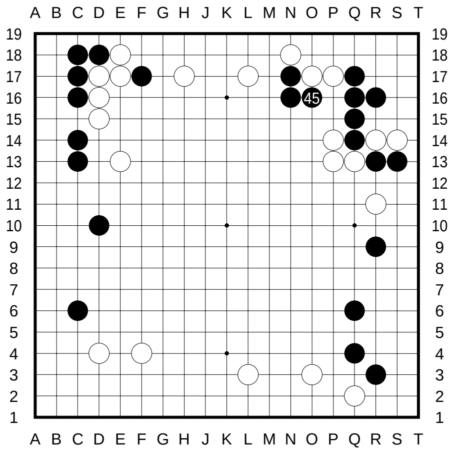
Black 43

gan(6d) b's moves r strange



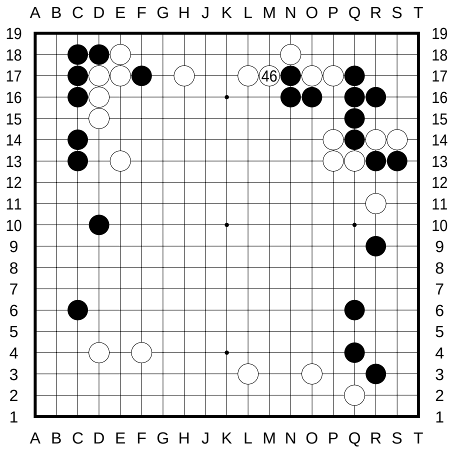
White 44

zhuge(NR) but w gets N16 stones.
xray(???) I agree pjiang.
ychen(NR) ' i don't think B get anything here
xray(???) b s11?
screwup(NR) I heard pjiang is very strong, like 8d?



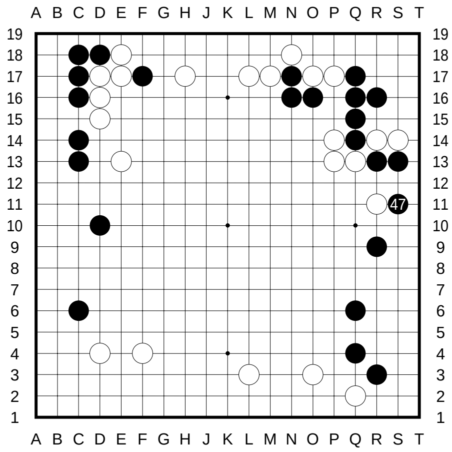
Black 45

pjiang(NR) then khuang will be 10 d
gan(6d) m17
pjiang, i think s14 is good
kathy(NR) i don't think Jiang 9p can beat igs all stars. :–)
screwup(NR) who is khuang?



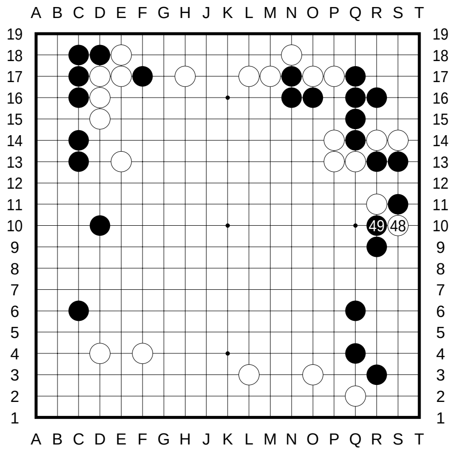
White 46

screwup(NR) Surely, he cannot. :)



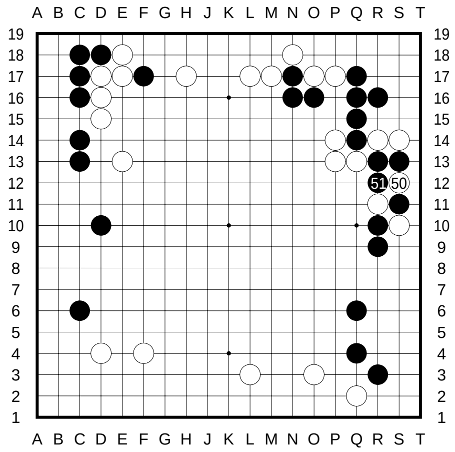
Black 47

pjiang(NR) r13 instead of s14 will give W a clear lead
zhuge(NR) IGS all–stars should include kobayashi and otake. :–)
pjiang(NR) now the game is more complicated at least
xray(???) screwup is causing this fighting ? :–)



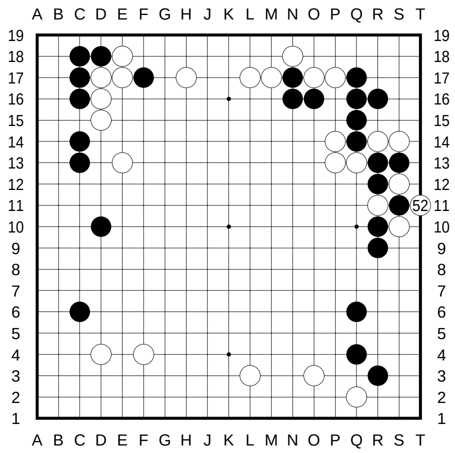
White 48 – Black 49

pjiang(NR) w is making more mistake here



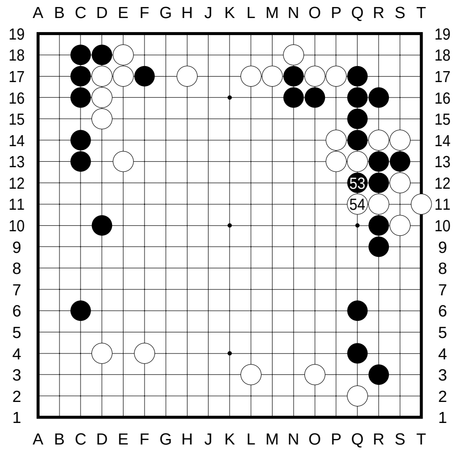
White 50 – Black 51

zhuge(NR) i have a bad feeling about this...



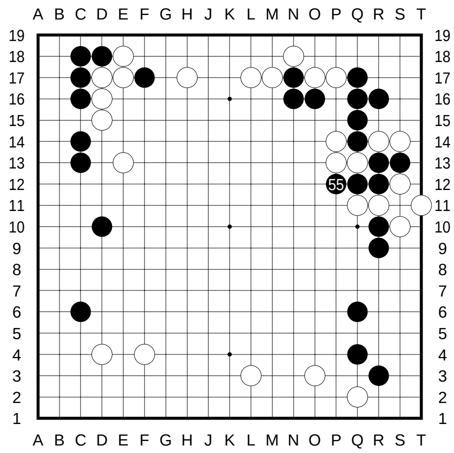
White 52

screwup(NR) Then, should I leave to please you guys?
gan(6d) w now can use the ko to cut n16 group
xray(???) q11 ko? where is w ko threat?
zhuge(NR) that's (screw)up to you.
hoonsoo(NR) p16 looks good
screwup(NR) Then, I will disppoint you guys. :)
zhuge(NR) :–)
gan(6d) this ko is too heavy for b
xray(???) c15 is quite big threat?
gan(6d) comparatively light for w
hoonsoo(NR) b has to do ko
dracular(3k) q12?
bh(1d) right, and w has more threats
xray(???) but b q12 is a sort of failure.
hoonsoo(NR) if that is correct, then, w did good here
gan(6d) if b dares not to make ko fight, then he didn't get anythig around here



Black 53 – White 54

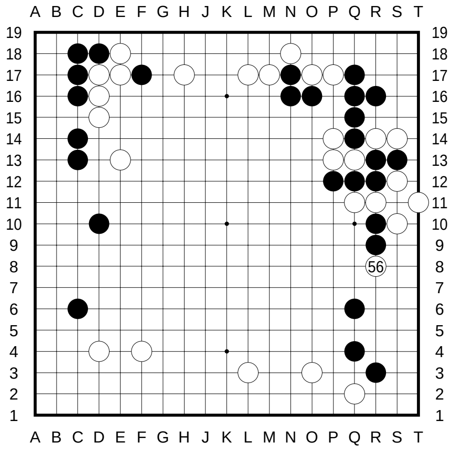
kathy(NR) it's because s11 overplay.



Black 55

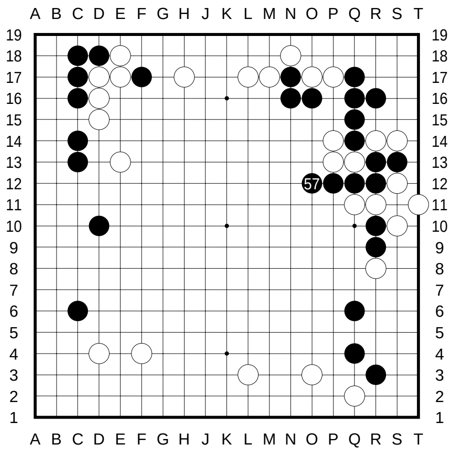
zhuge(NR) w is tough.
pjiang(NR) b should start ko
hoonsoo(NR) b cannot win this game
zhuge(NR) why not, hoonsoo?
xray(???) s11 is ok but r10 should be s12.
hoonsoo(NR) avoiding ko is not the way to play correctly
if b had to avoid the ko, that means he is playing a losing game
kathy(NR) b can't win the ko.!!!!
i don't agree, hoonsoo
zhuge(NR) still early though.
xray(???) b definitely behind now.
hoonsoo(NR) if b can't win the ko, b should've avoided this situation
gan(6d) now it's a bloody fighting
it's really nasty
hoonsoo(NR) what i mean b is losing is, if b plays this way all through the game, he will lose
kathy(NR) i still prefer b.
xray(???) but w can't push at p16 so not too far behind.

hoonsoo(NR) b is thin, IMO
kathy(NR) w has two no eye groups.
hoonsoo(NR) that is why w is thinking :–)
screwup(NR) I think white has only one group, right?
gan(6d) n14?



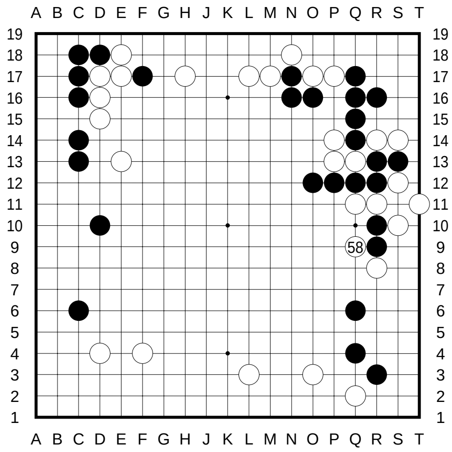
White 56

xzhao(4d) I like t13
xray(???) I like s8.
kathy(NR) w is behind.
gan(6d) r8 good
hoonsoo(NR) r8 looks interesting
xray(???) r8 very interesting.
b can't s9 and t9.
hoonsoo(NR) center 3 w stones can be small now
screwup(NR) Since you guys all said interesting, I feel it is stink.
:)



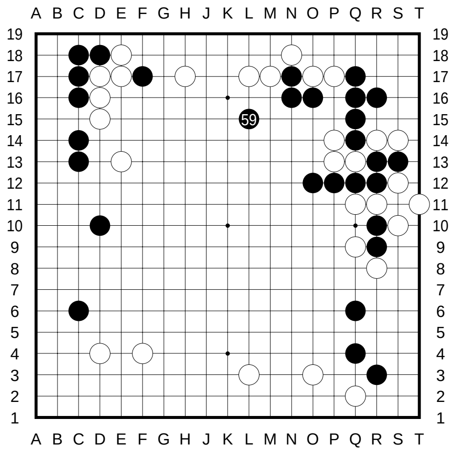
Black 57

hoonsoo(NR) two cannot be all :–)
b is playing wimpy
xray(???) don't agree with o12.



White 58

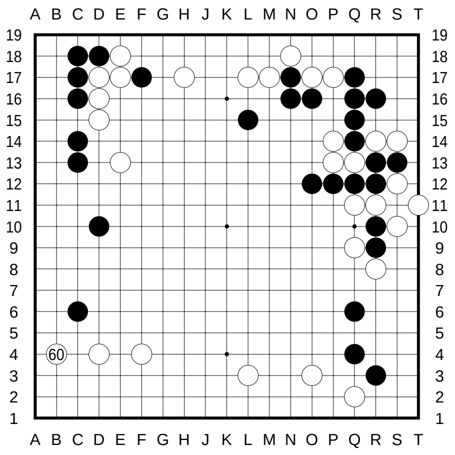
pjiang(NR) p11 probably better
xray(???) w q9 makes him very strong.
screwup(NR) Another one said "good". So, there are 2.5.
xray(???) b q6 stones become weak.
hoonsoo(NR) now b should get some profit from o12
dracular(3k) everybody is here, but why so quiet? are you buys all sleeping?
xray(???) how to get profit from o12?
screwup(NR) Yes, q6 is weak. But, it is black's turns.
hoonsoo(NR) have sweat played with playboy before?
kathy(NR) b has to move f17 now.
pjiang(NR) no
zhuge(NR) i guess this is their first meet.
kathy(NR) i don't think so.
hoonsoo(NR) f17 is too early
dracular(3k) thanks
bh(1d) playboy disappeared for a long time
gan(6d) b got profit from o12 already
pjiang(NR) playboy is nemesis, very strong
hoonsoo(NR) what do you mean, gan?
gan(6d) since w p13 group cannot move



Black 59

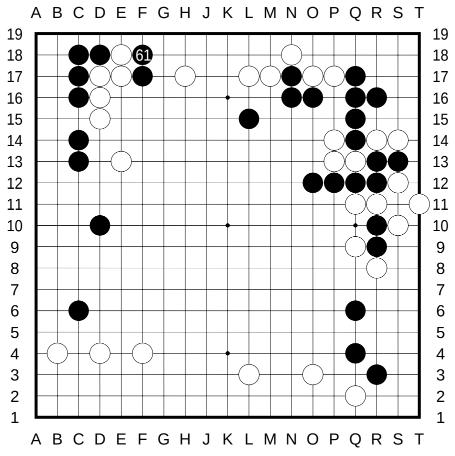
dracular(3k) good pt for both

kathy(NR) i think playboy is khuang.
hoonsoo(NR) p13 groups is almost dead without o12
pjiang(NR) no. q 6 grp more important
bh(1d) no, kathy
zhuge(NR) no, kathy.
xray(???) playboy is not khuang!
tom(1k) playboy is korean student
hoonsoo(NR) cannot be, i heard playboy is korean
pjiang(NR) no
zhong(NR) i think kathy is zhuge. :)



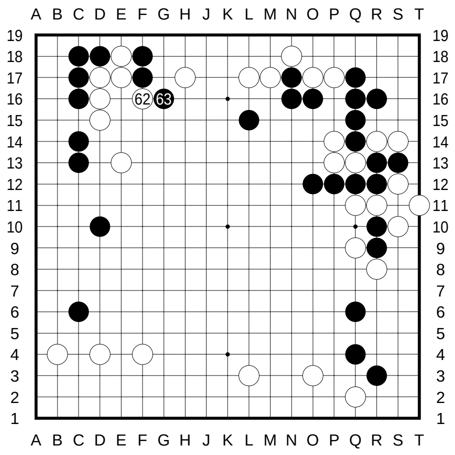
White 60

zhuge(NR) no, zhong!
xray(???) hoonsoo is also korean?
gan(6d) pjiang, r u wooried about q6 group?
bh(1d) no, i heard zhuge was a male, :–)
hoonsoo(NR) yes i am
gan(6d) i like b l15
az(2k) oops
zhuge(NR) good ears, bh. :–)
dracular(3k) is every korean a playboy?
hoonsoo(NR) next will be w c8
zhong(NR) zhuge was male indeed. :)
pjiang(NR) it won't die, but b should play s7 first
screwup(NR) what! zhuge has been changed the sex.
xray(???) certainly the day for Koreans with playboy thrashing dp earlier.
hoonsoo(NR) no only one is playboy
az(2k) it's .. harrasment
screwup(NR) when did zhuge do operation? :)



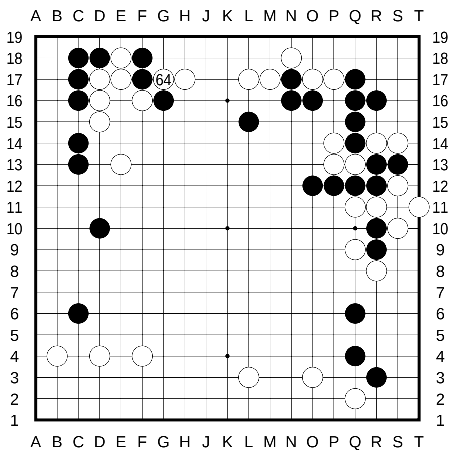
Black 61

gan(6d) pjiang, is s7 sente?
pjiang(NR) no, but important



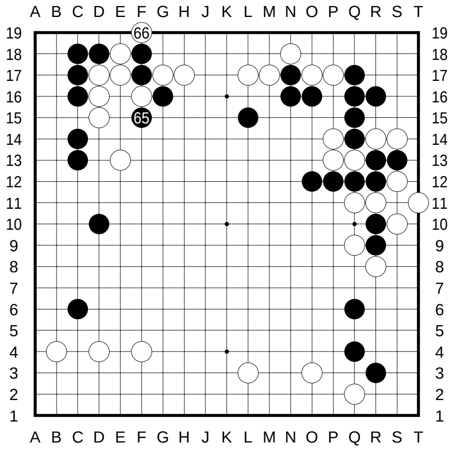
White 62 – Black 63

gan(6d) what do u think if w has m15?



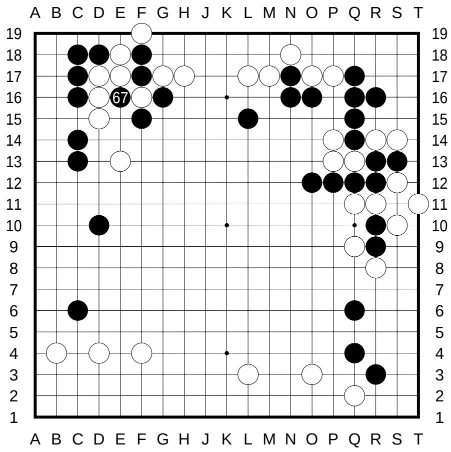
White 64

pjiang(NR) b is behind, but he should try remain calmful



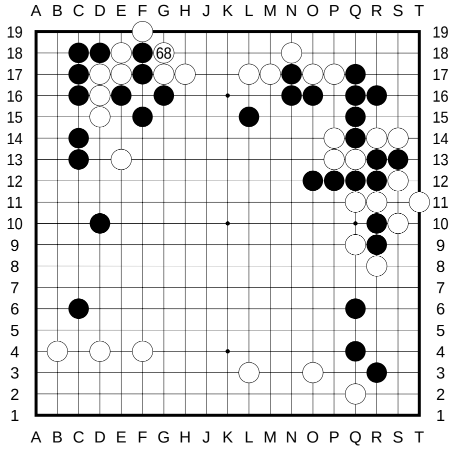
Black 65 – White 66

hoonsoo(NR) who said this is not a fighting game? :–)
zhuge(NR) hmmmm, i just saw a familiar name logged on... :–)
gan(6d) b is NOT behind
xray(???) another strong Korean?



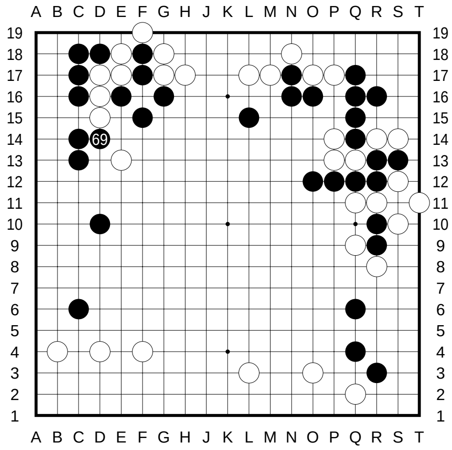
Black 67

hoonsoo(NR) who do you mean, zhuge?
gan(6d) it's close



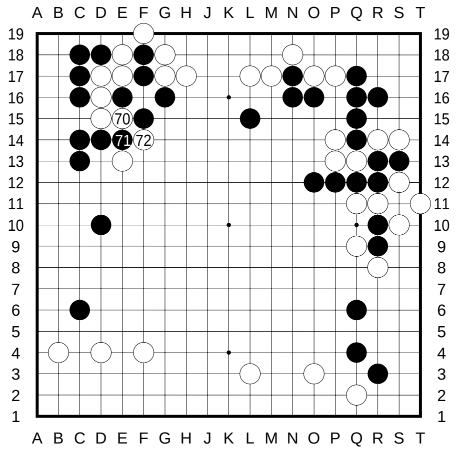
White 68

zhuge(NR) yes. jhlim.
kathy(NR) jhlim
h4 for w
for b



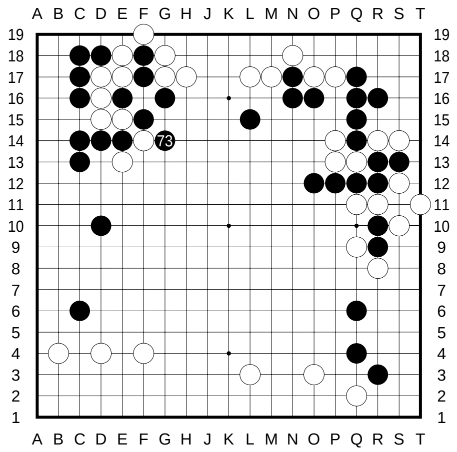
Black 69

gan(6d) how about f13 instead of d14?



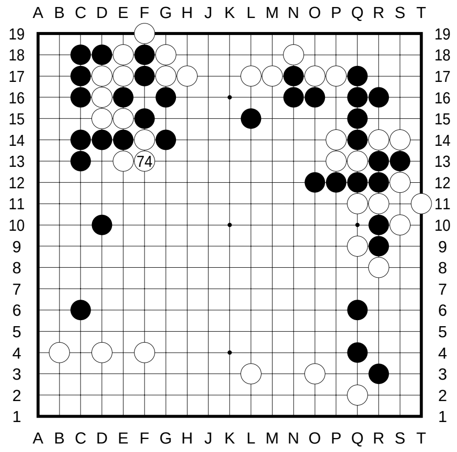
White 70 – White 72

xray(???) b is becoming very strong in centre.
dracular(3k) g16 is not so good till now
pjiang(NR) b gained here
kathy(NR) chance for b
lanlan(1d) g14?
hoonsoo(NR) what move do u recommend kathy?
time(2d) g14



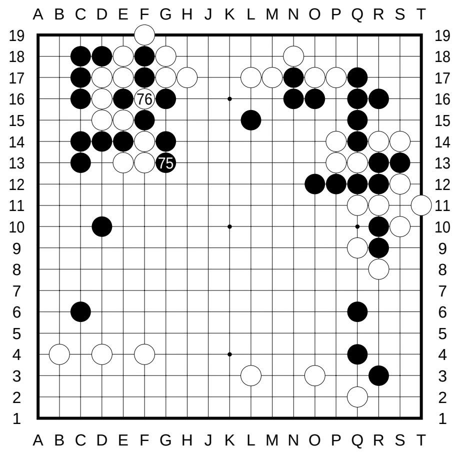
Black 73

gan(6d) pjiang, without l15, b can't gain anything



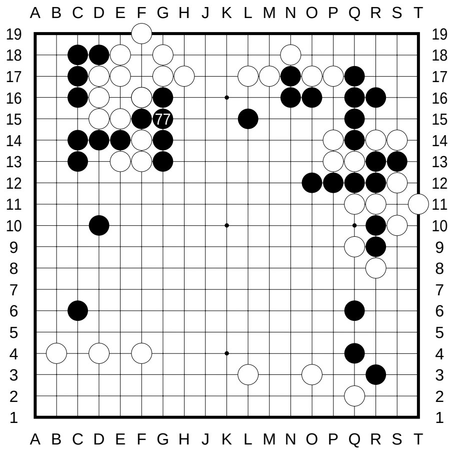
White 74

kathy(NR) g14 was my idea
gan(6d) w will have a huge territiry



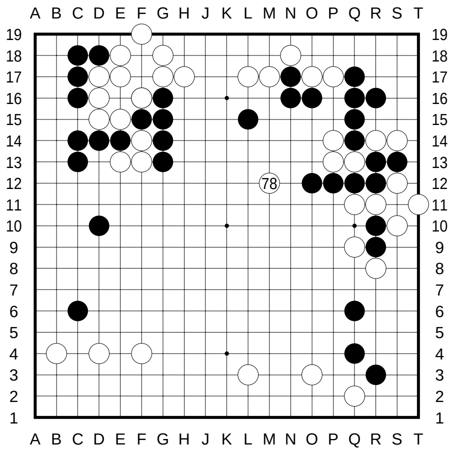
Black 75 – White 76

dracular(3k) are you sure?
pjiang(NR) right, but that's because w mistaken here
xray(???) not so huge b has m18 and k17 to reduce it.



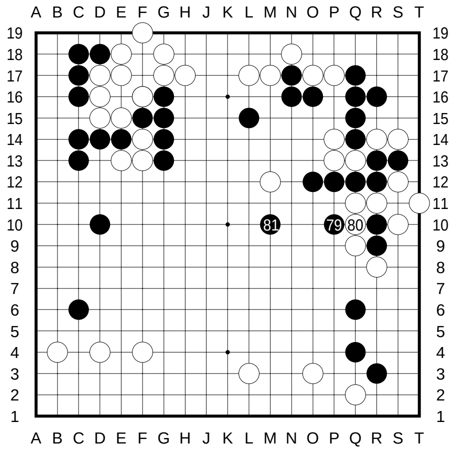
Black 77

gan(6d) now the upper side has less than 20 points
hoonsoo(NR) i don't like g13
pjiang(NR) this is clearly a big gain for b
lanlan(1d) b loods not ba
gan(6d) but look at b center
lanlan(1d) f13 group almost die
kathy(NR) i prefer b from the beginning of this game. :–)
xray(???) g13 is perfect.
hoonsoo(NR) that group will be sacrificed
lanlan(1d) that is huge
screwup(NR) Should white sacrifices the three stones again?
hoonsoo(NR) w can play f10
kathy(NR) w must attack right b no.
now
pjiang(NR) i think even after this gain for b, he is still not ahead
xray(???) w should leave them for the moment.



White 78

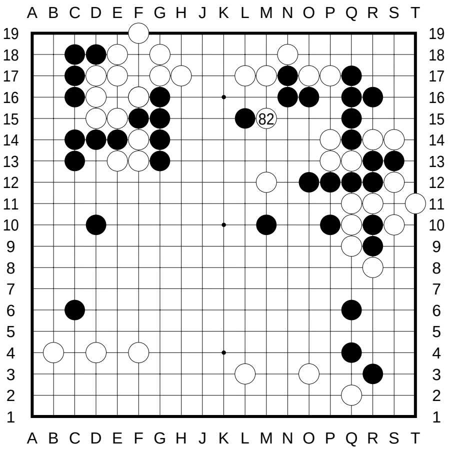
hoonsoo(NR) w needs to reduce b's moyo
xray(???) w s6 is big. or maybe c8?
hoonsoo(NR) can m12 too deep?
who is cathyd?
time(2d) any comments for m12?
gan(6d) m12 might be overplay
kathy(NR) my sister.:–)
gan(6d) but it's a good idea to bet on it
lanlan(1d) will be attacked severely...
cathyd(NR) My girlfriend
hoonsoo(NR) w is thinking about t13, IMHO
time(2d) to me, m12 is suprised good
pjiang(NR) w has no weak stone in the board, so m12 will be ok
gan(6d) b has no choice but m10
xray(???) b o12 stones can't be attacked.
screwup(NR) I don't think t12 will work well.
hoonsoo(NR) t12 will not work for now. but with m12.....who knows?
maybe it can be called aji
ooops i mean t13, not t12
screwup(NR) :)
time(2d) g11
hoonsoo(NR) b is spending more time...no wonder
xray(???) b must play m10 then w n11 b p10?
gao(3d) IMHO, m12 is very good point for b, so w take it.
al(NR) '52 are watching.
hoonsoo(NR) can b p10 sente?



Black 79 – Black 81

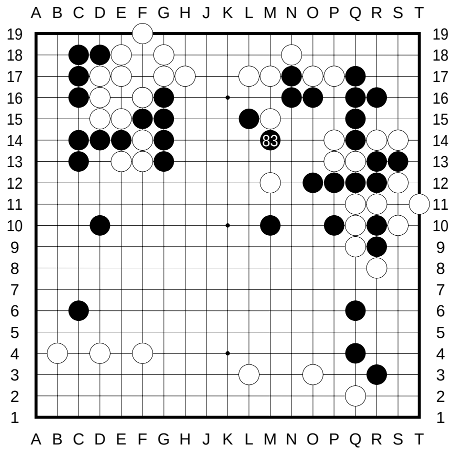
hoonsoo(NR) i guessed p10 :–)
lanlan(1d) good cal hooonsooo
hoonsoo(NR) if p10 is sente, m12 could be too deep
screwup(NR) Here is your prize. $$$$
lanlan(1d) only 4 bucks...
time(2d) more $$$$$$$$$$$$$$$$$$$$$$$$$$$$$$$$$$$$$$$
hoonsoo(NR) but m12 cmaybe connected to upper w
kathy(NR) come on we need more practise for saturday. :–)
xray(???) hard to do anythin with m12.
kathy(NR) i mean kibitzing.
gan(6d) p10 may make a future danger at lower left
i mean lower right
screwup(NR) I like what kathy said.

zhuge(NR) you better save you energy for Saturday, katy.
kathy(NR) thank u, screwup.
screwup(NR) She wants to suck more blood to have more energy on Sat. Me too. :)
kathy(NR) b is ahead by 20 pts now, i think. :−)
hoonsoo(NR) looks like m12 was overplay....
what time is the game on Saturday?
xzhao(4d) k15 then k10
kathy(NR) p10 was good
hoonsoo(NR) w may sacrifice m12 again and attack lr corner using the sacrifice
screwup(NR) I like xzhao's idea.
zhuge(NR) where are you hoonsoo?
hoonsoo(NR) i'm in ontario
cathyd(NR) Ontario eh?
xzhao(4d) I like to give away stones that are attacked;−)
zhuge(NR) then it should be aobut 8:00 p.m. your time.
gan(6d) kathy, p10 is sente at any time, is there hurry to do it now?
kathy(NR) how do u all think about Teemu Sealane.
hoonsoo(NR) then, no problem to watch, thanks :−)
xray(???) who is Teemu Sealane?



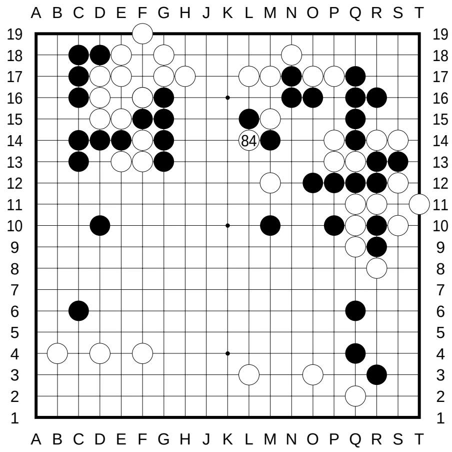
White 82

kathy(NR) no 1 hockey player in the world..
bh(1d) really, i thought it was lemieux
hoonsoo(NR) m15 is not a move at my level...is it good?
lanlan(1d) this looks good for w
xray(???) m15 is very good.
lanlan(1d) has p16 later...
xzhao(4d) better than simply k15
screwup(NR) Beyond my ability.
time(2d) m15 is good by using x−ray?



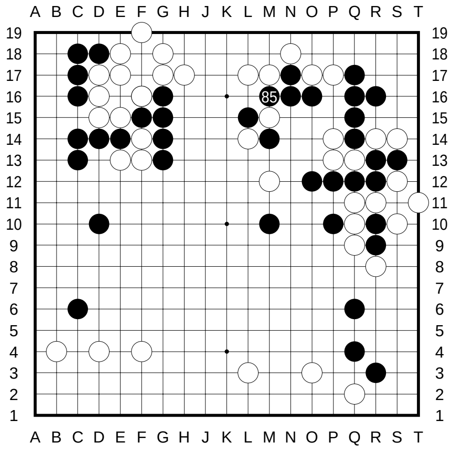
Black 83

gan(6d) m15 is good because it makes b center smaller and b k17 disappears
xray(???) w l14?
hoonsoo(NR) m15 must be good at least locally
xzhao(4d) l14 cut



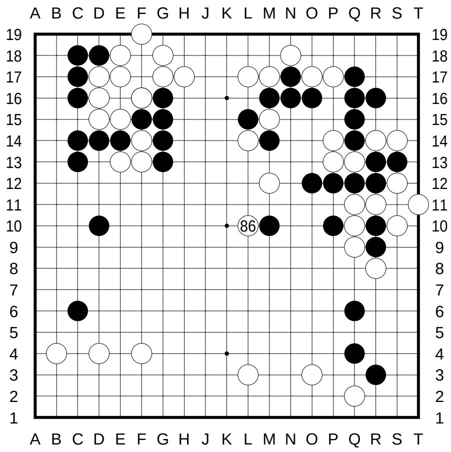
White 84

cathyd(NR) Good call xzhao
hoonsoo(NR) congratulations, xzhao
screwup(NR) Here is another $$$$.
kathy(NR) how can we know people is not doing work while using igs.



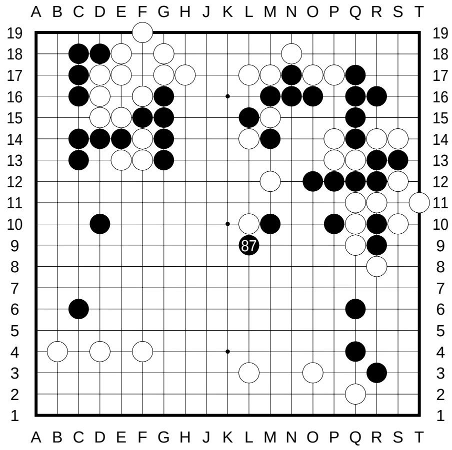
Black 85

gan(6d) b m14 might be wrong
cathyd(NR) k15?
xzhao(4d) BTW jansteen has a rule saying that cut when the cutting stone can survive 5 steps;–)
min(8k) the people leave and logon and leave so frequetly is working...
like screwup:)
lanlan(1d) l16
zhuge(NR) xzhao, that's how Jan described you! :–)
bh(1d) like min, :–)
chouqi(NR) k15
hoonsoo(NR) w need sente to play elsewhere IMO
screwup(NR) what?
time(2d) k15
kathy(NR) what's the ultimate fun of igs? playing or kibitzing?
xray(???) w aiming at g13 stones?
screwup(NR) kibitzing of course!



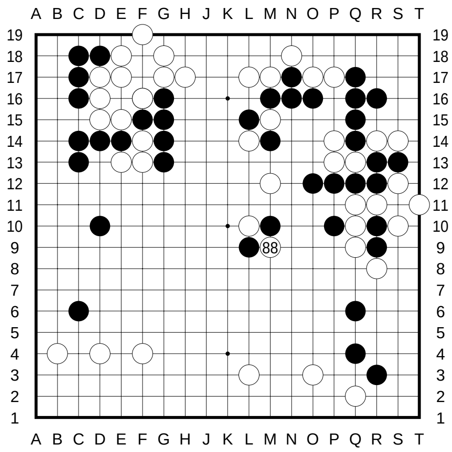
White 86

screwup(NR) The question is too simple.
hoonsoo(NR) the freedom to choose play or kibitz



Black 87

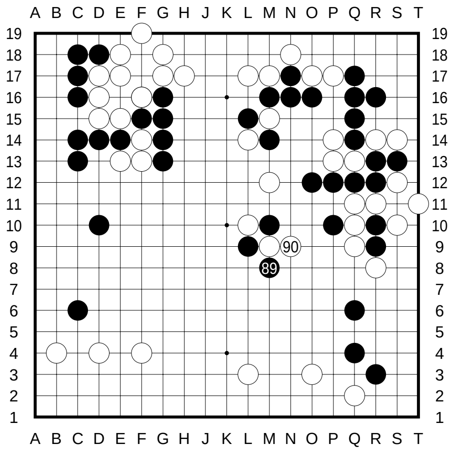
min(8k) this kibitz group # must break the record too:)
xray(???) need to go. bye all.
cathyd(NR) messy!
min(8k) must be working:)
hoonsoo(NR) b is making the problem bigger and bigger
bh(1d) not easy for w too
min(8k) and bigger and GIGGER
xzhao(4d) Like Mr. leiFeng once said, live is finite, but the fun is infinite. So just make infinite fun out of finite life.
zhuge(NR) hahahhahha...



White 88

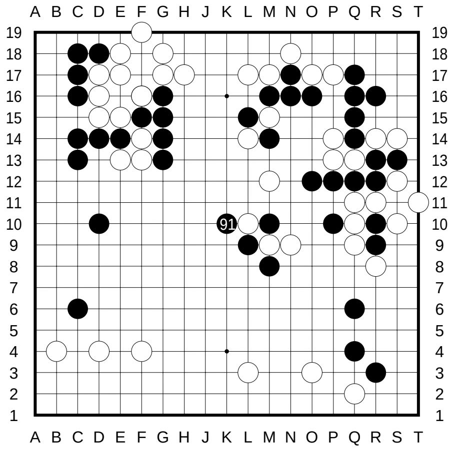
screwup(NR) I remember zhuge won the first place for kibitzing for the game posted on Go board.
zhuge(NR) xzhao was a good model learing from Lei Feng. :–)
xzhao(4d) W should treat the center group lightly.
screwup(NR) Who is LeiFeng?
kathy(NR) that's a stupid phrase.
cathyd(NR) Woof
hoonsoo(NR) and w is making the problem bigger :–)
kathy(NR) who is LeiFeng>

cathyd(NR) (k9)
bh(1d) a 9p
lanlan(1d) Leifeng is Chiese God



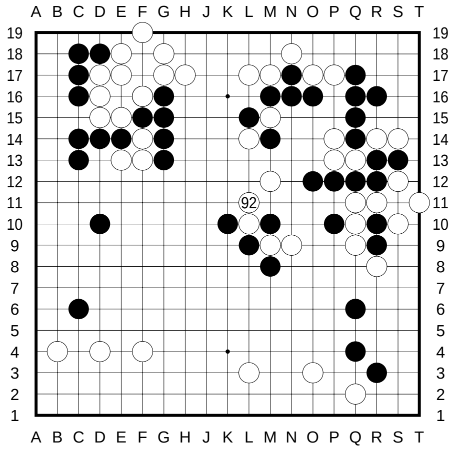
Black 89 – White 90

screwup(NR) Yeah! Did LeiFeng screw things up?
min(8k) but can he play go?what level?



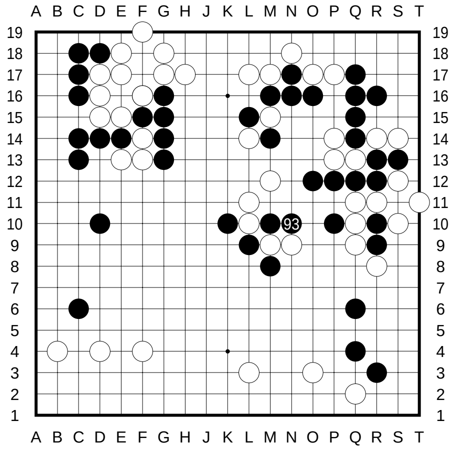
Black 91

kathy(NR) i thought the chinese god was mao.
min(8k) sometimes, :)
gan(6d) seems w likes touching fight
lanlan(1d) another god, smaller than mao
hoonsoo(NR) looks like b is gambling
xzhao(4d) Seriously, I thiu Lei deserves the godness better than Guan Yu, to say the least.
zhuge(NR) LeiFeng was actually said as Mao's good student.
min(8k) mao 's son , precisely:)



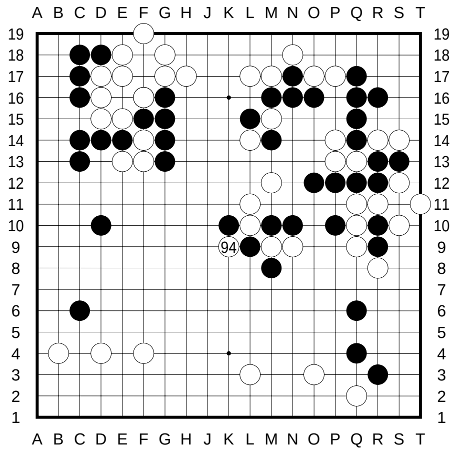
White 92

screwup(NR) I think China has many gods.
zhuge(NR) you're seriously mistaken, xzhao!



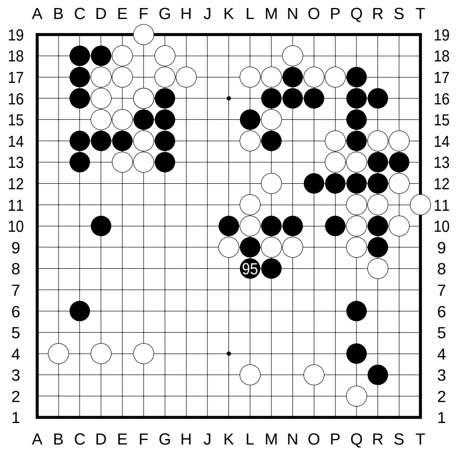
Black 93

zhuge(NR) Guan Yu was a good general.
kathy(NR) if b can get f6, b will have a huge muyang.
screwup(NR) Who is Guan Yu?
min(8k) Yu? never heard of it
kathy(NR) who is guan yu?
cathyd(NR) Is muyang moyo



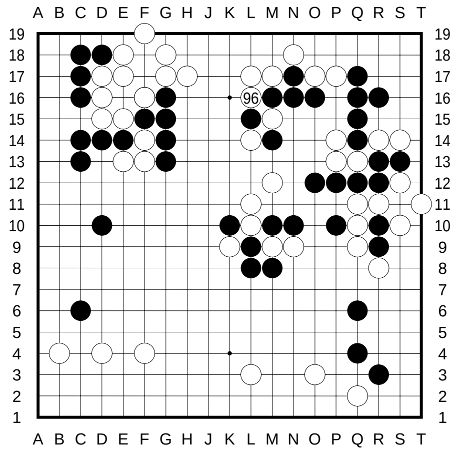
White 94

screwup(NR) How old is the guan yu?
xzhao(4d) Zhuge, comon, he destroys all your stratagy;−)



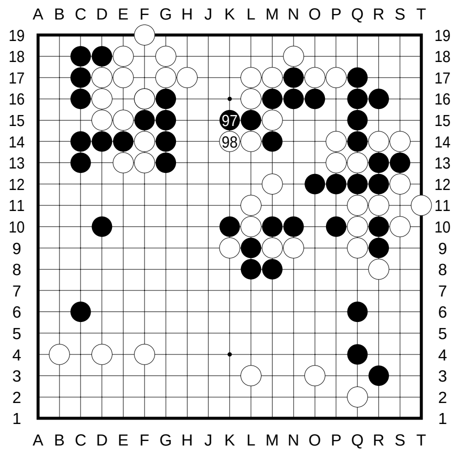
Black 95

kathy(NR) is he jinyu's father?



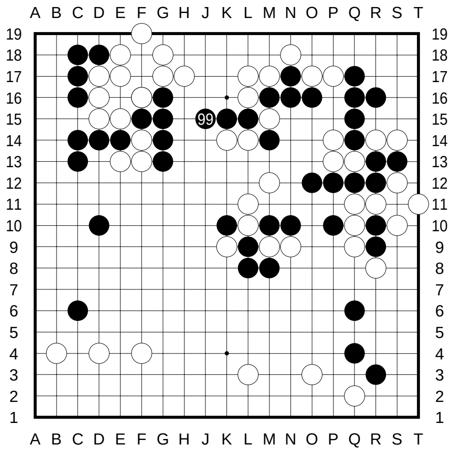
White 96

min(8k) about couple hundred yr old:)



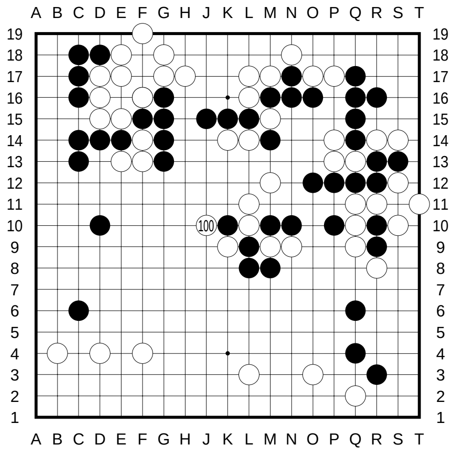
Black 97 – White 98

screwup(NR) Maybe it's zhuge's brother?
zhuge(NR) actually, i almost killed guan yu if not for liu bei's sake.
xzhao(4d) Literally, it means closed fish;−)
kathy(NR) zhuge's grandfather for sure.
hoonsoo(NR) b has time problem now



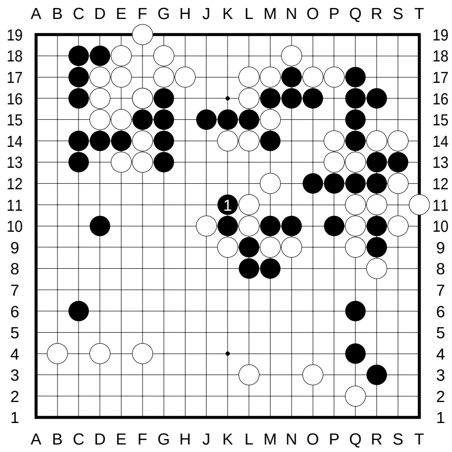
Black 99

zhuge(NR) back to the game... i wasn't watching! :–)
screwup(NR) J10
xzhao(4d) j10 can get the B stone now.
gan(6d) was j15 a kistake?
lanlan(1d) p16?
gan(6d) i mean a mistake
min(8k) can i get a dictionary of go, such as what is kistake?
hoonsoo(NR) w is thing about moving p13 stones
lanlan(1d) p16 connects
xzhao(4d) m13 then j10
BlackJack(1d) is it true that zhuge was made fool of by liu bei?
hoonsoo(NR) you don't need a dictionary of go, u need a spelling checker :–)
cty(2d) what a cloud!
cathyd(NR) Don't you mean speling cheker
min(8k) you will be raining:)
hoonsoo(NR) right cathyd :–)
screwup(NR) all 1
min(8k) such as joseke, seko, sukusa, they sound strange to me
kathy(NR) b is centainly ahead now, agree?



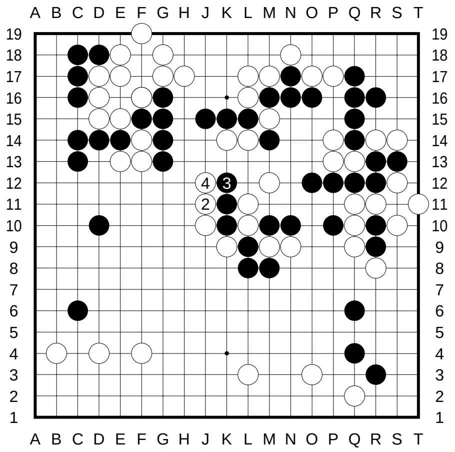
White 100

bh(1d) min sounded strange to me too, :–)
lanlan(1d) not really
cathyd(NR) b almost in byo–yomi



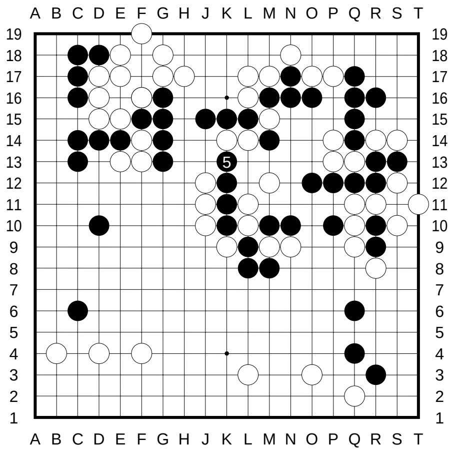
Black 101

hoonsoo(NR) it depends on the result of the center fight
bh(1d) r u kidding, b ahead?
cathyd(NR) How much byo–yomi? 10min 20min?
min(8k) another vocabuary, byo–yomi?
cathyd(NR) 'overtime'
lanlan(1d) byo–yomi= byebye
gan(6d) m13
min(8k) any point for overtime?
xzhao(4d) Should m13 1st before j10
hoonsoo(NR) byo–yomi = second reading, literally



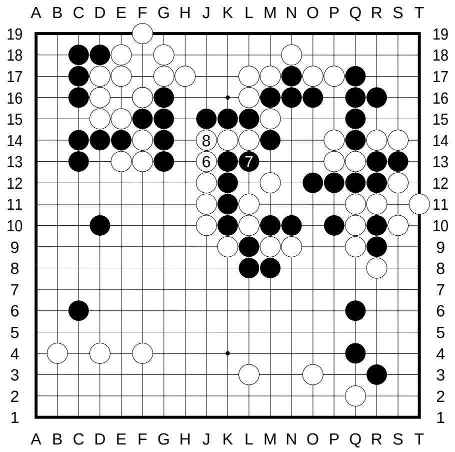
White 102 – White 104

lanlan(1d) what's b doing?
bh(1d) bad for b
zhuge(NR) hoonsoo is right. although in Chinese we use the term "reading second" :–)



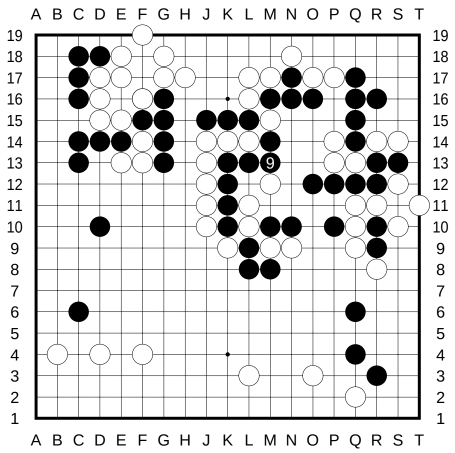
Black 105

hoonsoo(NR) is w aiming center b group>



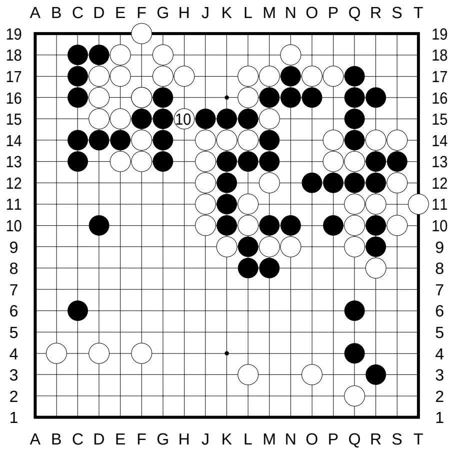
White 106 – White 108

zhuge(NR) b looks bad here.



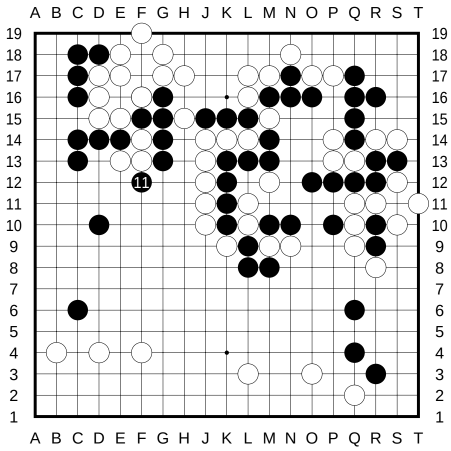
Black 109

pjiang(NR) h15 for w
xlqb(3d) does not work for w!
kathy(NR) f11 for w
cathyd(NR) I thought b was dead!
cty(2d) g12?
gan(6d) if w m13 before j11, b would be in big trouble



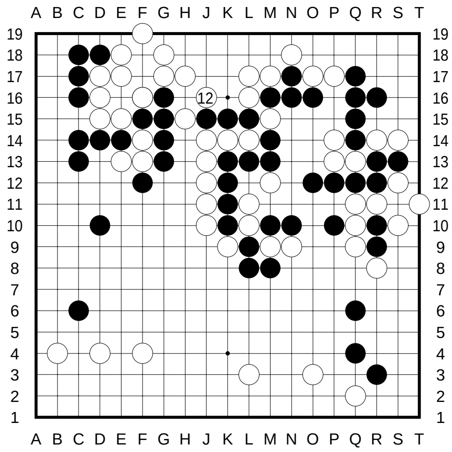
White 110

xzhao(4d) That's why M13 was needed
pjiang(NR) b has to answer g12
screwup(NR) black is not dead, but H15 would make black feel bad.
kathy(NR) b can kill m15.
MAN(2d) b should give up 3 stones



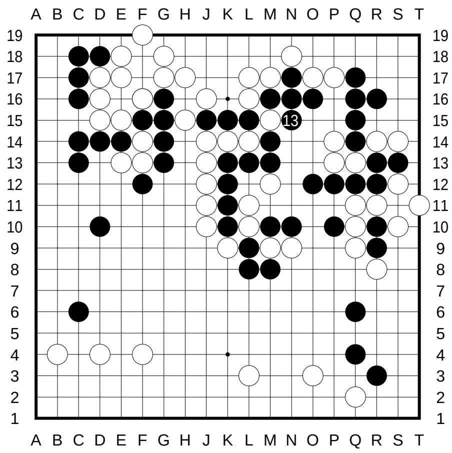
Black 111

pjiang(NR) b has no choise
hoonsoo(NR) looks like w made mistake in center IMO
xlqb(3d) w got nothing
xzhao(4d) g12 much better
gan(6d) b should be g12 instead of f12
min(8k) voca: IMO?
pjiang(NR) right
ychen(NR) w gets connected



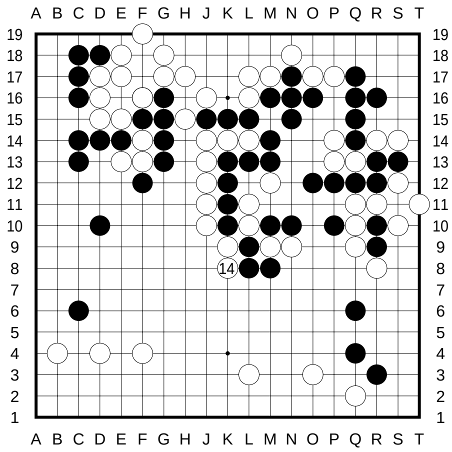
White 112

bh(1d) i think w achieved a lot



Black 113

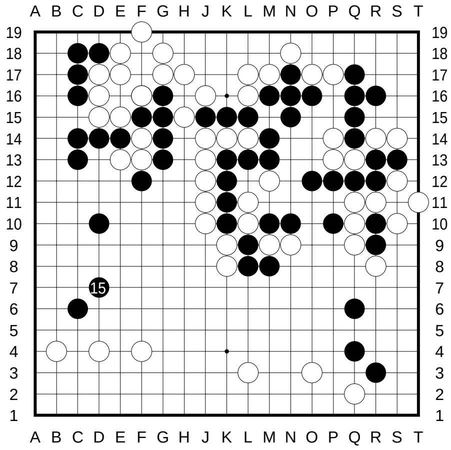
szy(5d) h16 is better than j16



White 114

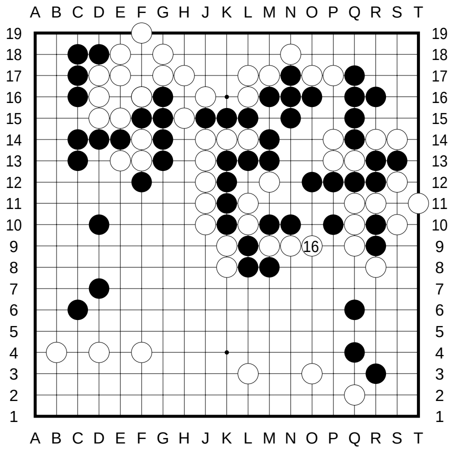
hoonsoo(NR) i think w lost a lot in center...even lr b

becomes stronger
min(8k) according to my countingthey are balanced:)
kathy(NR) b is much ahead
time(2d) b is better now
cathyd(NR) o9?



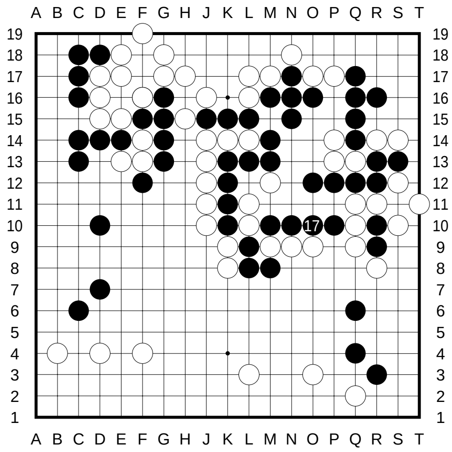
Black 115

time(2d) l6
pjiang(NR) o9



White 116

cathyd(NR) $$$$ −> pjiang
pjiang(NR) d7 bad
gan(6d) is d7 more important than o8?
cathyd(NR) d7 slow?, non−urgent?
zhuge(NR) cathyd should change name to "cashed"
pjiang(NR) w still ahead



Black 117

min(8k) ' UTSC, solute you:)

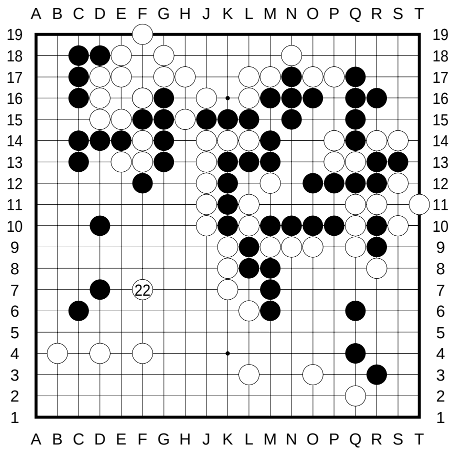
zhong(NR) playboy is an instant attraction. :)



White 122

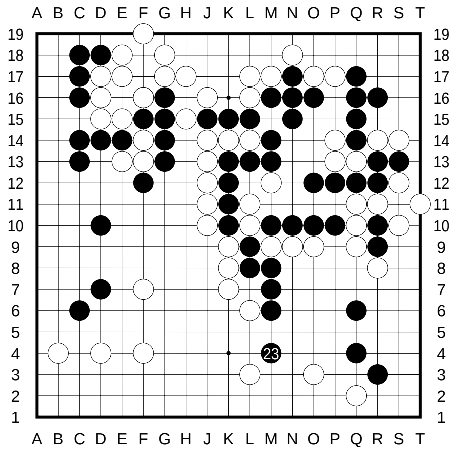
ychen(NR) W gains the thickness which protects h4 area
zhong(NR) f7 is a good move.
zhuge(NR) make a movie, zhong. :–)
jzheng(2d) w really likes r2, but there is p9 there.
zhong(NR) i don't make porno movie, zhuge. :)



Black 123

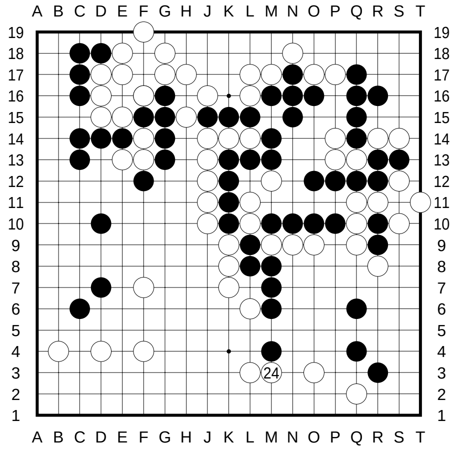
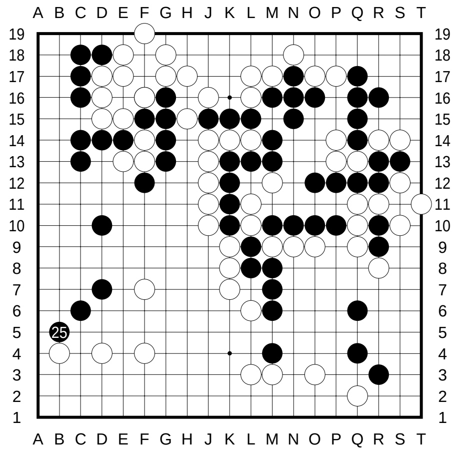
xzhao(4d) c8 is still there



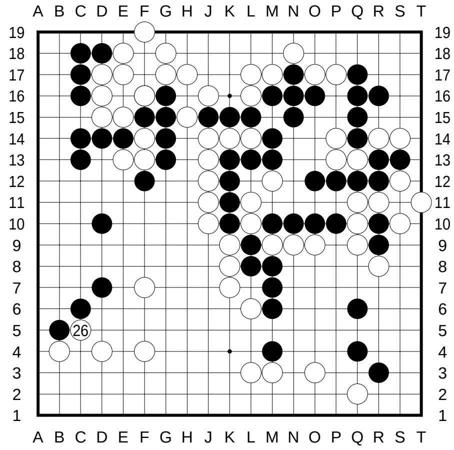
White 124

min(8k) zhuge and guan yu watch porno movie?
pjiang(NR) but i think f7 is not the key pt



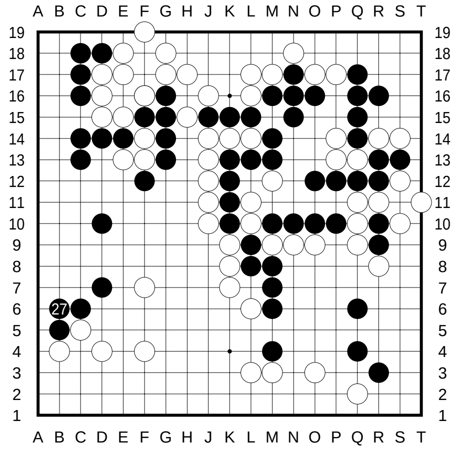
Black 125

chouqi(NR) e9



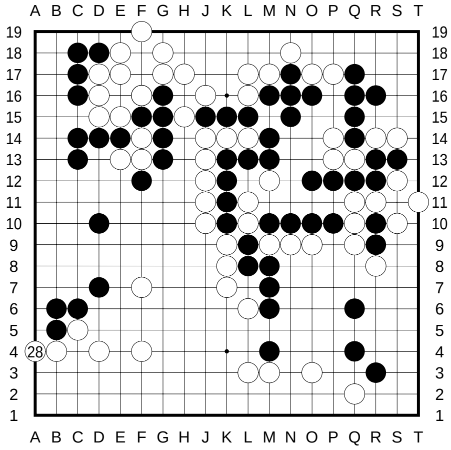
White 126

zhong(NR) f7 was the biggest point.



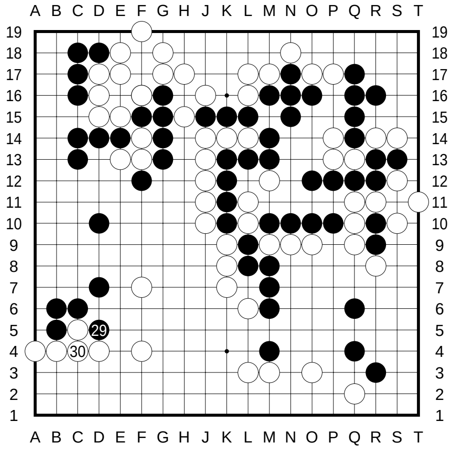
Black 127

pjiang(NR) now it would be harder for w to seperate b



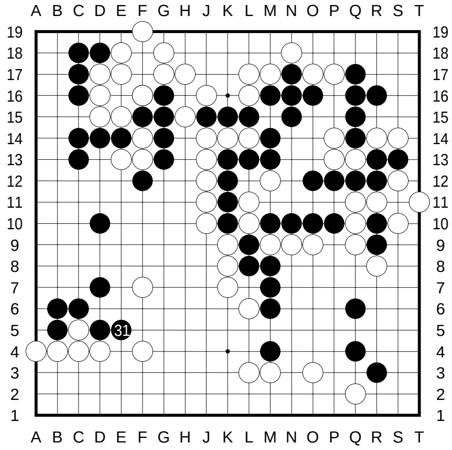
White 128

pjiang(NR) if b thick, w thin
gan(6d) w now is in lead because of b d7



Black 129 – White 130

zhong(NR) i think a4 may be slow.
pjiang(NR) w has always been in lead



Black 131

pjiang(NR) i don't like k4 either
MAN(2d) r2 biggest

szy(5d) p5?
