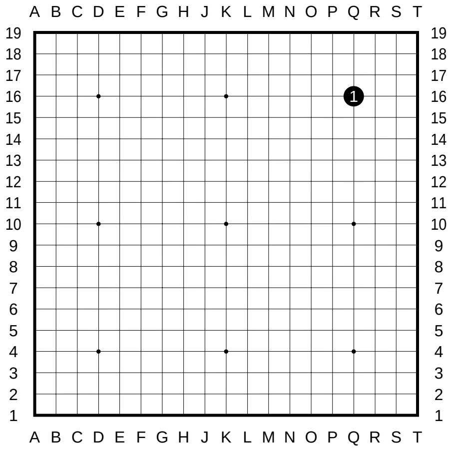
jy23, 7d
versus
sheah, 5p

Jan van der Steen

1993-01-22

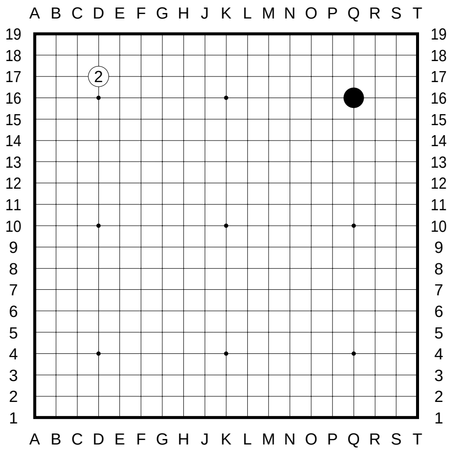
1 The Game

Black: jy23, 7d
White: sheah, 5p
Date: 1993-01-22
Place: IGS: 128.32.201.46 6969
Result: W+4.5



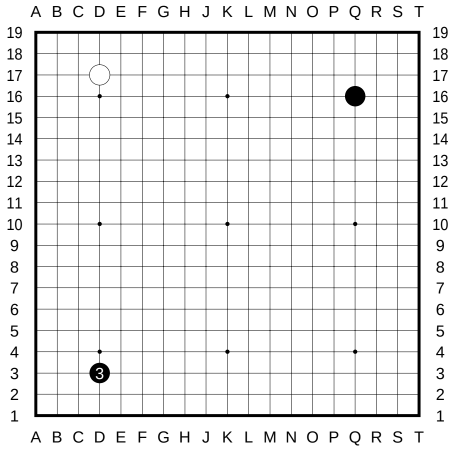
Black 1

zhuge(NR) game for the Chinese New Year! :–)



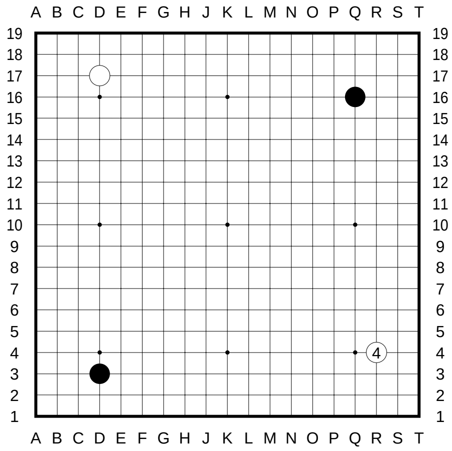
White 2

jansteen(4d) wow!
presson(1k) wow what, jan?



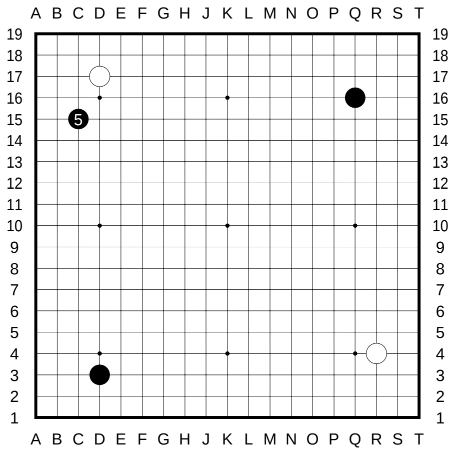
Black 3

jansteen(4d) st move hoshi
tom(1k) d17!?



White 4

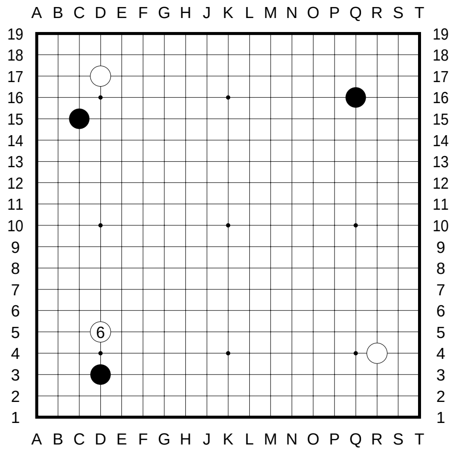
Curtis(12k) it's the famed Abyssinian Opening!



Black 5

et(NR) They are quite punctual.

presson(1k) you mean you know they'll be here, et?

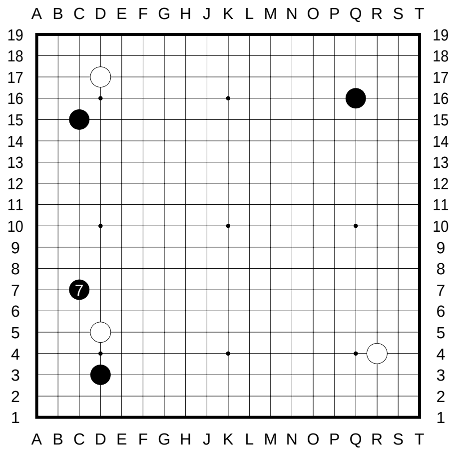


White 6

et(NR) yes.

jansteen(4d) Lot's of theory about this fuseki type

zhuge(NR) yes, andrew/zhong posted on rec.games.go



Black 7

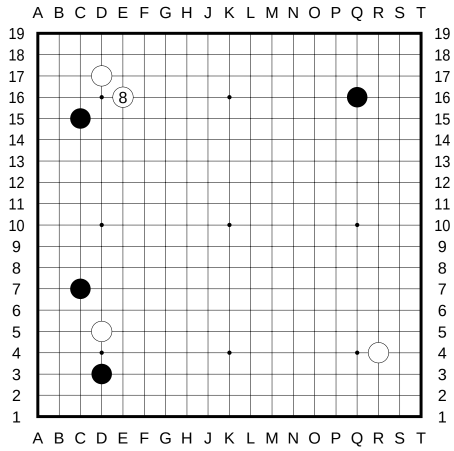
presson(1k) sigh. my netnews is about 1–2 days late:(

jjs(4d) yeah, and zhong also mailed to uiuc–go players

jansteen(4d) black keeps e16 in mind while playing c7

bn(2k) however it is rare in today's games.

bh(1d) i heard someone announced it here on IGS



White 8

zhuge(NR) amazing game 17 still has 16 observers. :–)

jansteen(4d) Sometimes news doesn't come at all presson

jjs(4d) c7 rare on igs

jansteen(4d) Go get them zhuge!

zhuge(NR) let me try. :–)

pepboy(NR) this is an even game, komi 5.5

bn(2k) grab them.:–)

presson(1k) i know, jan:(

pepboy(NR) okay, i set the komi to 5.5

wwww(3d) on my board it says komi 0.5

et(NR) It looks like it is gonna be a long fierce game.

bh(1d) it is komi 0.5

jansteen(4d) c5 would be normal (to me)

cops(NR) it's gonna a long game now.

et(NR) I see komi 5.5, too.

zhuge(NR) okay jan, ### for game 17 is now a single digit. :–)

bn(2k) how about D12?

jjs(4d) what id d13?

presson(1k) ya, 5.5 now. don't know what happens

pepboy(NR) sheah is sitting besides me, his number is 217–244–4392
feel free to talk with him :–)

jjs(4d) r u zhong or bbbb?

pepboy(NR) i am pepboy, jjs

jjs(4d) no talk while playing

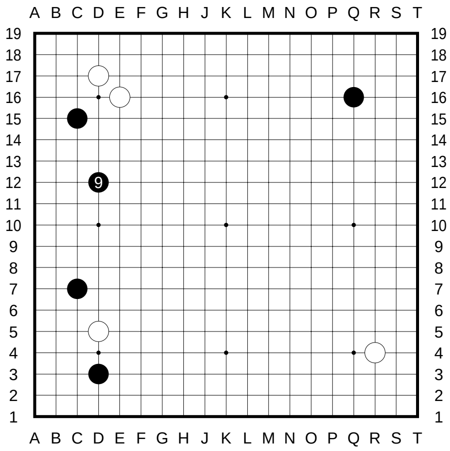
zhuge(NR) pepboy, what if i am not in illinois? do you have a 1–800 number? :–)

pepboy(NR) :–) not yet,

bh(1d) you should set up one next time, tho

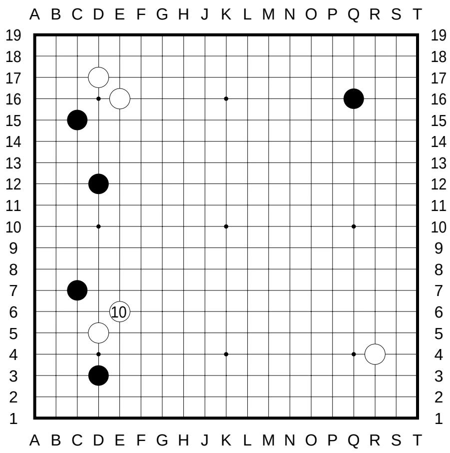
smile2(1d) r u one the only pepboy?

pepboy(NR) needs your sponsorship



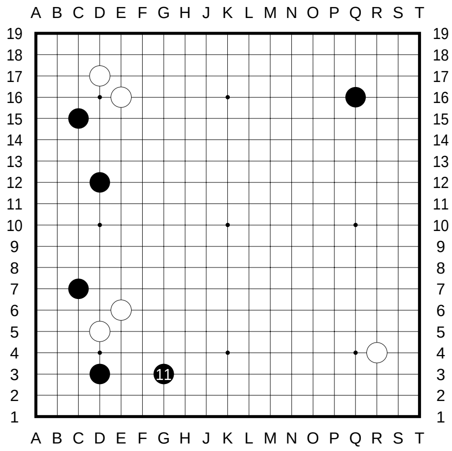
Black 9

pepboy(NR) i am one of pepboys :–)
smile2(1d) u mean all your family use the same login?
zhuge(NR) i am another... although i am not sure about the definition of pepboy. :–)
cops(NR) who are other pepboys then?
smile2(1d) maybe pepboy means NR
jjs(4d) wildcat is a pepboy?
pepboy(NR) pep means brisky, high spirited :–) i thought it were something related to pepper :–)
bh(1d) i thought pepboy was the famous auto parts store
jjs(4d) yeah, better than shylock
zhuge(NR) i see... well, i guess sheah is watching our kibitzing and not playing!



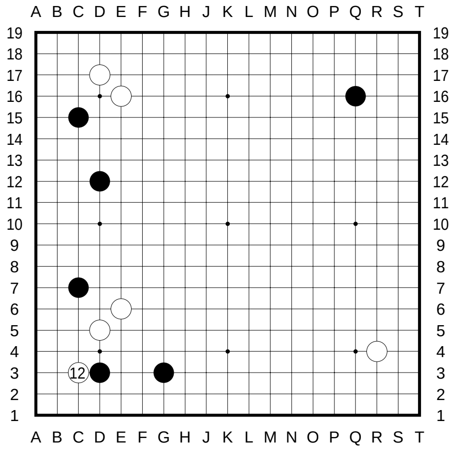
White 10

zhuge(NR) see, he finally moved when we quiet down. :–)
bn(2k) E7
zhuge(NR) e6 is new to me.



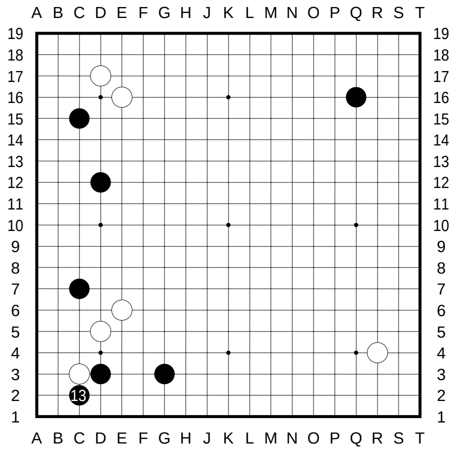
Black 11

smile2(1d) why W likes diaganals?
bn(2k) e6 is joseki.
jjs(4d) that means confidence, smiles
pepboy(NR) well, zhuge, i am sorry to say your shibumi is not great at all :–)
zhuge(NR) forgot to bring my book. :–)
Brigitta(2d) what is shibumi?
smile2(1d) B seemed to be much nerverous



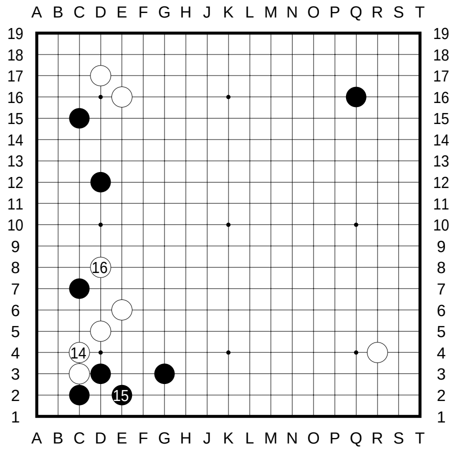
White 12

pepboy(NR) shibumi is a chemical substance
jansteen(4d) pepboy: what's shibumi?
cops(NR) what is joseki?



Black 13

rhoades(1d) w C3 before E6 doesn't work very well

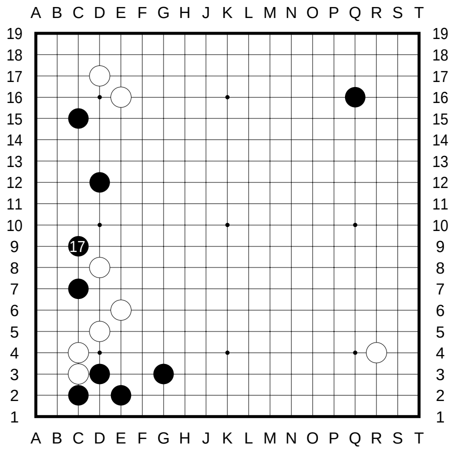


White 14 – White 16

pepboy(NR) this magic substance could be absorbed by human, and improve his go skill by a great amount

smile2(1d) one of them is bumiqi

lounela(3d) now b position is low.

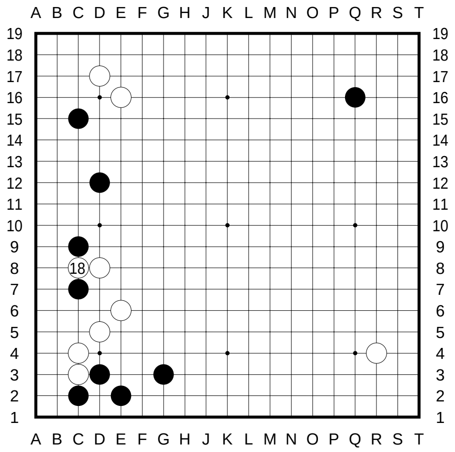


Black 17

jansteen(4d) sounds like i need that stuff :)

ajikeshi(NR) where can I get some?

bn(2k) i guess that is jy23's style.

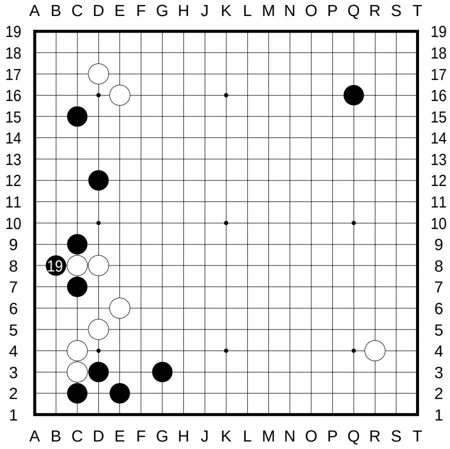


White 18

zhuge(NR) i bought a drop of that medicine from pepboy for $50,000.

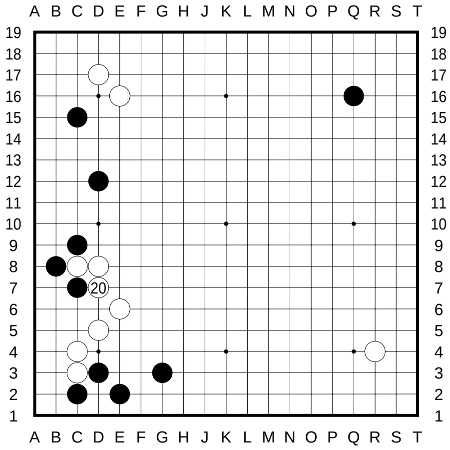
wer(NR) b should have g4 here

jansteen(4d) did it help zhuge?



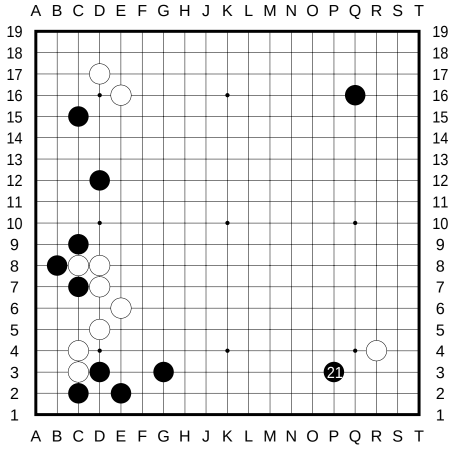
Black 19

jjs(4d) so u r a 5d now, zhuge?



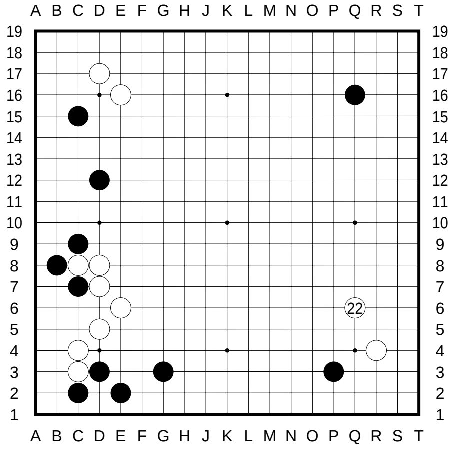
White 20

zhuge(NR) yeah, it helped. i almost quit go.
pepboy(NR) if zhuge got the expected effect, he would be 8p now :−)
jansteen(4d) too strong, not interesting anymore
zhuge(NR) i should have paid less and get a smaller drop.
smile2(1d) but if by getting that stuff, you won a \$1000000 game, would that be a good deal? pepboy, would you like the business?
ajikeshi(NR) maybe zhuge was 20 kyu before he took it!
bn(2k) B9 or B7?
pepboy(NR) sheah's thesis topic is how to synthesize shibumi in laboratory environment :−)
bn(2k) or B10



Black 21

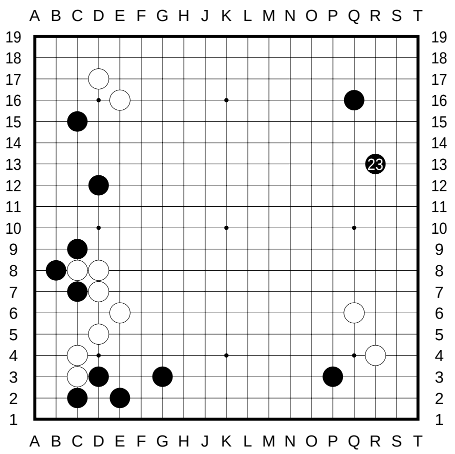
lounela(3d) b7 is normal style, I think.
pepboy(NR) and zhuge is one of the subjects :−)
smile2(1d) b7 maybe too small for them,
samuels(NR) shibumi is the code of honor
zhuge(NR) w shape looks strange to me.



White 22

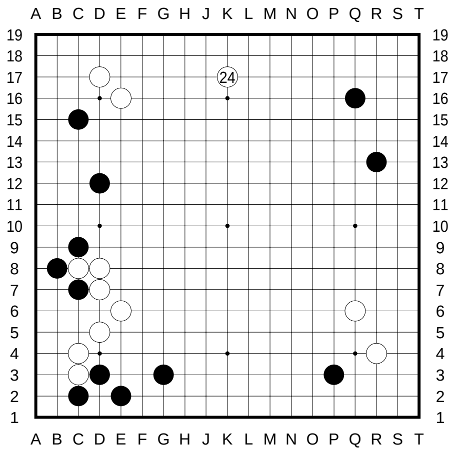
jjs(4d) what language is that, zhuge?
smile2(1d) bumi what?
zhuge(NR) shibumi? japanese.
pjiang(NR) w is so thick. b is behind
smile2(1d) Chinese
et(NR) already?
zhuge(NR) what a statement, pjiang?!
jjs(4d) b is already behind?
ychen(NR) b's position is too low in the south
bh(1d) b ok
cccc(4k) b is behind because w is 5p
smile2(1d) which is north
zhuge(NR) where is south? i didn't bring a compass.
jansteen(4d) Cho does it all the time!
hahaha
jjs(4d) up=N, down=S, what a map.
cops(NR) what w gonna to do? the strong

atomosphere is not help much, i think.
zhuge(NR) sorry, ychen. i forgot that's your terminology. :–)
bn(2k) L4?
pepboy(NR) sheah said there is a severe invasion at C11
ychen(NR) all in my book :) haha
rhoades(1d) seems time for b to make long extension from Q16
zhuge(NR) gee, we have 65 observers!
pepboy(NR) he was thinking of not playing Q6, but C11
cccc(4k) i think p3 is probably not very good
rhoades(1d) maybe K17?
jjs(4d) so sheah has a sectrary,
zhuge(NR) in old days, you could have *maximum* 63 people *on*!
jjs(4d) does jy23 have one?
lounela(3d) I find q6 very interesting strategy.
bn(2k) Q6 shows sheah is confident with his situation.
pepboy(NR) sorry, i have to put some marks
smile2(1d) i think he breaks the record already
hi(2k) 61 we needed 3 file descriptors.
bn(2k) otherwise he would have chosen more violent move.
zhuge(NR) thanks hi.
hi(2k) :)
jjs(4d) n4?
rhoades(1d) Q6 seems logical, can't let b go Q5
hi(2k) I had thought m4 then w would play in top left
jansteen(4d) i think black should for get about lower edge for the moment
rhoades(1d) squeeze near M3 would be risky
lounela(3d) hard to find a move that does not make b bottom position even flatter.
how about b r8?
rhoades(1d) w is preventing b from creating any large potential



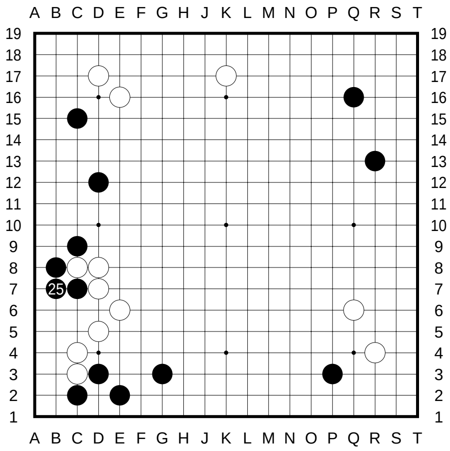
Black 23

jjs(4d) does all these maens g3 too low?
jansteen(4d) agree jjs
rhoades(1d) after g3 i expected b2 instead of e2
lanlan(1d) b is also solid
smile2(1d) how sheah login? Isn't he a student somewhere around the world?
lounela(3d) yes.
jjs(4d) b has already TuoXian 2 times
jansteen(4d) b2 would have left bad weaknesses rhaodes
cops(NR) b is not solid as it looks
zhuge(NR) yes, sheah is study chemistry in uiuc... am i right, pepboy?
me2(3k) what is TuoXian
zhuge(NR) tuo xian = tenuki.



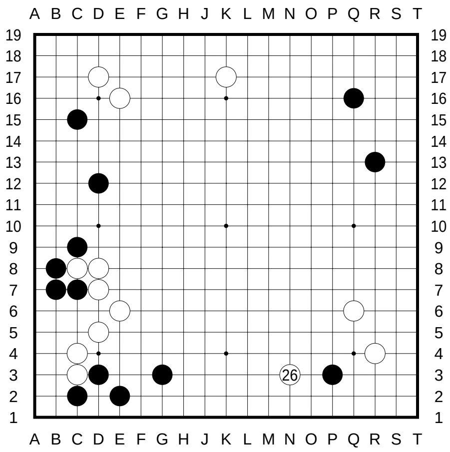
White 24

pepboy(NR) yeah, otherwise how can you get shibumi, zhuge?
me2(3k) thanks
jjs(4d) too nad , go to go, c u guys!
zhuge(NR) bye jjs... :–(
pepboy(NR) good
jansteen(4d) too bad, his boss maybe?
pepboy(NR) no
jwu(2d) tuo xian = surrender, :)
bh(1d) most likely, jan
zhuge(NR) jjs used to be so noisy.
smile2(1d) no
jansteen(4d) Is sheah playing from the screen or a board pepboy?
cops(NR) you are the most noisy guy, zhuge
zhuge(NR) so what client is sheah using, pepboy?



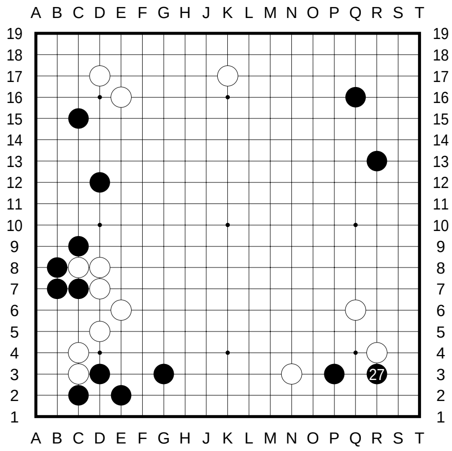
Black 25

pepboy(NR) xigc, zhuge
smile2(1d) noisy is not nosy
zhuge(NR) i know. and i desperately need supporters. so i won't be the only one get flamed. :–)
wer(NR) does sheah use xigc Button 3 ? :–)
prettygirl(???) o17
srk(27k) –laugh–



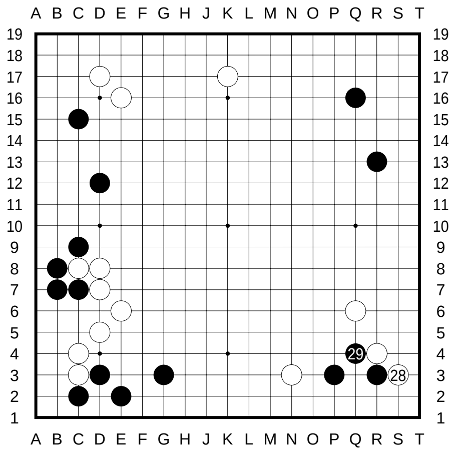
White 26

rhoades(1d) first aggressive w move
cops(NR) make noise without watch? maybe u do not need to.
bn(2k) fight begins.
prettygirl(???) no' it's ok
zhuge(NR) finally.



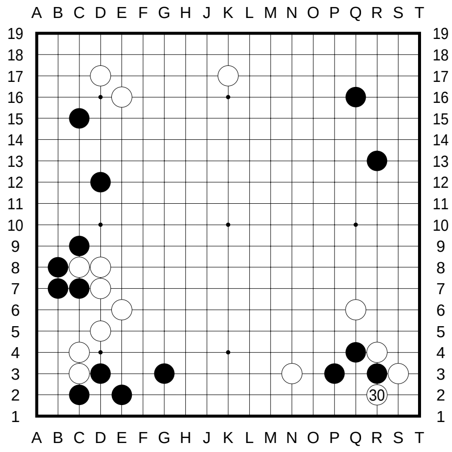
Black 27

zhuge(NR) khuang is here. clap clap clap. :–)
cops(NR) c11 invasion still work? pepboy
pepboy(NR) not any longer, cops
khuang(7d) hi, everyone!



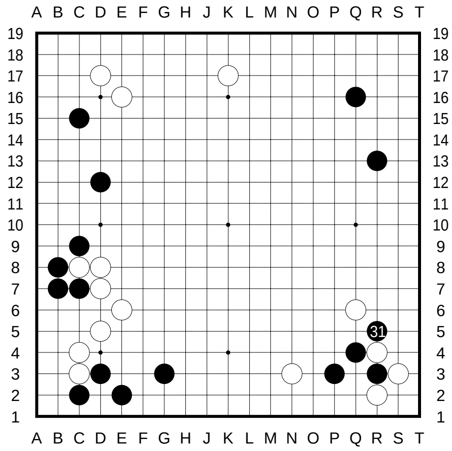
White 28 – Black 29

khuang(7d) i'm the 66th observer. :–)
lounela(3d) welcome, khuang!



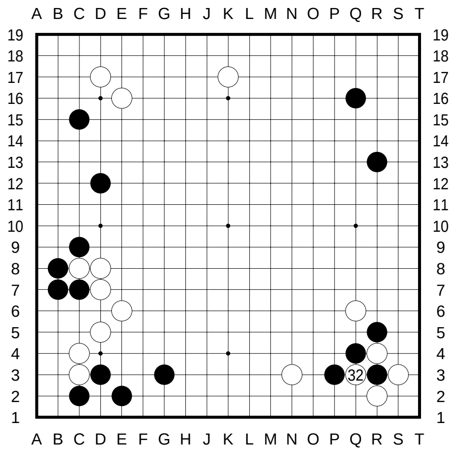
White 30

prettygirl(???) s



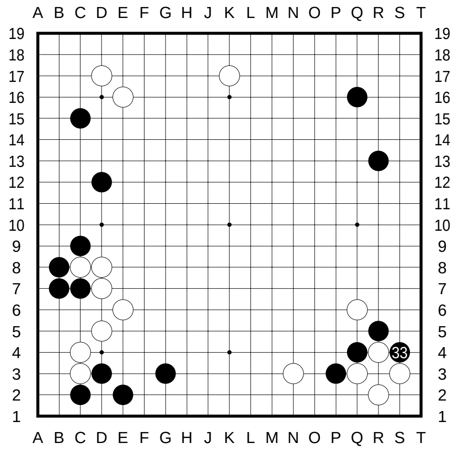
Black 31

prettygirl(???) r5



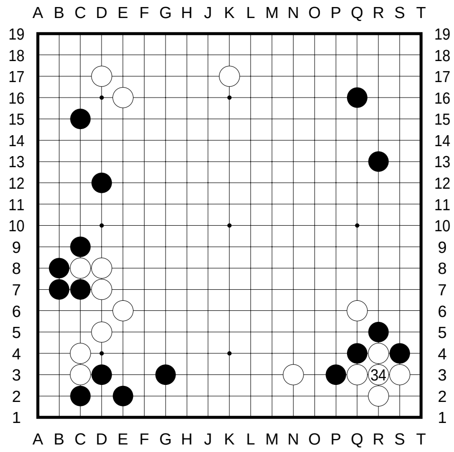
White 32

pepboy(NR) you are sitting at jjs's seat, khuang :–)



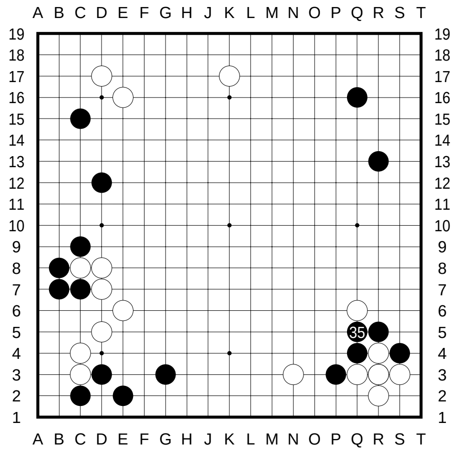
Black 33

smile2(???) how come all good guy here today but not yesterday? All seemed to get a message somewhere



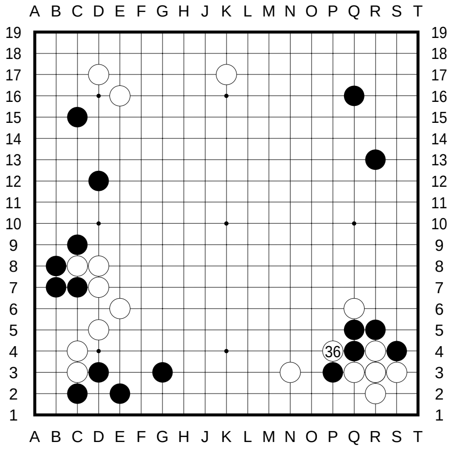
White 34

khuang(7d) why? pepboy



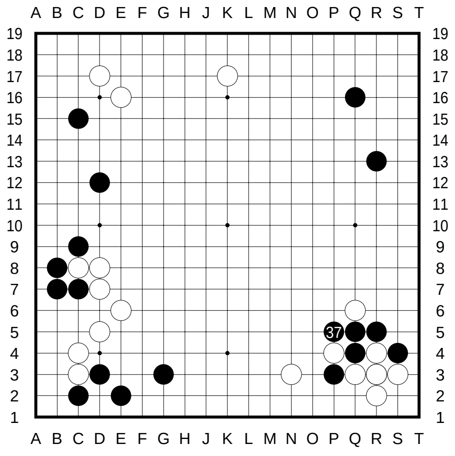
Black 35

zhuge(NR) well, good guys use bad names on other days. :−)
cccc(4k) is r2 good?
lounela(3d) maybe the announcement in the news has something to do with it :−)
KING(NR) who's god guy? who's not?



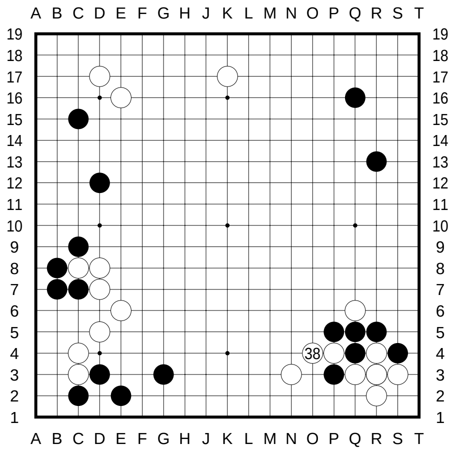
White 36

bh(1d) usually a KING is bad
jansteen(4d) r2 is kiai cccc
bn(2k) P6?
smile2(???) KING is a good guy
cccc(4k) what is kiai?
KING(NR) not Martin Luther King. :−)
cops(NR) b seems not good at lower right conner
pjiang(NR) i think b gains here
KING(NR) not bad.
jansteen(4d) kiai is "fighting spirit", or "going your own way"
cops(NR) how
rhoades(1d) b can't expect much in low right, he two moves behind there
bn(2k) good enough as he tenuki here.
pjiang(NR) w get the less valuable side
cccc(4k) i don't think b is too bad here considering w has 2 more moves here.
jansteen(4d) the development in lower−right is ok for black
pjiang(NR) it's great for b
cccc(4k) what is kiai anyway, jan?
KING(NR) p6 is next move.
lounela(3d) any choice about p5 next?
jansteen(4d) kiai is "fighting spirit", or "going your own way"
cops(NR) p6?



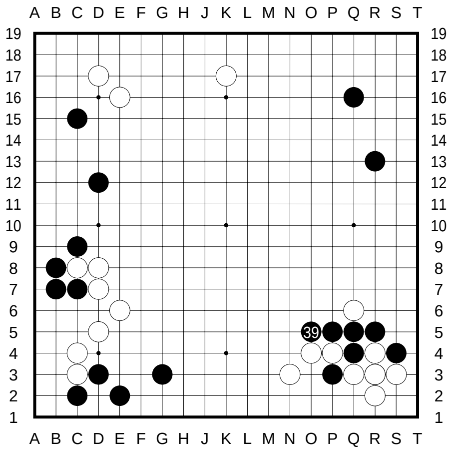
Black 37

KING(NR) a Japanese food. :−)
et(NR) p5 , then q6?
prettygirl(???) p6 is bad
smile2(???) fish?



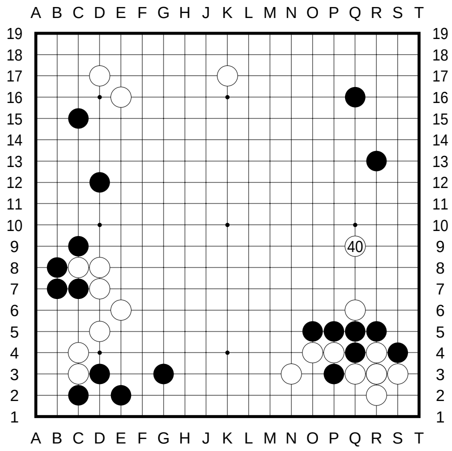
White 38

pjiang(NR) with g3, this side is not as good as black's side
thanatos(15k) in martial arts, 'kiai' always meant a loud, intimidating scream
cccc(4k) thanx, jan
smile2(???) p6 is a typo



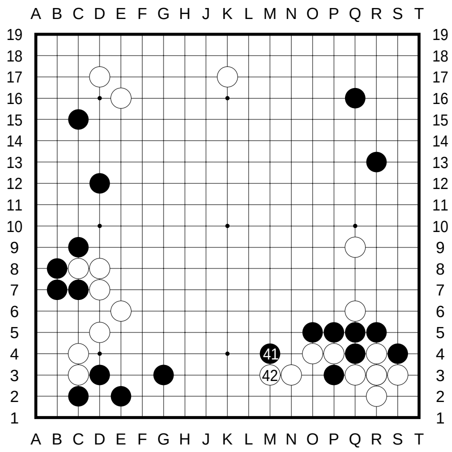
Black 39

et(NR) I mean q7.
khuang(7d) then q9
lounela(3d) I think b will something like r9 next
cops(NR) what is typo?
jansteen(4d) u'r welcome cccc
smile2(???) p6 is typo
zhuge(NR) typo=typing error.
pjiang(NR) i ftped the file again, and created pcigc303
zhuge(NR) that's old, pjiang.
prettygirl(???) i don't like o5
pjiang(NR) what do u mean old, zhuge?
me2(3k) seems W right corner make B left less & W easy invade/reduce right ??
bn(2k) I don't o5 either.
jansteen(4d) funny, now black tries to make w invest on lower edge
zhuge(NR) the newest pcigc is pcigc44.
jansteen(4d) lower edge is of no importance whatsoever
KING(NR) I think r2 is wrong choice.
lounela(3d) n5 seems forced.
bn(2k) w n5, b o7?
jansteen(4d) no, n6!
zhuge(NR) n6 shows kiai! :–)
lounela(3d) n5 n6 q10?
bn(2k) what is kiai?
jansteen(4d) right zhuge!
then better q10 immediately
cccc(4k) if r2 is no good then the mistake was made at n3
zhuge(NR) try "translate kiai" ––– fortunately not a long list. :–)
KING(NR) gee, zhuge like Japanese food too. :–)
pepboy(NR) would you like to edit the comments and post the game record later, jan?
jansteen(4d) sure pepboy, no problem
cops(NR) w n5 b n6 w q10
zhuge(NR) jan will have to consult with kishiko first... :–)
lanlan(1d) n5 is necessary
pepboy(NR) that's great
rhoades(1d) Q11 better for w than Q10, creates potential in upper left
junky(22k) you guys r too noisy!
prettygirl(???) that's true
jansteen(4d) kishiko said it's ok (pfuff :)
KING(NR) but not junky. :–)
pepboy(NR) :–)
pjiang(NR) very tough for White here
sliao(NR) jan did a very nice job on the first Meijin game, I mean the PS file.



White 40

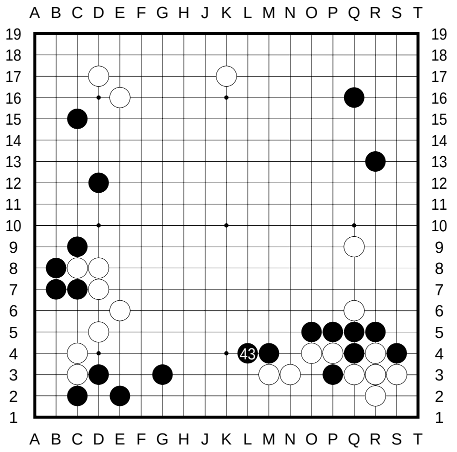
zhuge(NR) consider b had placed r13, he does look better.
jansteen(4d) thank you sliao :)
zhuge(NR) q9?! wow... big fight coming!



Black 41 – White 42

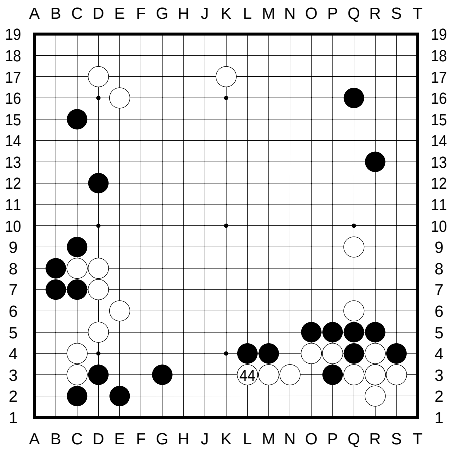
jansteen(4d) q9 important, w needs a root here
smile2(???) Meijin is not here? Any one call him?
jansteen(4d) I don't understand m4
sliao(NR) we should thank you, jan.
cops(NR) bad? b n4 w o3 b m3 is better for b
pepboy(NR) m4 is expected by sheah
KING(NR) Thank Chairman Mao. :–)
pepboy(NR) Q9 is interesting

lounela(3d) m4 to prevent w n5



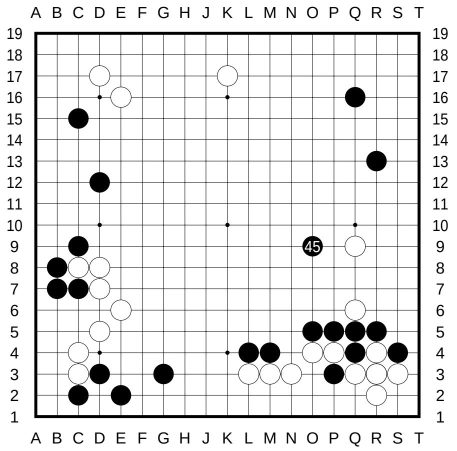
Black 43

jy(6d) m4 may provent n5



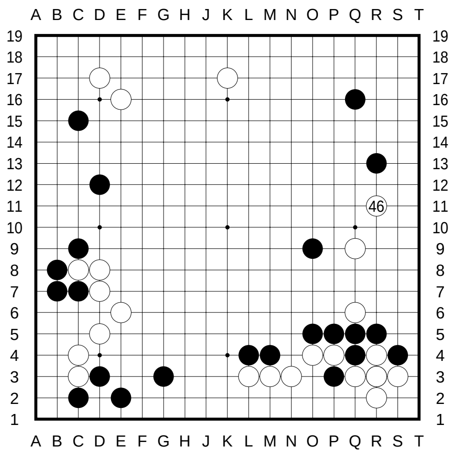
White 44

rhoades(1d) M4 stops N5 and helps O5 in later fight
junky(22k) where is this game taking place?
pepboy(NR) if w plays N5, instead of Q9, b would play N6, then w m5, b n5
jansteen(4d) on IGS!
pepboy(NR) that is good for b
KING(NR) right here.
zhuge(NR) what a innocent question by junky. :–)
me2(3k) seems like B giving W profit for not much return ??
rhoades(1d) b gets enough thickness to compensate for w profit
bn(2k) prepare to attack.
junky(22k) well i certainly am not going to comment on the game :)



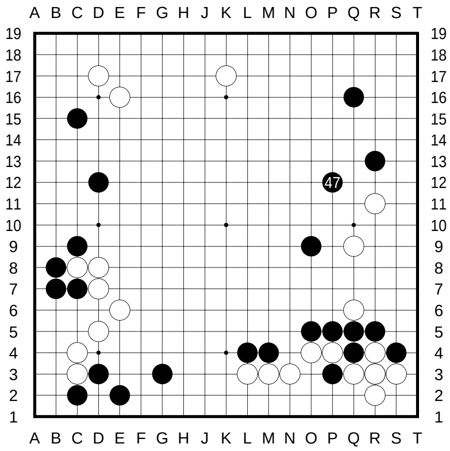
Black 45

KING(NR) b'll make big money with m4 l4.
zhuge(NR) that's fine, junky. just talk about calgary. :–)
rhoades(1d) go ahead junky, you won't be more wrong than me
prettygirl(???) there r 77 people here
me2(3k) but do
KING(NR) how many r girls?
smile2(???) isn't that fair to both side, KING?
jansteen(4d) k4 no choice?!
cops(NR) W k4 later is serious
KING(NR) I like b tho.



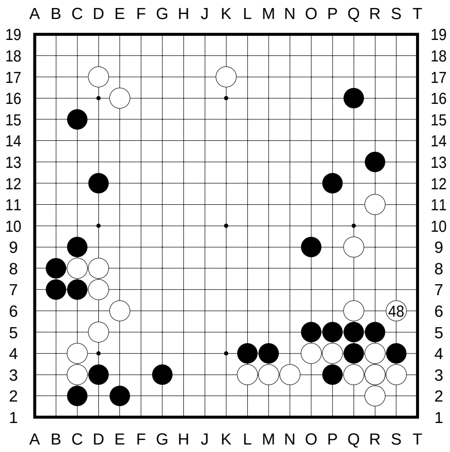
White 46

smile2(???) want to find a QUEEN?
jansteen(4d) b considers m4–l4 kikashi stones, he's willing to sacrifice them (right zhuge :)
KING(NR) sure. why not?



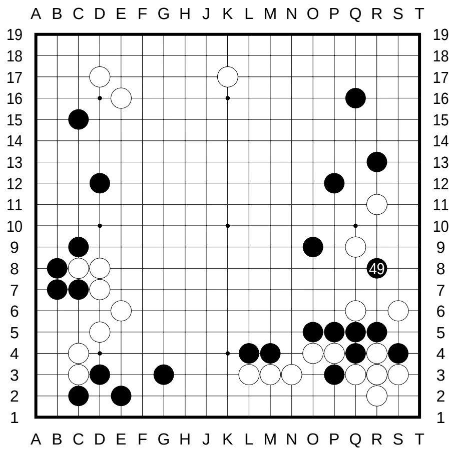
Black 47

rhoades(1d) w has S6—S5 to get settled
i mean S6—R6
coyote(2k) KING just said he like black girl



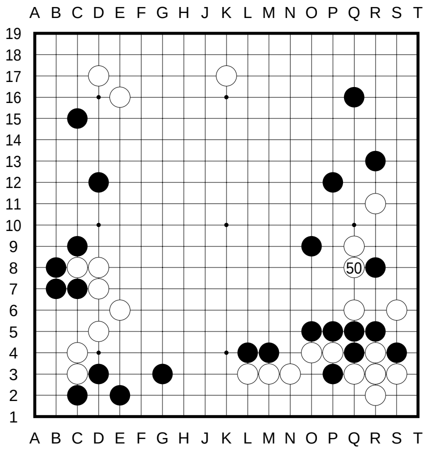
White 48

pepboy(NR) S6
lounela(3d) r11 looks pro style.
pepboy(NR) w is alive
smile2(???) will the server shut down if more than 100 people watch this game?
jansteen(4d) agre lounela, very confident taste
me2(3k) black trying to make all territory outside ??
rhoades(1d) b is eyeing attack on E6 group
cops(NR) i do not like B anyway, it pay much price.
lounela(3d) looks like w forcing him to.
KING(NR) I think b is controling the game direction after r2.
rhoades(1d) b might as well save S4 in sente
smile2(???) KING, why l4, m4 is good for B only?
rhoades(1d) later there will be ko threats against w
lounela(3d) I think better tenuki. s5 looks aji keshi.
jansteen(4d) b is doubting: s5/r6 i guess. Right pepboy?
pepboy(NR) R8
that's where b could play
me2(3k) y
KING(NR) gotta go, happy kibitzing, guys.
pepboy(NR) S5/R6 too common
rhoades(1d) ok i guess b s5 rather small right now
daedalus(8k) S5 seems to be unavoidable
me2(3k) B let W easy life looks too big eh ??
lounela(3d) s5 not worth much, and make w all safe.
cops(NR) B r8 W s5 then B is not easy to stop w invasion



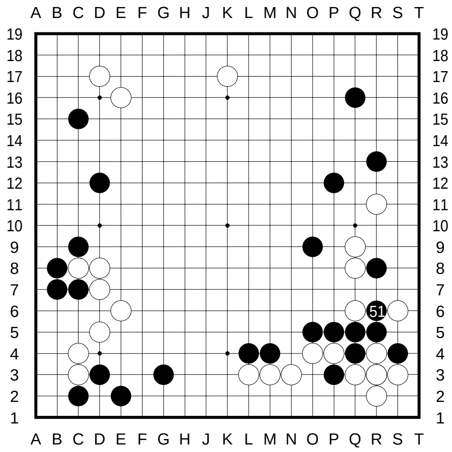
Black 49

rhoades(1d) wow!
zhuge(NR) wow!!
pepboy(NR) jy23 is quite good
daedalus(8k) s5 is not a matter of poin
pepboy(NR) R8 is expected
jansteen(4d) good reading pepboy!
rhoades(1d) not by me!
cccc(4k) r8 amatuer or pro style?
bn(2k) black already used half of the allocated time.
zhuge(NR) pepboy is reading sheah's lips. :—)
prettygirl(???) r8 is like what i play with 25k!
entropy(NR) does q8 work?
smile2(???) what is your rank?
3m(30k) was r8 expected before s6?
lounela(3d) r8 strong player style.
prettygirl(6d) who?
eric(6k) how much time did each player have in the beginning? anyone?
lounela(3d) an hour
jianxu(2k) what if white q8
bn(2k) then b r6.
thanatos(15k) b r6/
lounela(3d) q8 r7
me2(3k) does r8 make W r7 before s6 worth considering ??
smile2(???) my glass fell down when i see your rank from —30d jump to 6d in half a minute
lounela(3d) oh, agree. r6 better.



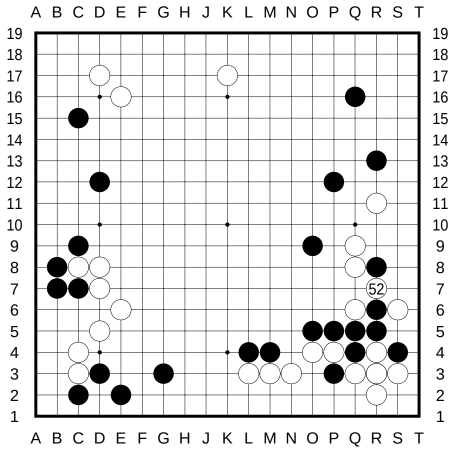
White 50

prettygirl(6d) s8 is
cops(NR) if W expect R8 then why did s6?
jianxu(2k) b r6 is no good
lounela(3d) ouch. r6 is no good now. b r7
cccc(4k) q8 should be expected from w what is b thinking here?
entropy(NR) who is better, dans?
sliao(NR) there are 87 watchers now.
lounela(3d) r7 r6 q7
me2(3k) B r7 ?
jianxu(2k) that's a road to death?
lounela(3d) no good.
bn(2k) then w p7, what's next.
prettygirl(6d) b cannot r7
zhuge(NR) hey, b can tenuki... what the proverb says? :–)
coyote(2k) I dont think B can kill
daedalus(8k) sweat, what do you think?
jwu(2d) b is thinking of r6.
bn(2k) khuang, comment?
rhoades(1d) r7 r6 q7 p7 p6 o8 s5?
prettygirl(6d) locally, r6 is the best
cops(NR) B r6 W r7 B s7 W q7 and B s9?
me2(3k) sorry meant B r6 ?
bn(2k) i think r6 is best. b still has sente.
jansteen(4d) b r6 is ok to me
lounela(3d) netither r6 nor r7 is very good, I think. w lives anyway, so maybe better play elsewhere
rhoades(1d) no doesn't work
lincl(3d) b r6 can squeeze from outside by sacrificing r6 stones.
rhoades(1d) S5 is forcing for b tho
smile2(???) I bet B will give up here soon
cops(NR) W not live unconditionally
zhuge(NR) Cho once said, he has to think about 300 moves (that's 15 variations) on some moves.
rhoades(1d) b can finish wall in sente with P7
bn(2k) does Cho have nickname?
lounela(3d) u mean Cho Chikun, zhuge?
lanlan(1d) who is cho
et(NR) I vote for r6 to take s6 for a sente.
zhuge(NR) yes. Cho Chikun.
hana(2d) n17 or G8
jianxu(2k) q7 is possible
khuang(7d) r6, the only move.
lanlan(1d) how about q10?
rhoades(1d) n17 no good, corner not secure
hana(2d) R8 group re–attack at next time...
smile2(???) give up soooooon
bn(2k) looks like jy23 will be short of time.
cops(NR) r6 is certain
me2(3k) B using alot of time here
jansteen(4d) pepboy: how about r6?
hana(2d) n17 is better because h17 attack...
zhuge(NR) i expect jy23 has calculated many moves... from now on, he will play lightning go. :–)



Black 51

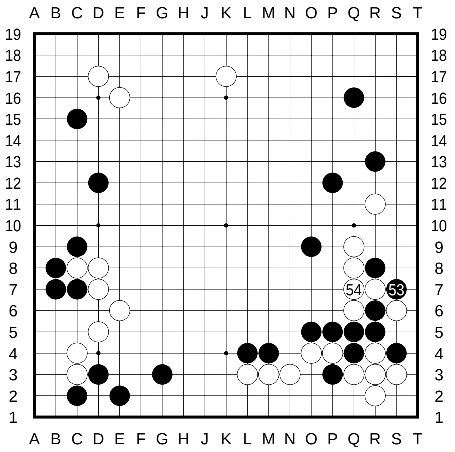
kompella(6k) what's the byoyomi for this game?



White 52

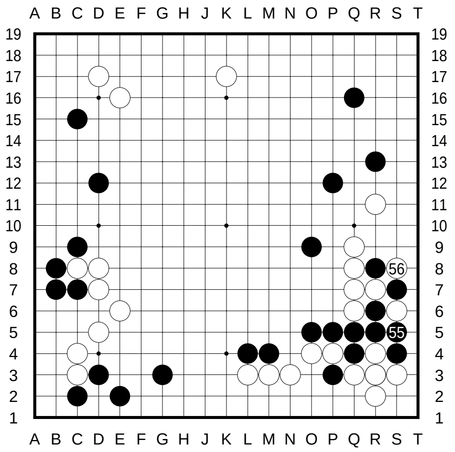
bn(2k) does sheah expect r6?:–)
jansteen(4d) semeai is good for b

zhuge(NR) good question kompella –– pepboy?



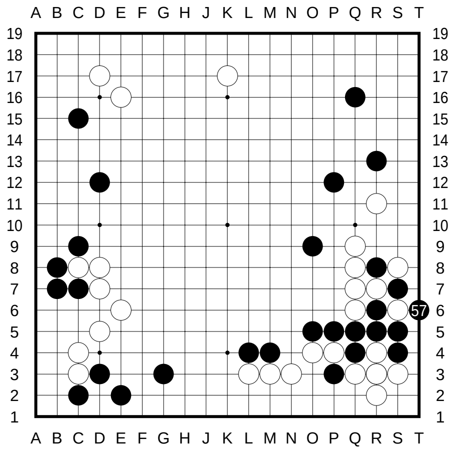
Black 53 – White 54

pepboy(NR) R6 is out of question
entropy(NR) s8
jansteen(4d) s8 now
et(NR) s5
pepboy(NR) no, jan
cops(NR) s9



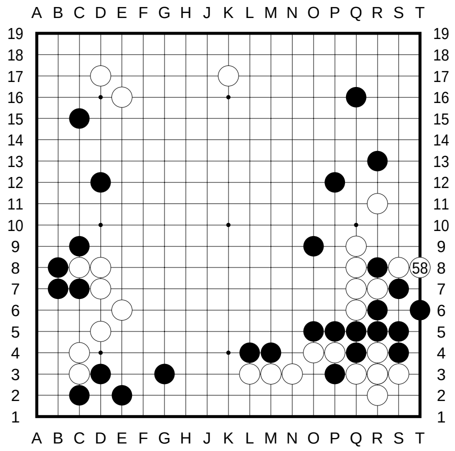
Black 55 – White 56

jansteen(4d) s8 semeai good for b isn't it?
ylwang(6d) w has p11
prettygirl(NR) s5 is good



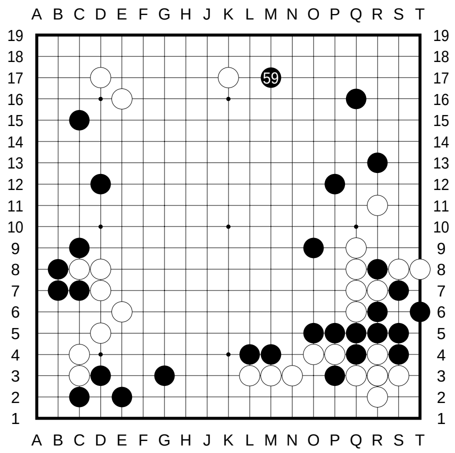
Black 57

pepboy(NR) no, S8 does not work
zhuge(NR) pepboy says: byoyomi is 25 moves/ 25 minutes.
jansteen(4d) hum, have to study it later, thanks!
pepboy(NR) :–) yes, pepboy said
entropy(NR) i c. pepboy right.
lanlan(1d) is r9 needed?
pepboy(NR) S8 will lead to a "standing rooster" [see zhuge's paper\] :–)
entropy(NR) t10 tusuji. ...
rhoades(1d) b is threatening S10
prettygirl(NR) what's ur rank, pepboy?
et(NR) can w pull out to go c16?
bn(2k) how about O8?
rhoades(1d) i expect w will simply capture R8
smile2(???) It will reach 100 people soon, very soon. As soon as possible :–)
jy(6d) w has to answer or loses eye here.
me2(3k) y
bn(2k) who is jy?:–)
prettygirl(NR) what?
cops(NR) r9 is needed? or tuo1 xian1? pepboy?
zhuge(NR) server will be down in 2 (10) minutes. :–)
lanlan(1d) really?
pepboy(NR) there are a few points, like T8, S9
me2(3k) Ouch !
bn(2k) too bad.:–(
me2(3k) we overloaded ?!?
prettygirl(NR) not true, zhuge
jansteen(4d) no problem, we'll be back!
hi(2k) see you all in a few minutes.
squid(8k) yes, what about t8?
cops(NR) really?
kompella(6k) one move back?
squid(8k) looks like it
zhuge(NR) looks like so.



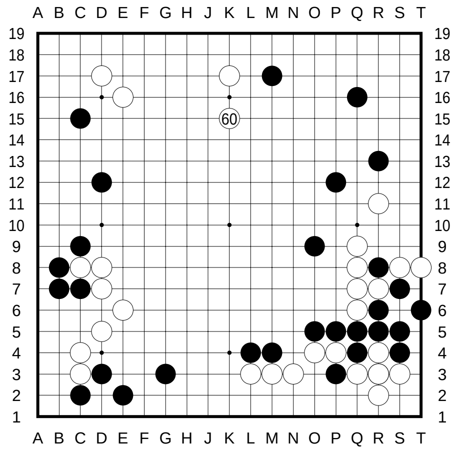
White 58

squid(8k) forgot to save i guess
jjs(4d) wow, so many moves after i leaving
et(NR) t7, still a sente.
or r10?
jjs(4d) y t7 a sente? y not n4?
me2(3k) isn't T7 sente ??



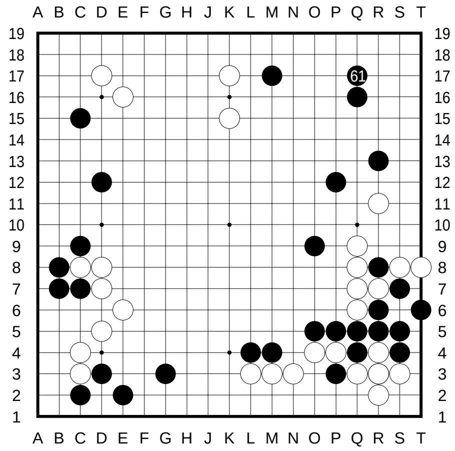
Black 59

zhuge(NR) who gained in the left side fight?
weihe(24k) why not b2



White 60

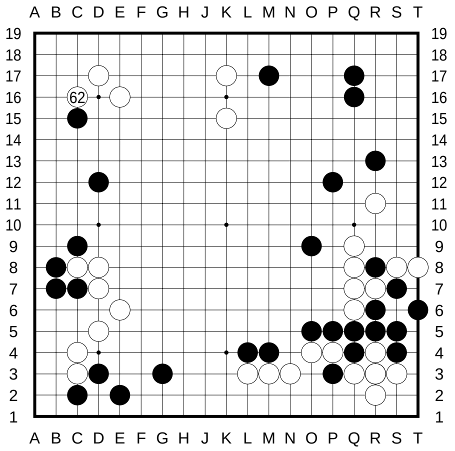
pepboy(NR) be quiet, jjs
cops(NR) who is lead?
zhuge(NR) i mean right–side.
jjs(4d) y be quiet?
cccc(4k) i think it's a fair result
jjs(4d) who is worse?
zhuge(NR) jjs is in uiuc; if you're too noisy, you'll influence sheah's play.



Black 61

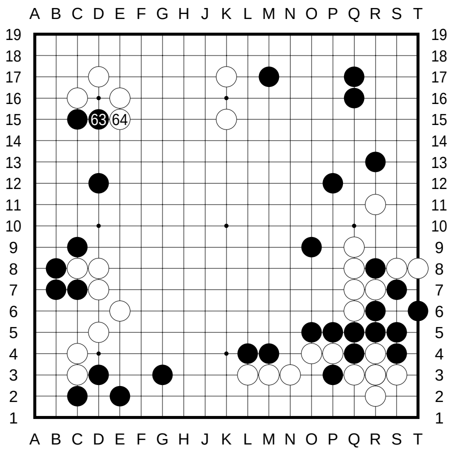
lanlan(1d) q17 is good
jjs(4d) oops, i have a kind of 'field'
rhoades(1d) lot of profit
zhuge(NR) yes, and you have a strong field, jjs. :–)
et(NR) c16
bn(2k) anybody using tgigc?
rhoades(1d) K4
bn(2k) a stone is missing on my board.
aaron(6d) m15 will be large...for either side.
zhuge(NR) jansteen would be, bn.
cops(NR) W make live successfully, then what B gain? the upper conner?
zhuge(NR) sorry, bn.. is tgigc for atari?
cops(NR) B paid the lower side

pepboy(NR) you're quite mistaken, zhuge
bn(2k) no, zhuge, but tgigc for pc.
pepboy(NR) tgigc is for pc
zhuge(NR) oops...
jjs(4d) invade left side?
zhuge(NR) i am not using any client at this moment. :–)
bn(2k) c11?
lounela(3d) we seem to have lost *lots* of the audience
me2(3k) very quiet now
lanlan(1d) all hungry
hi(2k) only 63! oh my! :)
jjs(4d) how about around o9?
zhuge(NR) :–)
cops(NR) what's your opinon zhuge?



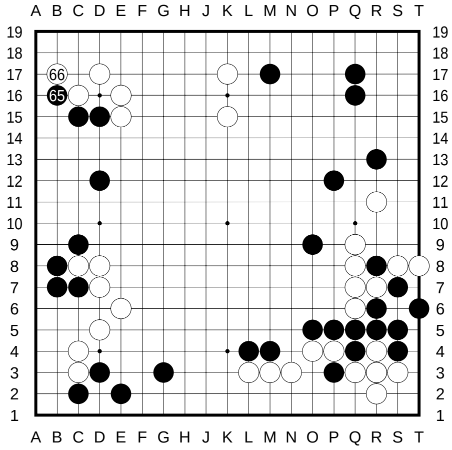
White 62

zhuge(NR) on what?
xiaoguizi(5d) is that the result of zhuge's trick?
lounela(3d) c16 pro style, again.



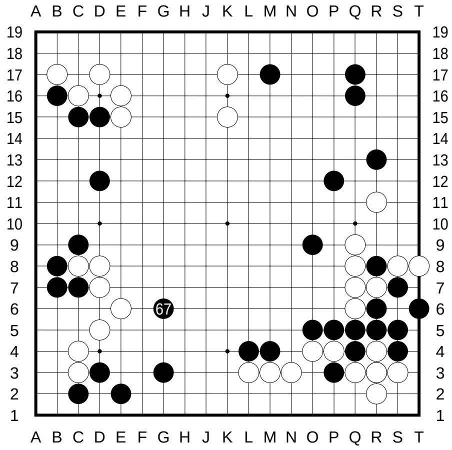
Black 63 – White 64

zhuge(NR) if about the game, it should be played as planned. :–)
cops(NR) the gain and lost in left side
jjs(4d) wow, we have another 7d come\]oing
ajikeshi(NR) how about w k4 b k5 w m6?
lanlan(1d) who is another 7d?
aaron(6d) b might tenuki...



Black 65 – White 66

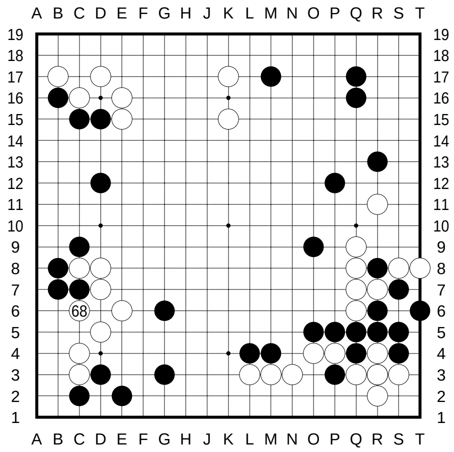
jjs(4d) any comments, khuang?
khuang(7d) i'm the 66th observer again. :–)
aaron(6d) kibitz I don't understand b16.
me2(3k) does W still have c11 or has it gone ???
squid(8k) now what?
bn(2k) M15 biggest.
zhuge(NR) khuang loves the number 66.
pjiang(NR) it seems w is ahead



Black 67

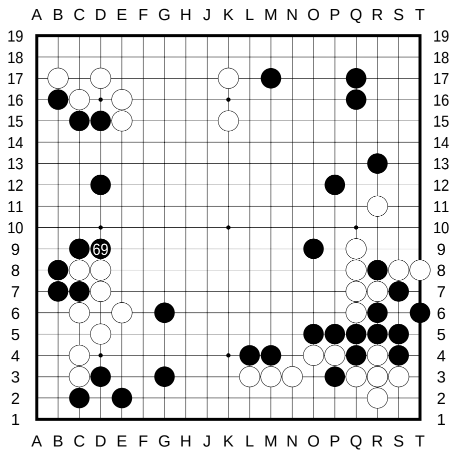
cccc(4k) can you comment on the result on right side, khuang?
zhuge(NR) and we know 66 = 1+2+3+4+5+6+7+8+9+10+11
et(NR) c6
zhuge(NR) b shape looks quite good. but can he hold this frame?
pepboy(NR) no, zhuge, w is quite ahead
cops(NR) i don't think so
lounela(3d) e10?
zhuge(NR) w is *quite* ahead???

aaron(6d) why g6? I feel very weak...
pepboy(NR) yeah
pjiang(NR) i agree, quite ahead
fei(4d) i feel b better
jjs(4d) got to go again, who will mail the game to me later?
pepboy(NR) do you need more doses of shibumi, zhuge? :—) $3250.00 each dose
jjs(4d) bye, guys!
zhuge(NR) hard for me to swallow, although i am so hungry. :—)
fei(4d) what's shibumi?
pepboy(NR) some sea food
:—) hehe
squid(8k) what kind of sea food?
pepboy(NR) squid



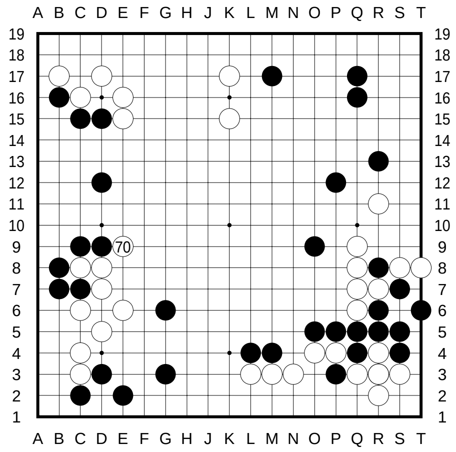
White 68

lanlan(1d) made of squid:)
pepboy(NR) they call it shibumi in japanese
squid(8k) :)
jonathan(10k) I wish there were different "channels" for kibitzing ...



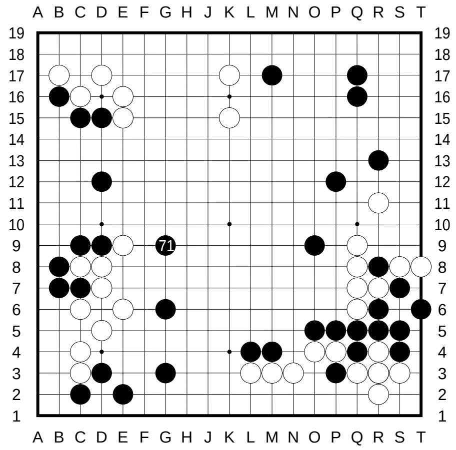
Black 69

lanlan(1d) five pies
squid(8k) wow, c6 nice



White 70

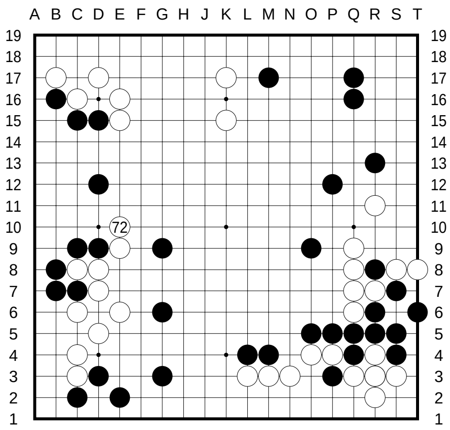
cops(NR) W k4 is still serious, am i right? pepboy



Black 71

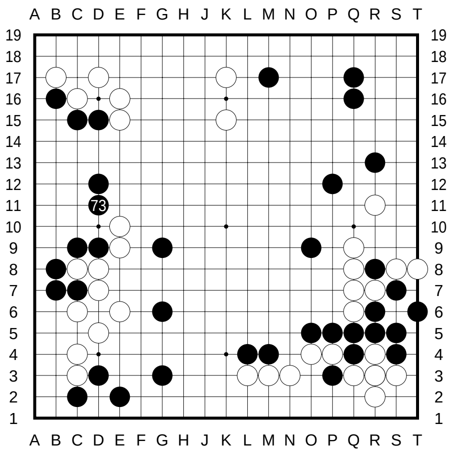
REM(4k) Just for fun I decided to count the game already. I have White
pepboy(NR) K4 is quite good
REM(4k) ahead by 1 point on the board, i.e. 6.5 points including komi,
so black needs to get at least 7 points in the center to win.
zhuge(NR) okay, my count is that b is trailing by 5 points on the board... so with komi that's 10.
so b needs to get 10 points at the middle.
pepboy(NR) G6 and G9 are a kind of strange
yanj(NR) is n6 possible?
pepboy(NR) but i might be always wrong :—)
REM(4k) I assumed black can flatten down white's moyo along top side.
fei(4d) i guess b's center bigger than 10 pts
cops(NR) B g9 is for what? he can not make it i think
squid(8k) b streaching, maybe too much
zhuge(NR) yeah, w will break through.

pjiang(NR) g9 very thin
aho(NR) what's komi?
bn(2k) g9 is the move when fell behind, i guess.
aho(NR) sorry, what _is_ komi?
zhuge(NR) komi = compensation. b agrees to give w 5.5 points at the beginning.
squid(8k) for the advantage of going first
zhuge(NR) because b moves first.
pepboy(NR) yes, zhuge
lounela(3d) I should think sheah no need for komi... :–)
pepboy(NR) zhuge is a good turor
tutor



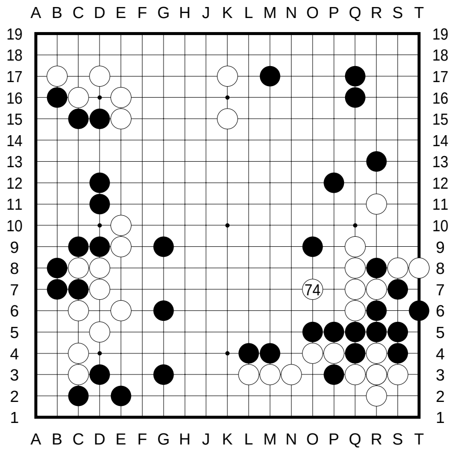
White 72

zhuge(NR) thanks. trying hard. :–)



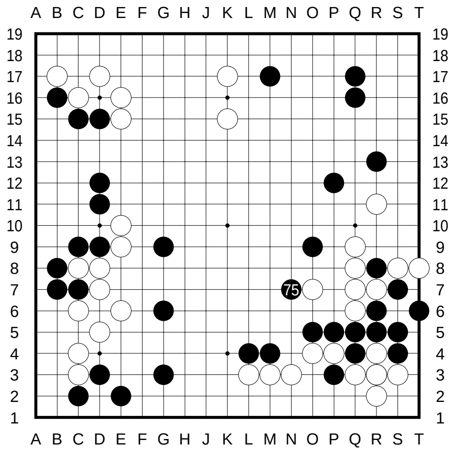
Black 73

fisher(NR) w can o7 or k4 b won't gain much in center
et(NR) I wonder w is thinking about invading the left b.
zhuge(NR) now g6 looks really thin to me.
i mean g9.
suqi(NR) i hope everyone be considerate in kibitzing
squid(8k) e10 very good!
suqi(NR) too much garbage
cops(NR) what's your rank suqi
ZZZ(NR) how about B f8 vs B g9 ??
zhuge(NR) what's your standard to be garbage or not?
zhong(NR) gee 73 observers!
zhuge(NR) only? :–)
pepboy(NR) please donate some $$$ for a banquet in honor of sheah :–)
kompella(6k) w
lounela(3d) still not as many as before the reboot.
suqi(NR) for example like the question asked by cops it could be to me ONLY?
zhong(NR) next time will be pay–per–view. :)



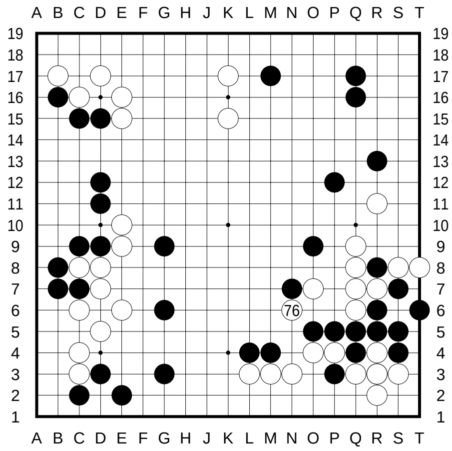
White 74

cccc(4k) i think g9 d11 good pace
aaron(6d) ha ha ha
suqi(NR) I guess not everyone interested in that!!, please
bn(2k) i think Europeen people went to sleep.:–)
REM(4k) I though G6 ok, but G9 in wrong direction, stones go walking would
say E10 instead of G9. But then I'm only about 2–4 kyu somewhere.



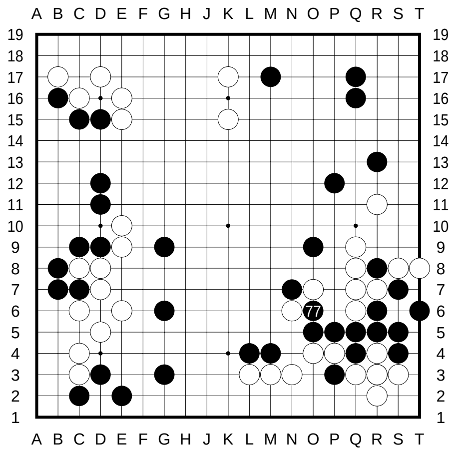
Black 75

cops(NR) i am nothing, want to try a game suqi?



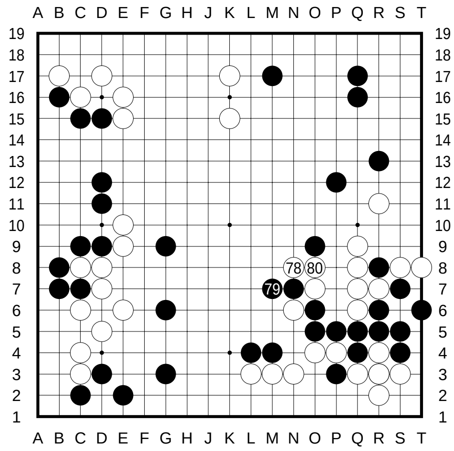
White 76

zhuge(NR) b is trying hard to fence a territory at the middle.
aaron(6d) o6 only choice, I think.



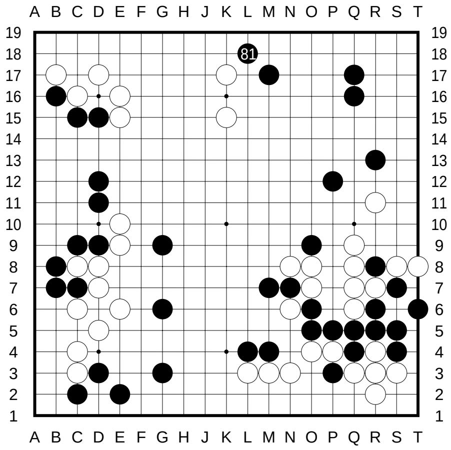
Black 77

zhuge(NR) yes, o6 only.



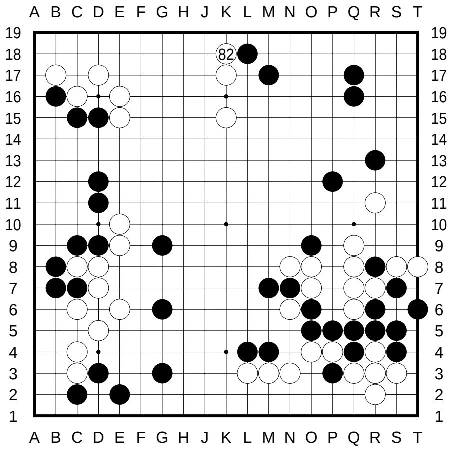
White 78 – White 80

aaron(6d) k3 for b now
sweat(6d) n4 first
zhuge(NR) hmmm, w could gain at the middle too.
suqi(NR) p7 would be too much?
dp(6d) i think m15
aaron(6d) actually, m15 might be best...see what happens first.
bn(2k) i think M16 biggest.
cops(NR) if B m15 then i think W k4
tom(1k) k3 seems big
bn(2k) M15 i meant.
aaron(6d) b not going to get both.
et(NR) m8?
lexus(NR) m8
aaron(6d) yeah, I got lucky and just signed on...
still(NR) m8
jonky(7k) does anyone know how to contact cao ?
dp(6d) m15 k4 k5 then
squid(8k) m8?
still(NR) m8
aaron(6d) k4 too good of an answer.
dp(6d) then b gets sente and b15
pepboy(NR) sheah said E10 was the worst move he played so far
squid(8k) m8 doubtful
dp(6d) then b has chance
zhuge(NR) e10? i thought it was good. :–)
bn(2k) E10 ajikeshi?
pepboy(NR) well, w E10, b D11, b gained too much
Brigitta(2d) who is leading?
cops(NR) W for sure



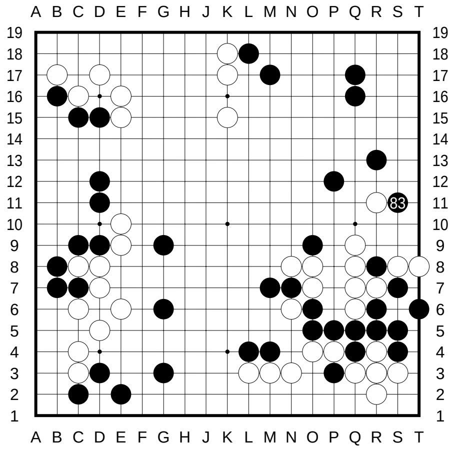
Black 81

pepboy(NR) even i need some shibumi to understand it :–)
et(NR) Oh, it was b's turn!
squid(8k) i liked e10! :)
dp(6d) i thought l18 would be too early at this stage



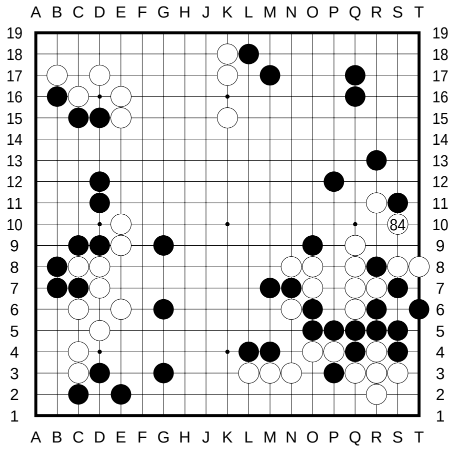
White 82

pepboy(NR) as much as i like squid
bn(2k) M15 now?
lanlan(1d) e
lounela(3d) m15 seems only move now.
pepboy(NR) L18 should be at K18
zhuge(NR) m15 looks so good.
lanlan(1d) l
aaron(6d) perhaps k3 first...
al(NR) thist doesn't work, what's wrong?
yanj(NR) l18 is strange



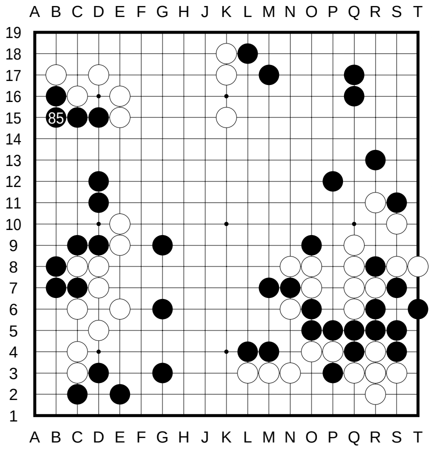
Black 83

dp(6d) k18 should be the move around there
zhuge(NR) the new command is "results" instead of "thist"
aaron(6d) if w answers k3, then m8 is strong.

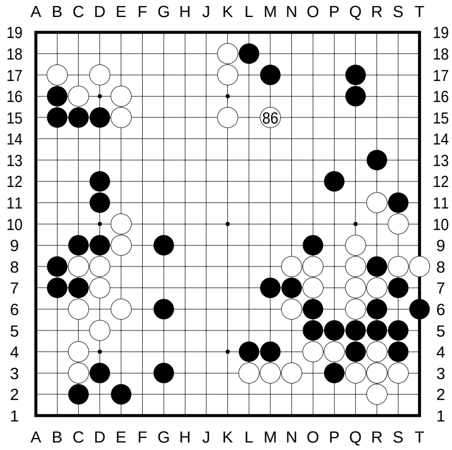


White 84

bn(2k) why is L18 strange? isn't it sente?
aaron(6d) it is large.
al(NR) but I could not results player.
pepboy(NR) if you know you have K18, you won't play L18, i guess



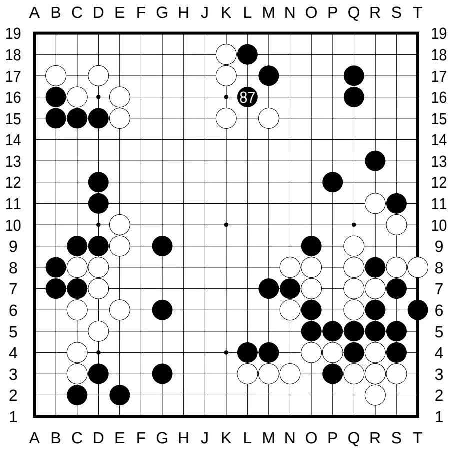
Black 85



White 86

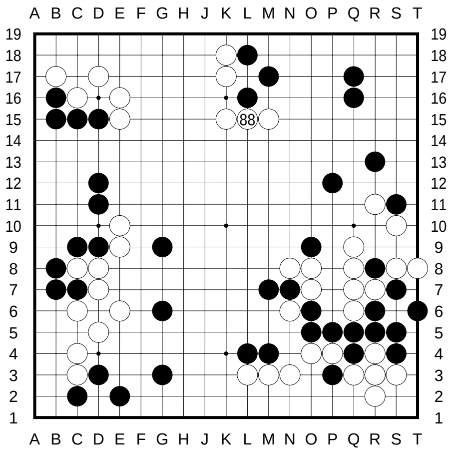
pepboy(NR) B15 is the biggest move
zhuge(NR) you should be able to, al.
cops(NR) i think b s11 is not smart
lanlan(1d) b is thinking he is ahead
bn(2k) I don't understand this!
zhuge(NR) b15?????????
dp(6d) i c b wanted sente to play b15. it's almost a sente too
fei(4d) game too conservative
et(NR) b was afraid of w's invasion.
cg(NR) thist doesn't work, zhuge
aaron(6d) b15 is large...
but that play on the second line is not my style :)
zhuge(NR) right... try "results" and "results cg" :–)
pepboy(NR) b 15 is simply a big point,
dp(6d) l18 makes sense
pepboy(NR) don't use too much imagination :–)
aaron(6d) l18 logically, especially if b gets m15.
dp(6d) if w secures the upper left corner then b taks k3
zhuge(NR) okay. i sometimes tend to carry away too far. :–)
al(NR) actually b k18 is sente too.
cccc(4k) hey, who you guys rooting for? i'm rooting for b
zhuge(NR) i am rooting for w.
aaron(6d) not enough aji on top left to be interesting yet...
Brigitta(2d) I think B has better chance to win
dp(6d) k18 might have made b15 kote
pjiang(NR) w k4 is enough
aaron(6d) w k4 is sente.
al(NR) now b is better to me.
lounela(3d) the game is very close, but I also think b better.

pjiang(NR) w has a big lead
dhao(19k) too slow!
dp(6d) w k4 not really sente beacuse w has to do something about b k5
et(NR) l9?
cccc(4k) moves like b15 make me think b is ahead
Brigitta(2d) I dont see W big lead? Go B Go!
kompella(6k) or b thinks he's ahead!
zhuge(NR) moves like m15 make me think w is ahead.
cops(NR) w k4 is large why not do it?
bn(2k) M15 is big for both.
pjiang(NR) m15 also great move
zhuge(NR) anyway, moves on line 15 make __ think __ is ahead. :–)
pjiang(NR) b is very thin throughout the board
zhuge(NR) ### = 82.
squid(8k) yes, w has good thickness
dp(6d) zhuge is a statistician?
Brigitta(2d) Go Black Go!
zhuge(NR) doesn't have to be; "games" shows everything. :–)
dhao(19k) TOO SLOW :(
tweet(NR) what's too slow?
et(NR) f8



Black 87

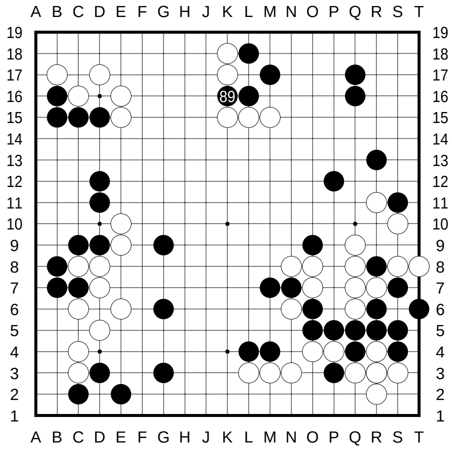
pepboy(20k) it's not our kyu game, dhao
zhuge(NR) pepboy! 20k?
cops(NR) b o16 or o17 seems necessary
bn(2k) L16 looks bad.



White 88

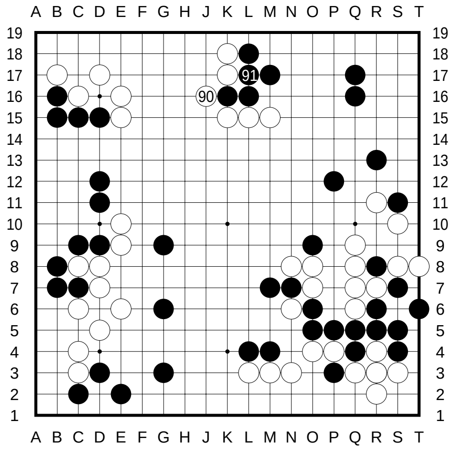
pepboy(20k) :–)
squid(8k) b too greedy?
zhuge(NR) l16 questionalbe.
bn(2k) so called su2 shou3.
pepboy(20k) good, zhuge
ajikeshi(NR) pepboy better take some more shibumi FAST!
pjiang(NR) no, b lost his mind
yanj(NR) i still think l18 is a quistion
pepboy(20k) shibumi is not that digestable
squid(8k) w should thank b for l16
cops(NR) time for b is not so much now
zhuge(NR) is there anyone to persude ManyFaces to watch *and* kibitz? :–)
lanlan(1d) w has o17 now
pjiang(NR) b maybe aiming at d4 grp, that's his only chance to catch up
dp(6d) l16 not very tactful

fei(4d) battle will start k16!!!
cccc(4k) l16 is not very good looking
pepboy(20k) i am trying to persuade ManyFaces :–)



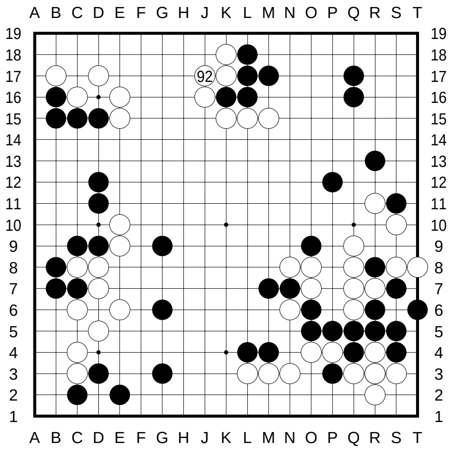
Black 89

cops(NR) d4 group is not weak



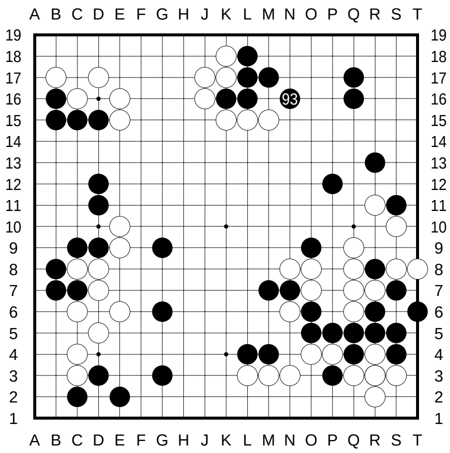
White 90 – Black 91

lanlan(1d) w s13 is powerful
bn(2k) what a ugly shape of b!
zhuge(NR) look how ugly b's shape there.
cops(NR) b is so bad in these few moves



White 92

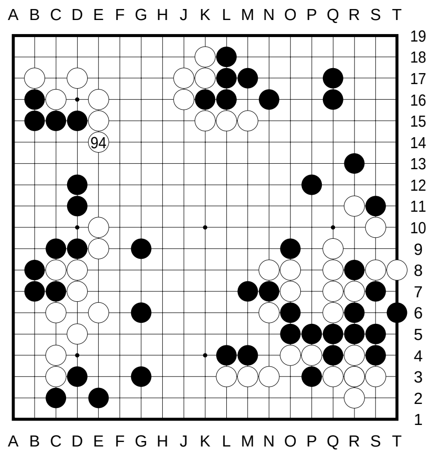
et(NR) f8
pjiang(NR) b realize he is behind, but...
lounela(3d) b aiming at d16?
aaron(6d) b could be me, it is so bad :)
Brigitta(2d) yeah, I lost faith in B too
zhuge(NR) b=bad, w=well...
:−)
squid(8k) w=would win
et(NR) b=bad, w=worse...:−)
aaron(6d) or b=beautiful, w=wretched
but not in this game :)
dp(6d) b can sente b18 then go back to k3...
cops(NR) why don't say w=win



Black 93

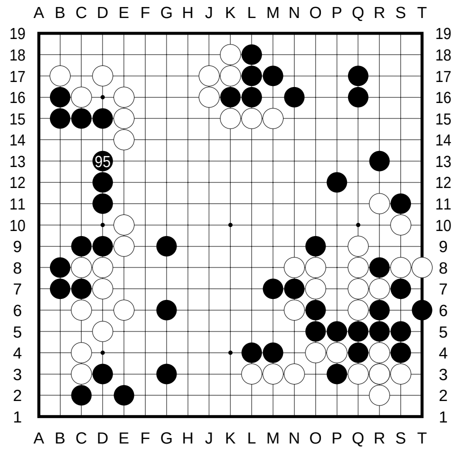
zhuge(NR) b worries about n8
sorry, n17.
squid(8k) n16 :(
lanlan(1d) k4 now
aaron(6d) I am famous (?) for bad shape in ANn
Arbor.
bn(2k) s12 sente for w?
al(NR) since when ann arbor has a 6d?
dp(6d) n16 not bad
zhuge(NR) infamous? :−)
aaron(6d) m8?
gem(5d) g15?
cops(NR) there are so many 6d here! surprise
zhuge(NR) wow, ### = 93 now!!!
pepboy(6d) why?
mpark(5d) anyone knows sheah's name?
zhong(NR) so many go experts. :)
lounela(3d) there is dutch proverb: "bad shape wins".
Does not seem to apply here, though :−)
cccc(4k) i think both players know that lower center
is not that big
khuang(7d) s12, then k4
bn(2k) i like S12.
aaron(6d) there are strong Korean players, but they
never come to our club.
fei(4d) chen sheah
aaron(6d) we are too weak for them.
zhong(NR) in a few minutes, observers will reach 100!
zhuge(NR) i hope so, zhong!
cops(NR) there are a few high d in the go player i
think
pjiang(NR) it will be very hard for b to win this game
yellow(2d) b is about 5−10 points behind
yanj(NR) really?
zhuge1(NR) hi
Brigitta(2d) can B do something about lower−left W
group?
aaron(6d) he can watch it... ;)
pjiang(NR) unlikely. b so thin himself
cops(NR) who is zhuge1? zhuge's brother?
zhuge(NR) where?
Brigitta(2d) but at least he can get some sente points?
no?
cops(NR) see the last few message
pepboy(20k) who are zhuge1, 2, 3?
zhuge(NR) zhuge1? that's the name i saved for my
first son...
pjiang(NR) if w s12, b will probably k3
hbo(NR) there seems to be zhuge clone hhere
pjiang(NR) so better k4 first?
squid(8k) zhuge just trying to make 100 people
watching
tim(4k) test
sweat(6d) if s12 then k4 white doesn't have enough
zhuge(NR) but now i have to consider other names for
my next generation :−(
yanj(NR) if w a1, b t19
bn(2k) so which one is a bigger sente, K4 or S12?
Brigitta(2d) server is gonna crash by so many people
cops(NR) zhuge's family is comming
zhuge(NR) bad rumor, Brigitta.
hi(2k) I hope not. we tried to do better than that.
bwb(16k) ### = 100!
zhong(NR) it is officially 100.
bwb(16k) Now it's 101
still(NR) i quit:−)
et(NR) l9?

Brigitta(2d) especially by so many HUGE guys
:)
zhong(NR) this is boring game essentially. :)
cops(NR) what is sheah doing? playing ? pepboy
dp(6d) white isn't much ahead at this moment. i think
pepboy(20k) speculating
zhuge(NR) well, it didn't crash... :-)
cops(NR) he cost lots of time here
bn(2k) no fight essentially.:-)
zhuge3(6d) hi, zhuge
zhong(NR) he is watching your kibitzing.
pepboy(20k) wow, 6d
zhugehe(NR) hi! zhuges
cops(NR) zhuge has 3 sons now
zhuge(NR) Sun-tzu said... to win without fight is the best strategy.
squid(8k) no for observers!
fight best
hi(2k) if you must fight bring your family, eh zhuge?! :)



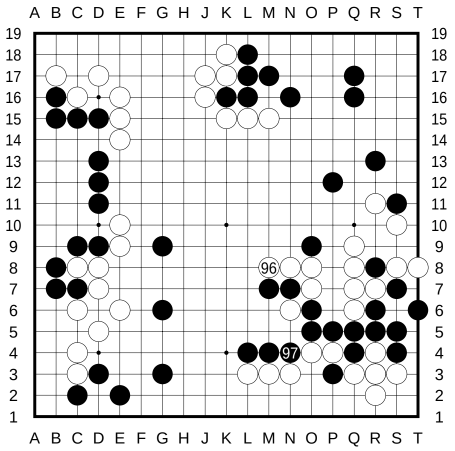
White 94

hbo(NR) nobody can afford to mess with zhuge family now
ZZZ(NR) aji against B left ??
dp(6d) gees that's big!



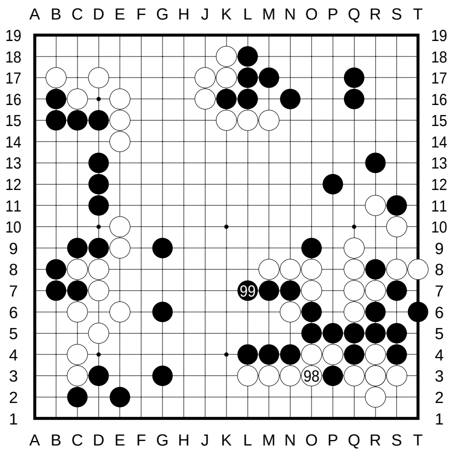
Black 95

eric(6k) alas, jy23 is finally in byomi now.
bn(2k) i read some newspaper called jy23 Tai-chi style.
lanlan(1d) w is worrying ajout j15 cut
eric(6k) well, 8 more seconds.
yanj(NR) m8 is important now
zhuge(NR) i think my "sons" are fairly close to sheah. :-)
khuang(7d) is d13 necessary?
lanlan(1d) are you married zhuge?
so many kids...
zhuge(NR) yes, about 1800 years ago.
cops(NR) certainly not
sweat(6d) that's what i say
zhuge3(6d) not yet
bn(2k) what did you say, sweat?
suqi(NR) lanlan is a name of lady?:)
Brigitta(2d) who daress to marry such a HUGE one
dp(6d) wc13, could b hve dealt with that?
sweat(6d) i mean i agree with khuang
zhuge(NR) b looks too patient, huh?
mpark(5d) isn't B k3 really big?
dp(6d) i mean i don't with both of you



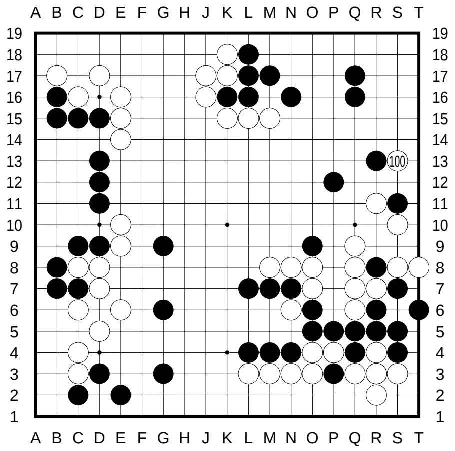
White 96 – Black 97

cops(NR) W k4 B k5 W j3 seems good for W



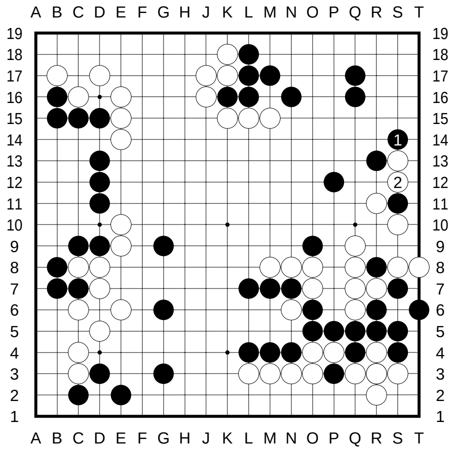
White 98 – Black 99

cops(NR) not this time now
ZZZ(NR) seems like W c13 was strong aji
Brigitta(2d) can B do F8, B3 then K3?
dp(6d) i wouldn't let w sente a16
yanj(NR) w has the move
dp(6d) i mean that's what i think d13 is for
khuang(7d) sorry, d13 was necessary. :–(
sweat(6d) why?
stand(NR) b M6 better than L7.



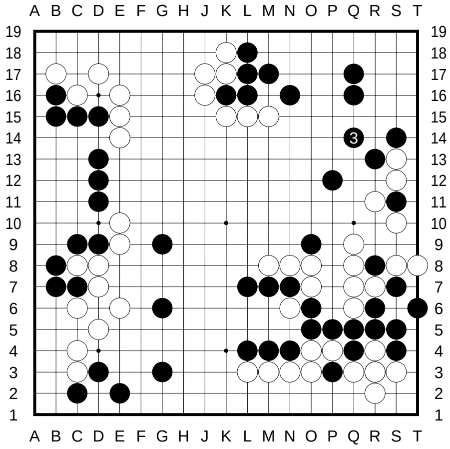
White 100

cops(NR) b lost control in the middle, lose for certain
lanlan(1d) ha s13 comes!!!!!!
my move
khuang(7d) w has b11, if no d13.
stand(NR) S12, no choice
dp(6d) thanks khuang for the information!



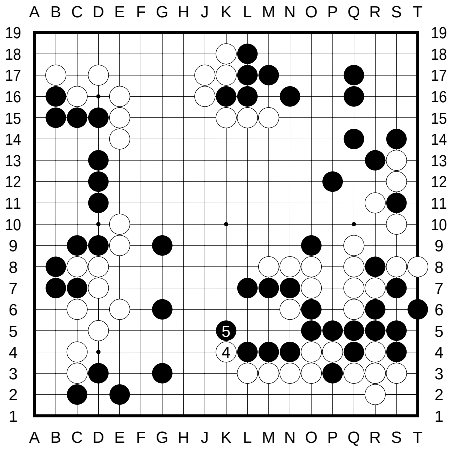
Black 101 – White 102

zhuge(NR) what info, dp?



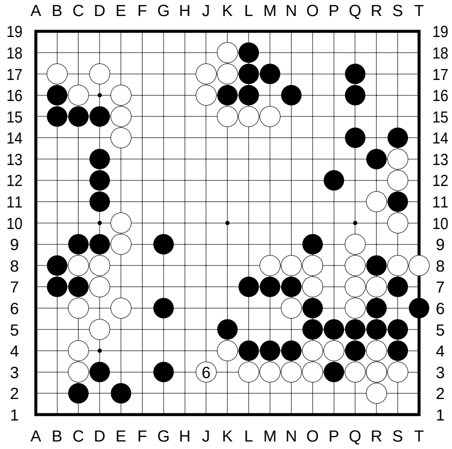
Black 103

bn(2k) P12 stones is in danger.
yanj(NR) s12 would bring in death
bn(2k) if b play s12.
cops(NR) now we can see B s11 is not good
aaron(6d) maybe k3 instead?
pjiang(NR) this is a boring game indeed. its one–sided since beginning
lanlan(1d) w has 10 points at right
hard to believe
cops(NR) not from beginning
zhong(NR) why one–sided from beginning?
lanlan(1d) k4 now
cops(NR) actually from g9
Brigitta(2d) such a slow game, I am sleepy
yellow(2d) w now has K4, L8 or O11 ... good points
cccc(4k) it was not one sided from beginning, but a hard game for b the whole way.
ZZZ(NR) j4 ?



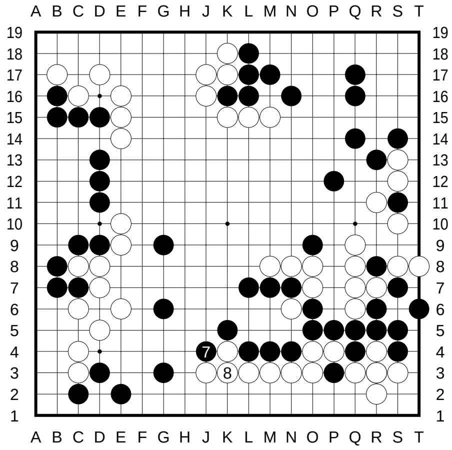
White 104 – Black 105

cops(NR) the shape for b at right side is funny
sweat(6d) shouldn't q14 be r12?
ZZZ(NR) sorry j4 better can j5



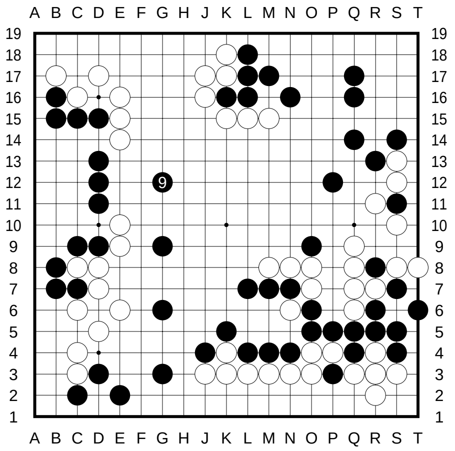
White 106

zhuge(NR) b's thinness is showing up.



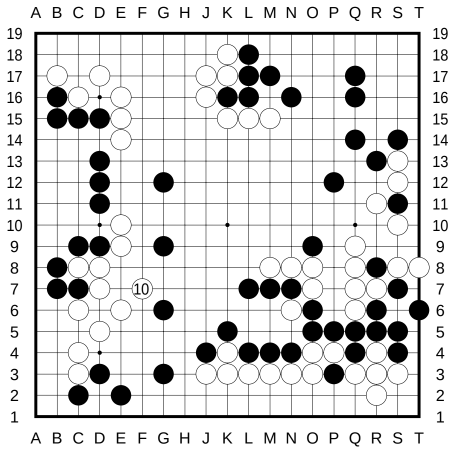
Black 107 – White 108

zhuge(NR) or w's thickness is showing up. :–)
cops(NR) maybe h3 is considering for w
ZZZ(NR) ? why j3 instead of j5 ... help ?
et(NR) why not at j5 instead of j3?
bn(2k) j5.
sweat(6d) someone answer for me?



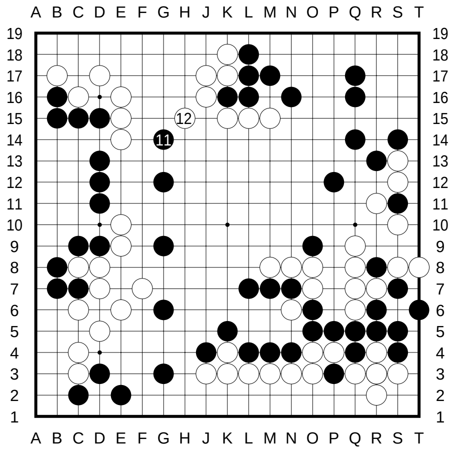
Black 109

aaron(6d) if j5, then k3 j4 k3 and w cut off.
cccc(4k) is w ll completely alive?
bn(2k) how to call this jump in japanese?
khuang(7d) agree with u, sweat.
yanj(NR) w wanted to play somewhere else, b knew it
cops(NR) b realize he is behind too much, it's the only way to win the game with kill d5 group, but it's impossible
pjiang(NR) agree with what?
mpark(5d) khuang, would u comment this game for us?
lanlan(1d) b is aiming j15 cut too?
khuang(7d) r12 was better than q14.
mpark(5d) you are the only 7d watching, now.
REM(4k) G12 looked reasonable as reducing move except why not deeper in at G13/G14?
khuang(7d) b is 5 points behind.
eric(6k) isn't the atari at j5 big?
lounela(3d) on the board or including komi?
zhuge3(6d) bye, have to go
yasu(NR) plus 5.5 or not?
cops(NR) w has m8, no worry
pepboy(20k) bye, zhuge
pjiang(NR) my question is: is this jy23?
khuang(7d) j5 is not so big
cops(NR) pepboy is leaving now?
zhuge(NR) yes he *is* :–)
pepboy(20k) what?
dafen(NR) too slow
khuang(7d) on the board, b has 2 points more, but weaker.
cops(NR) why u say bye to zhuge
eric(6k) now both players in byomi.
yasu(NR) thanx
pepboy(20k) he left
eric(6k) sheah is short on time.
chuck(4d) u mean he is too weak to be jy23, pjiang?
tweet(NR) long byo–yomi period
zhuge(NR) yes 25 min.



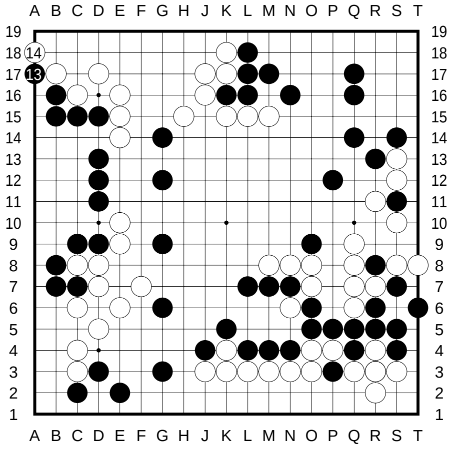
White 110

pjiang(NR) yes
eric(6k) gee.
I guess they are having 25 minutes byomi?
pjiang(NR) well, he played good moves
pinback(7k) zhuge killed his children (or clones)!
cops(NR) too bad we lost a noisy guy
zhong(NR) this game will be adjourned if it continue to be so slow.
lanlan(1d) must be murders
kompella(6k) s5 min for 25 moves ...
pjiang(NR) but moves like l16 and q14 is like a k



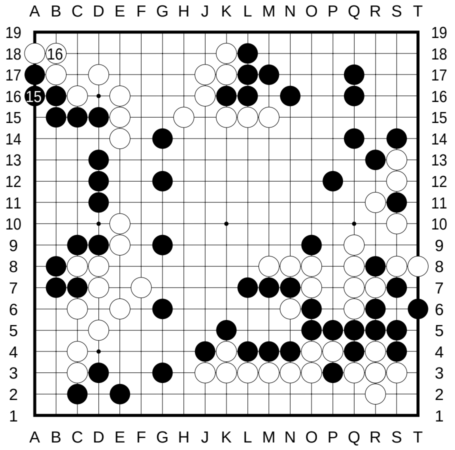
Black 111 – White 112

chuck(4d) what would go there, pjiang?
stand(NR) i like H4 for b.
cops(NR) b is losing control of his mind like i usually do



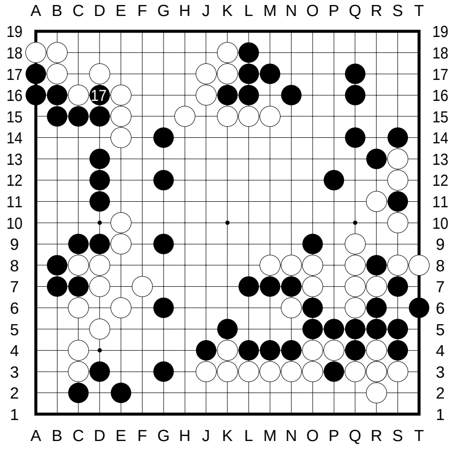
Black 113 – White 114

pjiang(NR) agree with cops



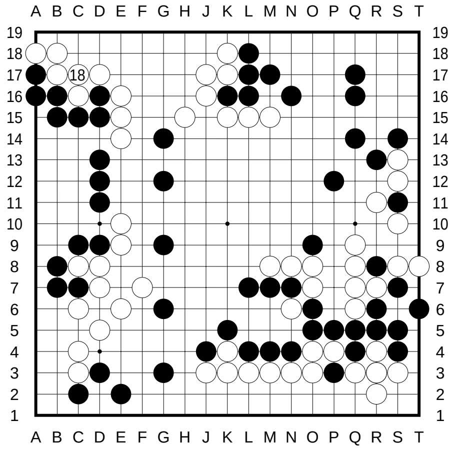
Black 115 – White 116

zhong(NR) why are you guys so critical to b?
zhuge(NR) they feel they can play better, zhong. :–)
cccc(4k) because he is losing
pjiang(NR) what do u think of l16 zhong
not at all zhuge
zhong(NR) anyone could make mistake.
cops(NR) b g12 g14 is nothing
REM(4k) Hey, down to 99 watchers now! Is it really that boring?
zhong(NR) i am not sure l16 is a bad move at all.
hbo(NR) considering sheah a 5p, jy23 played brilliantly
dp(6d) me neither zhong but it still doesn't look great either
cops(NR) yeah, but it's too serious for a 7d, especially when he is behind
zhuge(NR) consider hbo is a cable channel, cbs is good! :–)



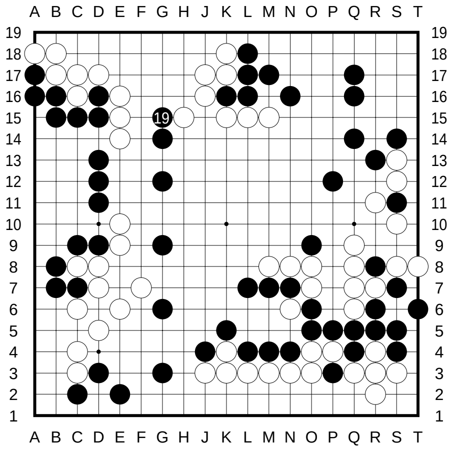
Black 117

zhong(NR) only strong players can sense the slightest inbalance in a game and the make stronger moves to try to get back the edge.



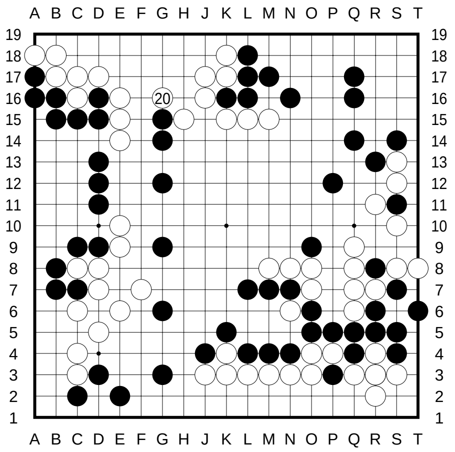
White 118

hbo(NR) nice parallel structure there, zhuge
pjiang(NR) jy23 is once best star in China
zhuge(NR) they're playing faster now.
pjiang(NR) so i expect him higher
stand(NR) D16 too bad



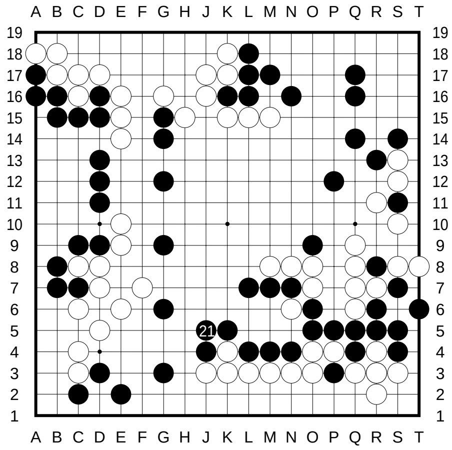
Black 119

cccc(4k) who is jy23?



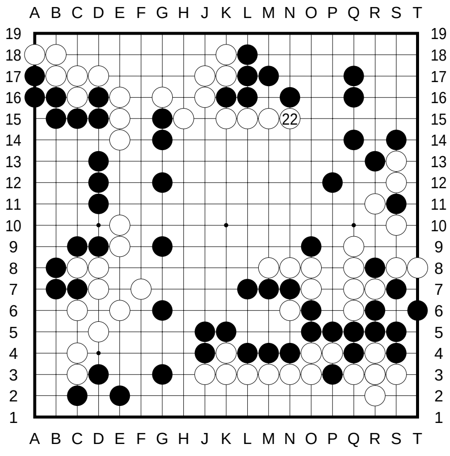
White 120

coyote(2k) when, pjiang?
chuck(4d) what u mean best star?pjiang?
zhuge(NR) nice comment, zhong. doesn't fit me though. :–)
zhong(NR) sheah was a pro. he is no slut either. :)
cops(NR) are u thinking it's a sightest inbalance zhong?
hbo(NR) not THE BEST, i believe, pjiang
pjiang(NR) Nie Weiping said he was as promising as Ma Xiaochun



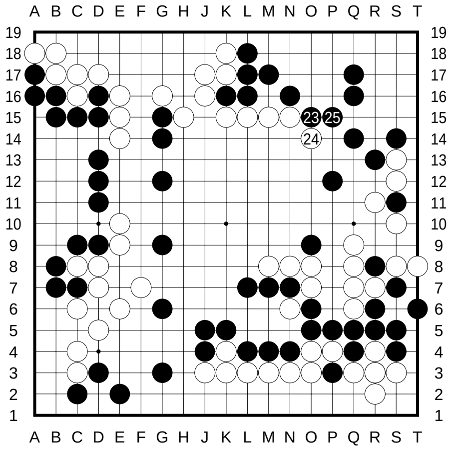
Black 121

pjiang(NR) but he quit go to go to college
zhuge(NR) nice kid.
cccc(4k) who is jy23 anyway guys?
coyote(2k) bad decision
bn(2k) good decision.
chuck(4d) that is nothing, really
yellow(2d) hard to say
pjiang(NR) he is more talented than an ordinary pro
hbo(NR) now he's a lot poorer than Ma.
khuang(7d) jin yang, from beijing
zhuge(NR) think about it! if he did go to college, can you guys on IGS watch him play?!
bn(2k) Yang Jing.
zhuge(NR) i mean if he didn't.
yellow(2d) Ma XiaoChun lost again
chuck(4d) many people said Rui Lai Jiang was more promising than his sister, so????
cccc(4k) what 23 mean?
zhong(NR) yes, he is talented, but i am not sure as talented as ma tho. :)
pjiang(NR) Nie Weiping didnot say that
beast(5d) who is sheah?
yellow(2d) from Taiwan?
zhong(NR) Many people say Nie Weiping's brother is much smarter than Weiping, so? :)
pjiang(NR) criticizing other people doesnot equal to arrogance
chuck(4d) Nie is not god
pjiang(NR) Nie is bad, but he is good at go
tim(4k) no but this equates to gossip
yellow(2d) Nie doesn't play GO now



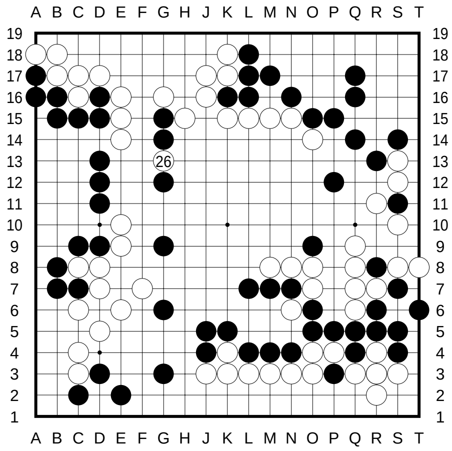
White 122

kompella(6k) what is the purpose of W F7?
mpark(5d) khuang, who is leading?



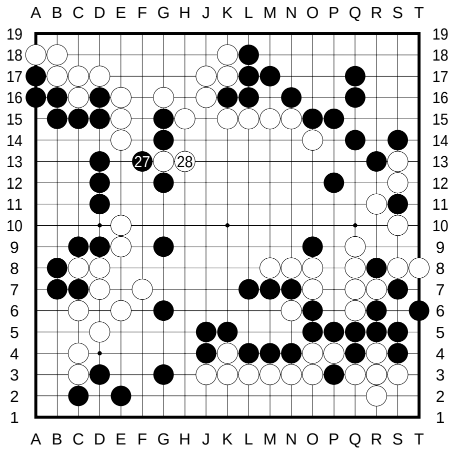
Black 123 – Black 125

khuang(7d) i played with jy, face to face. i like him, not only his skill, but his personality. he's smartt, maybe that's y he went to college. :–)
sheah is leading about 5 points.
zhong(NR) nice comments, khuang. :)
dp(6d) was o15 big enough to play now?
ZZZ(NR) rope off the center ???
jie(???) who;s jy?
zhuge(NR) jy happens to be someone else i guess.
dp(6d) do you know each other as well? zhong and khuang?
zhuge(NR) i could have used that name too. :–)
REM(4k) I like white O11 next.
khuang(7d) yes, i know zhong.
stand(NR) more than that.
Brigitta(2d) is Zujo – 9P on IGS? he is in Berkeley isnt he?
dp(6d) so you all are from beijing?
zhuge(NR) no, jujo lives in San Francisco to be exact.
Brigitta(2d) does he play on IGS?
khuang(7d) no. i come from chongqing. but i was being beijing for 3.5 years.
hbo(NR) San Francisco is a broad concept, too
zhuge(NR) he did a few times, but not recently.
dp(6d) thanks khuang
6dd(6d) if b did not move o15, w n17
lanlan(1d) you are from chongqing ?
coyote(2k) How does pro in USA make a living?
Brigitta(2d) where is sheah?
sweat(6d) n17 is nothing though
zhong(NR) sheah forgot his clock. :)
dp(6d) n17 couldn't have killed b. just about2point play
stand(NR) K9 becomes good point



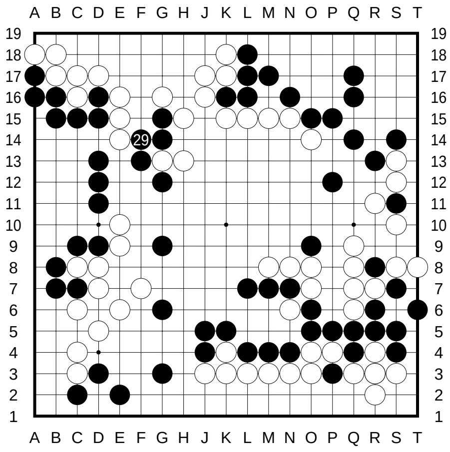
White 126

dp(6d) maybe less
zhuge(NR) g13! w tries to make things exciting!
sweat(6d) are you with sheah now zhong?
khuang(7d) i think no hope now.



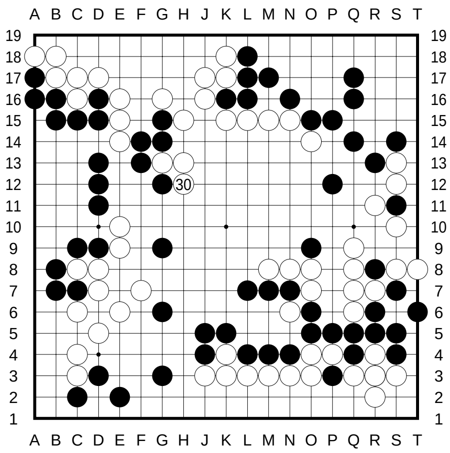
Black 127 – White 128

zhuge(NR) no hope for b?



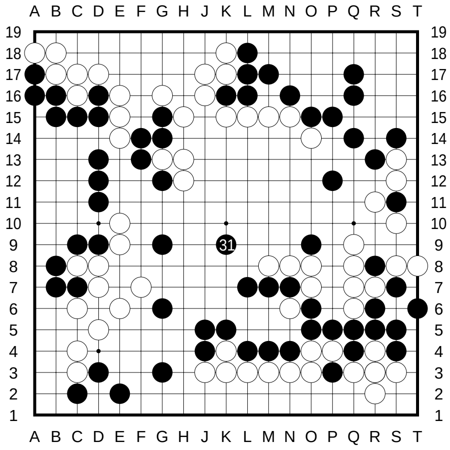
Black 129

6dd(6d) sorry wrong comment



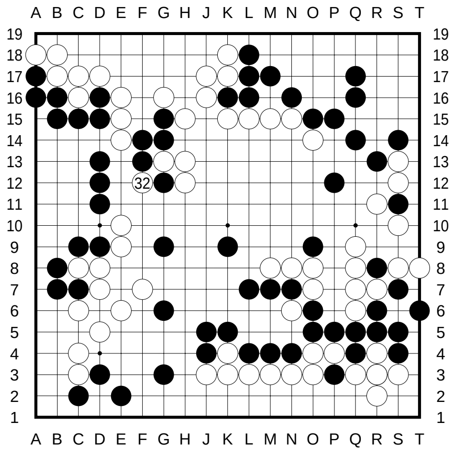
White 130

bn(2k) i think w is trying to enclose center.
ZZZ(NR) y



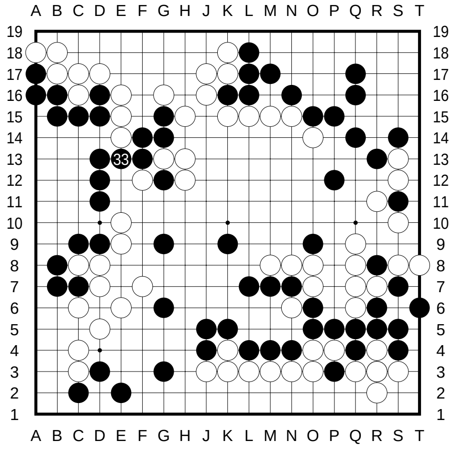
Black 131

stand(NR) good for b. N13



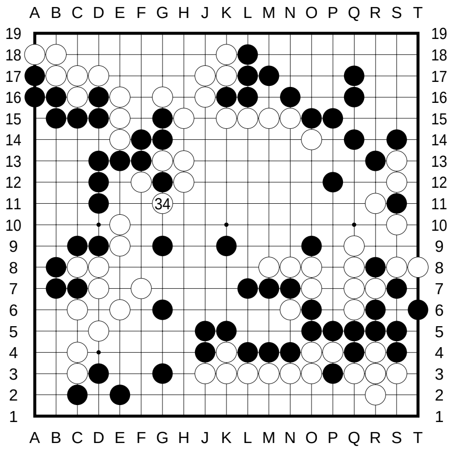
White 132

6dd(6d) in that case o15 was really too small



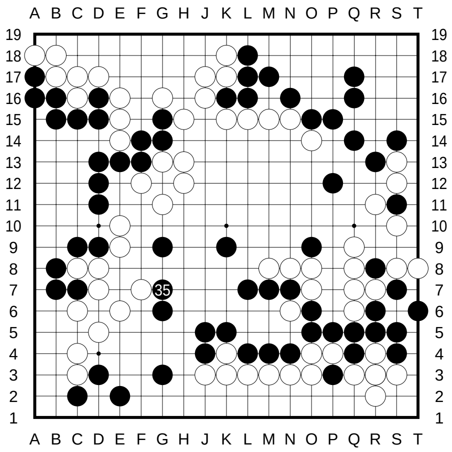
Black 133

cops(NR) w g7 is hard for b i think
ZZZ(NR) W o12 ?
bn(2k) H8?
mpark(5d) tim & tweet, we need a rank system to distinguish jy23 like 7d.



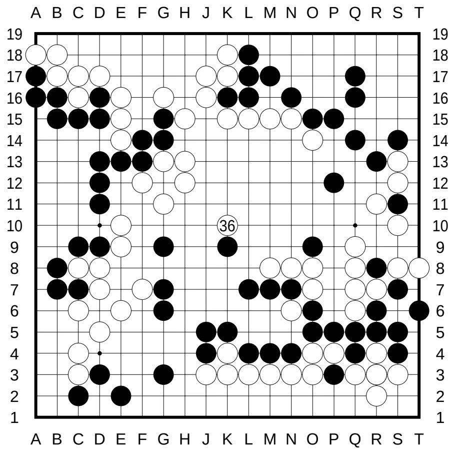
White 134

mpark(5d) He may give me 5 stones and still win..
zhuge(NR) what do you mean, mpark?
zhong(NR) same question from me. :)
bn(2k) how do you know, mpark?:–)
zhuge(NR) same question from me. :–)
Brigitta(2d) noway, I can beat him with 4 stones
mpark(5d) it is unfair form him to play some 6d's an even game???
cops(NR) what's your comments pepboy?
pepboy(20k) whom are you talking about?



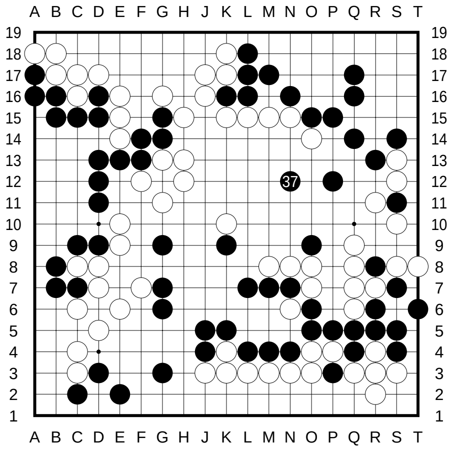
Black 135

mpark(5d) i meant for him to play 6d's..
pepboy(20k) i just got some pizza for sheah
stand(NR) N13, H2 two good points.
cops(NR) about game
pepboy(20k) just back, :–)
zhuge(NR) sheah is eating something sticky?
zhong(NR) even i can smell it. :)
zodiac(2k) sheat didn't go to this server for 3 months
beast(5d) i saw him winning most as 8 d in Cleaveland
zhuge(NR) watch your mouse, pepboy. :–)
dp(6d) did w g13 achieve anything?
pepboy(20k) :–)
want me to email you a piece, zhuge? :–)
bn(2k) you have 8ds in Cleveland?
coyote(2k) who is in Cleaveland?
pepboy(20k) jy23
zhuge(NR) yes, in binary mode. i will decode it.
sweat(6d) jy?
pepboy(20k) :–)
zhong(NR) people are curious bunch. :)
zodiac(2k) who is leqading up to now?
beast(5d) i saw jin yang in cleaveland tournament.
zhuge(NR) you must scared him, beast.
coyote(2k) Is he the best?
cops(NR) anybody gives a comments on the game?
zodiac(2k) look like b is leading
zhong(NR) that is where he gained most his aga points. :)
beast(5d) he played as 8d and still won most.
bn(2k) How about H8?
hbo(NR) who won the tournament, then?
stand(NR) bet w do N12.



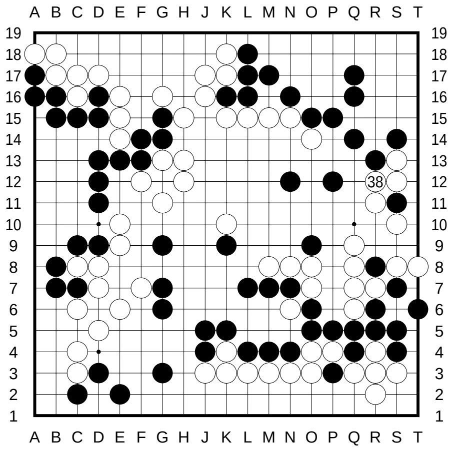
White 136

Brigitta(2d) w is thick
zhuge(NR) k10 is a move i could never expect.
bn(2k) i think w is winning.
beast(5d) some other guy.



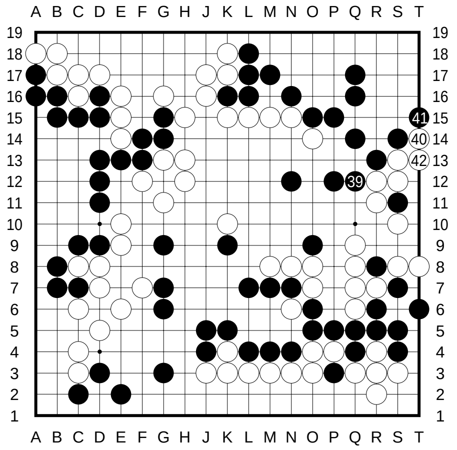
Black 137

beast(5d) just jp did not 'improve' than the year before... :)
zhuge(NR) n12 looks severe.
ZZZ(NR) ? P13 ?



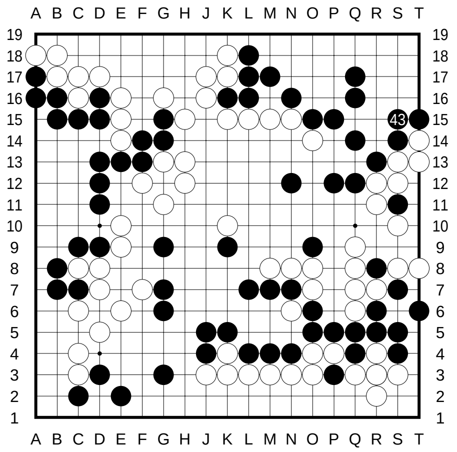
White 138

zhuge(NR) p12 interesting.
zodiac(2k) q12
stand(NR) if w p13, b O13.



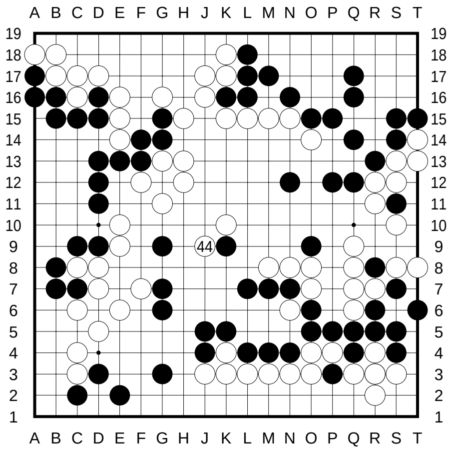
Black 139 – White 142

dp(6d) q12? hardly understandable



Black 143

yueqi(5d) i thought it would be p13
zodiac(2k) that is why u r 6d
dp(6d) you're right zodiac thx
bn(2k) how about u, zodiac?:–)
zodiac(2k) we have too many people here, someone gets to logout, server is overloaded

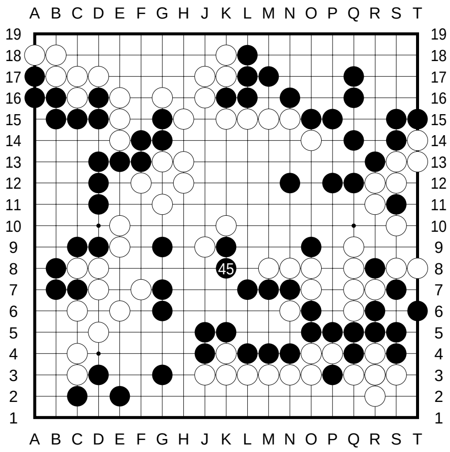


White 144

KjetilT(NR) games

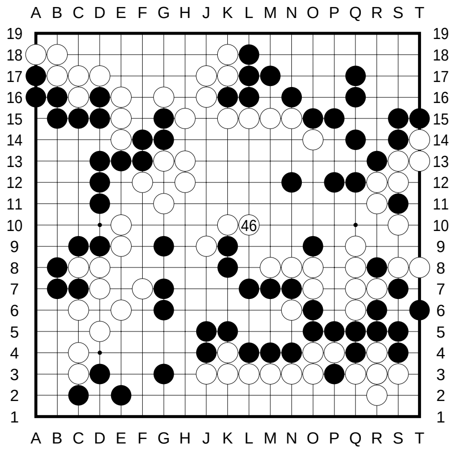
zhuge(NR) zodiac is underachieved. :-) should have a much higher rank.

tim(4k) the server is not overloaded!



Black 145

zhuge(NR) zodiac is spreading some bad rumor.



White 146

bn(2k) the server is underloaded.

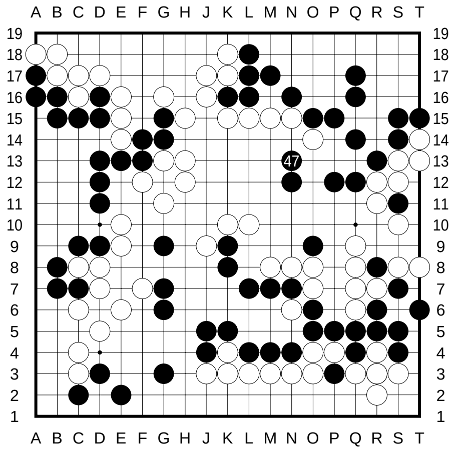
zhuge(NR) :-)

rjs(18k) do uptime zodiac

foo(4d) who

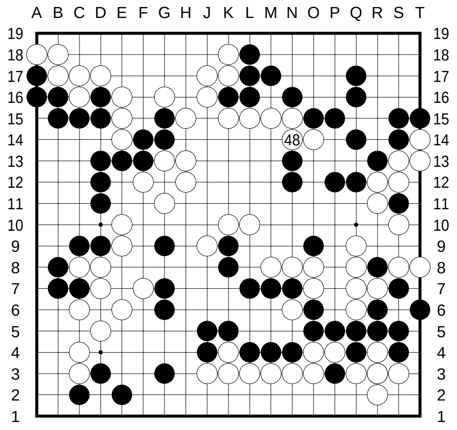
hbo(NR) behave yourself , z2k

stand(NR) M13.



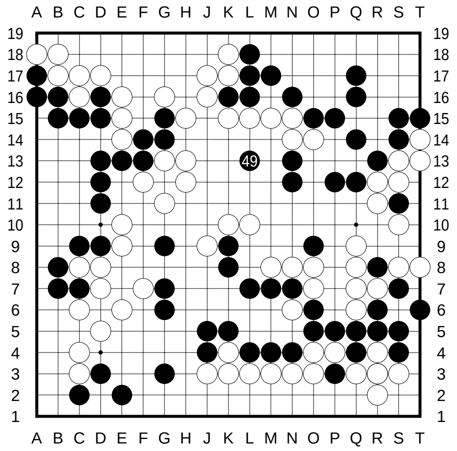
Black 147

stand(NR) seems H2 more practical



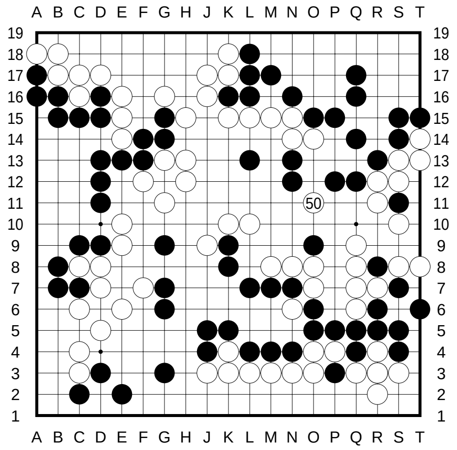
White 148

zodiac(2k) l13
dp(6d) i mean q13 zodiac sorry



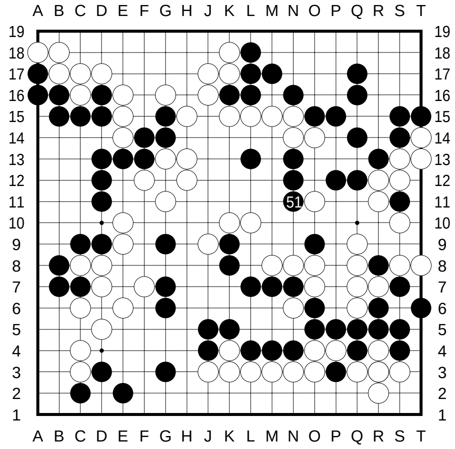
Black 149

stand(NR) J14 L13 make sente



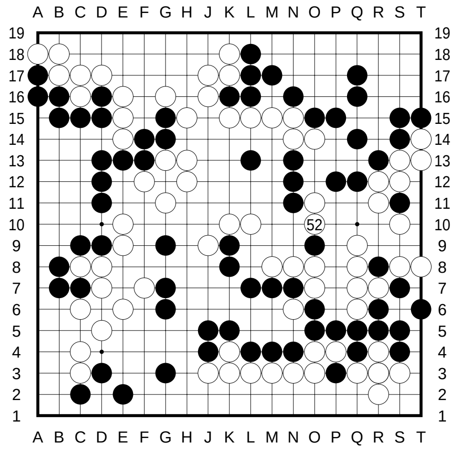
White 150

zodiac(2k) i forgive u, dp
pp(1d) h2 gbig?
al(NR) isn't b3 bigger?
khuang(7d) n11



Black 151

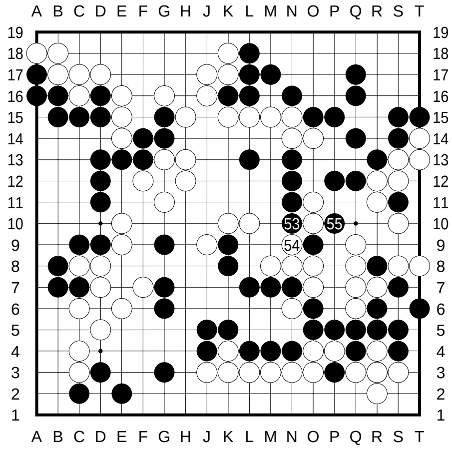
khuang(7d) :–)
stand(NR) big wrong. w P13.
rjs(18k) hey khuang is 7d, oh yeah, we knew that :)
lanlan(1d) p134 works?
zodiac(2k) u should not tell jy23, khuang
cops(NR) w p13 seems severe
zodiac(2k) p134?
dp(6d) what do you think khuang about p13?
khuang(7d) i lost tooooooooo many games to sheah, 0.5komi games. :–(
REM(4k) Yeah, I agree, W P13 looks interesting.
al(NR) how many is too many?



White 152

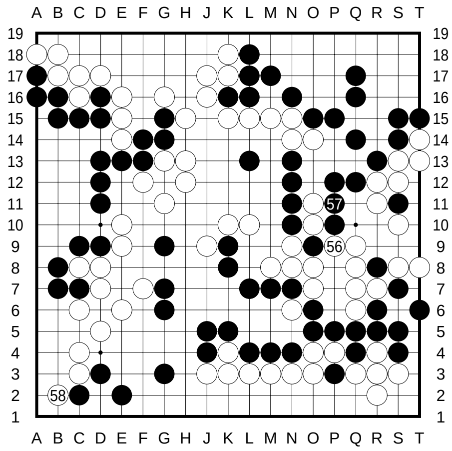
yueqi(5d) p13 work??
i can not see it.
cccc(4k) p13 doesn't work, at least not now
khuang(7d) maybe sheah miscalculating, from l10. :–)
ZZZ(NR) y p13 looked nice
yellow(2d) did you win before?

zhuge(NR) sheah ate too much pizza.
bn(2k) P13 don't work before O10. b has P10.
hbo(NR) tell yueqi hi, yueqi
6dd(6d) w may lose after this fight at center, agree?
cccc(4k) n10
zodiac(2k) r u Kibitzing or telling, hbo?



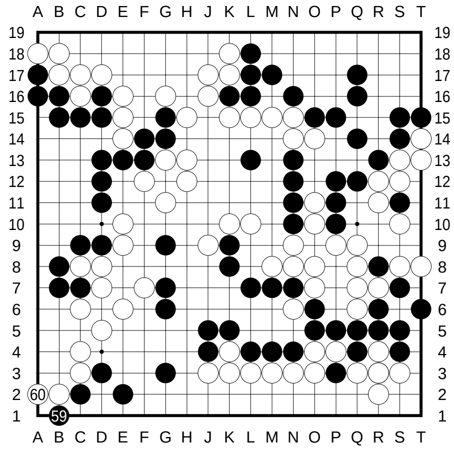
Black 153 – Black 155

stand(NR) P10
ZZZ(NR) p13 :–(



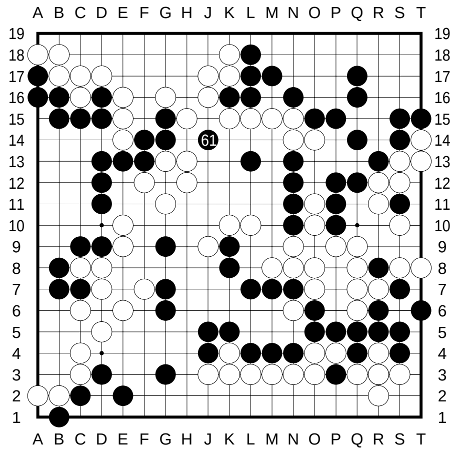
White 156 – White 158

zodiac(2k) p13 kill
hbo(NR) use your own judgement, z2k



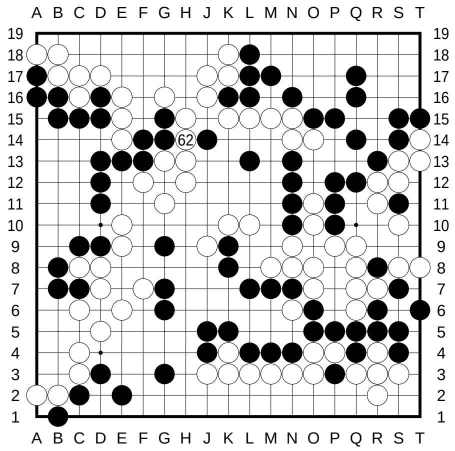
Black 159 – White 160

cccc(4k) p13 does not work
yueqi(5d) h2?
ZZZ(NR) not now



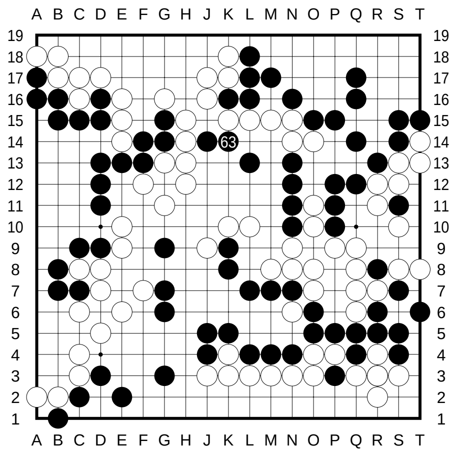
Black 161

stand(NR) H2 then J10



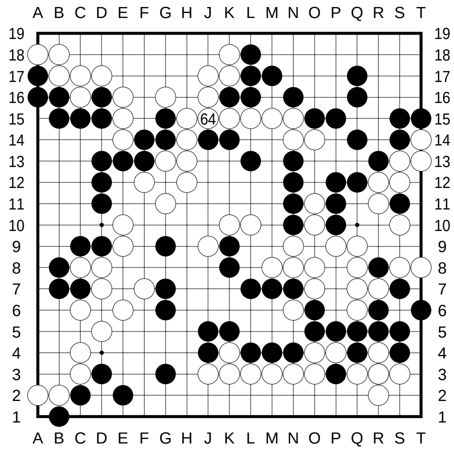
White 162

zodiac(2k) now p13 doesn't work



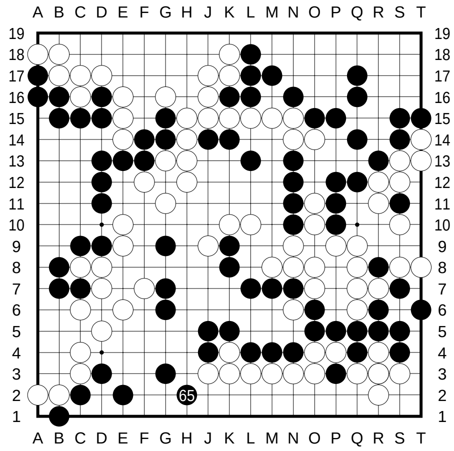
Black 163

lanlan(1d) what's the counting now?
cccc(4k) it never had a chance
stand(NR) y not J13?
cccc(4k) w is still ahead



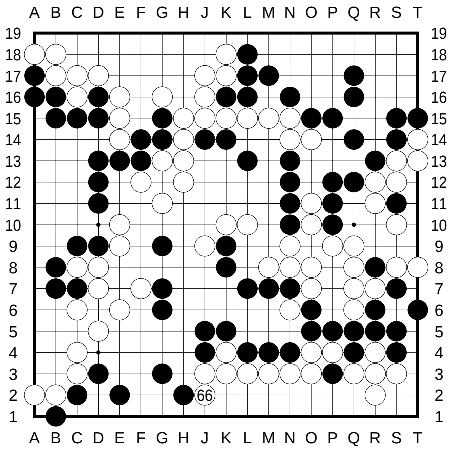
White 164

cccc(4k) i think
ZZZ(NR) before o10 p13 was
dp(6d) i guess i m too weak to understand what's going on here.kibitz c6
zodiac(2k) f5
cccc(4k) before o10 p13 couldn't work either



Black 165

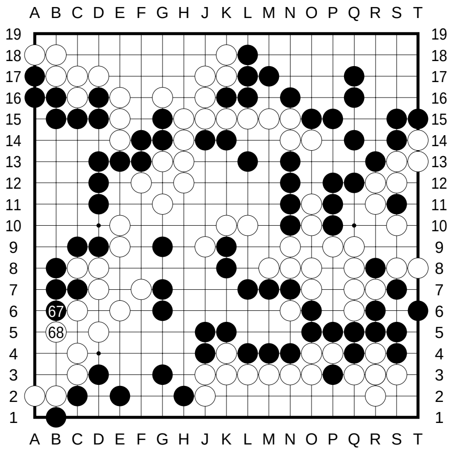
zhuge(NR) i think it's fairly close.



White 166

cops(NR) b h2 is large

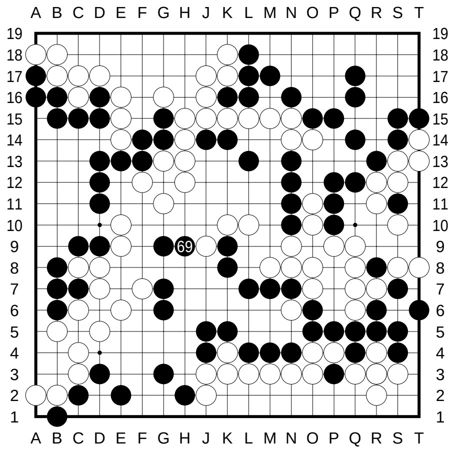
zhuge(NR) if b plays the endgame perfectly, he should have a chance.



Black 167 – White 168

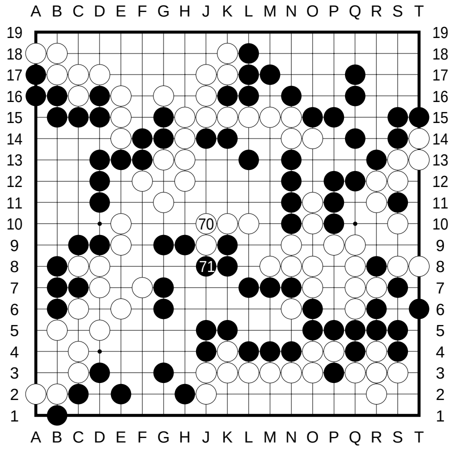
6dd(6d) j10, j14 may have some small problem

bn(2k) H8?



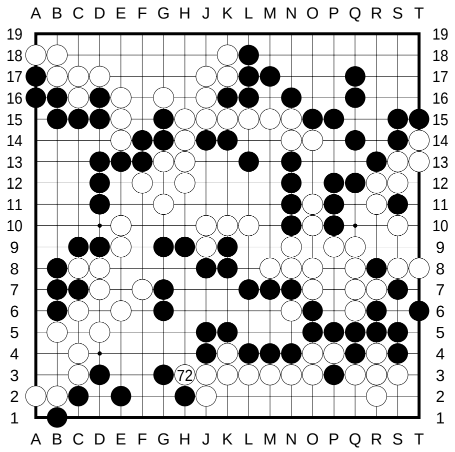
Black 169

pepboy(20k) but pros are excellent in endgames



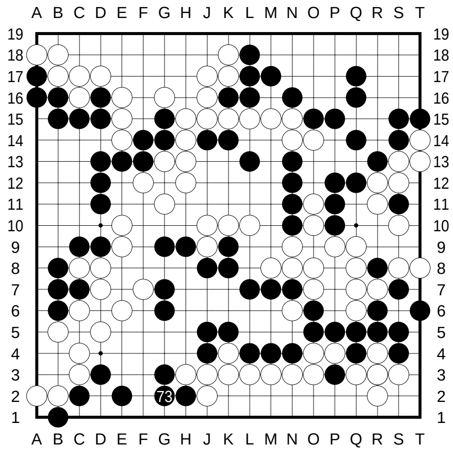
White 170 – Black 171

zhuge(NR) but consider sheah just had pizza, he should be lack of energy. :–)



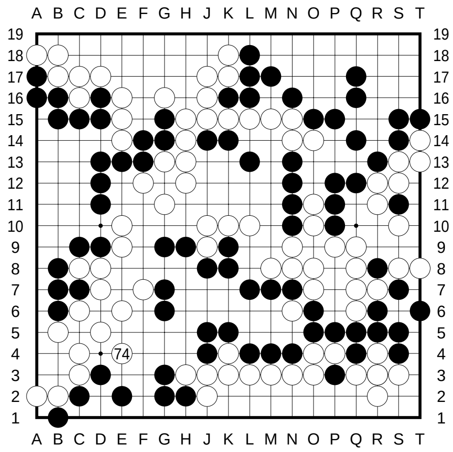
White 172

zodiac(2k) i think f5 is bigger



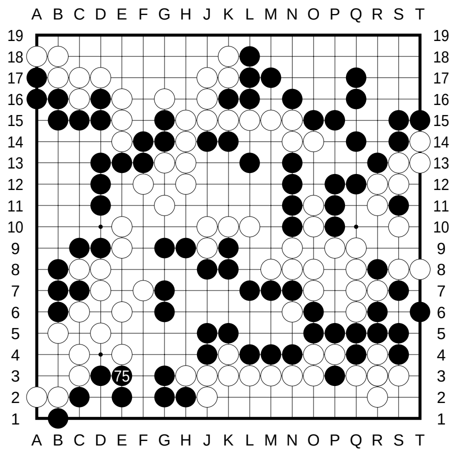
Black 173

pepboy(20k) shibumi topping, special pizza :–)



White 174

zhuge(NR) anything deep in e4?

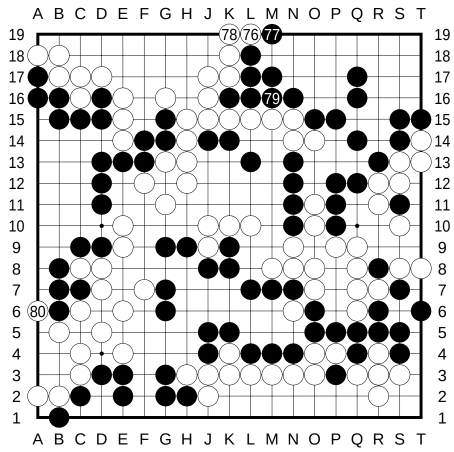


Black 175

khuang(7d) e3
:–)

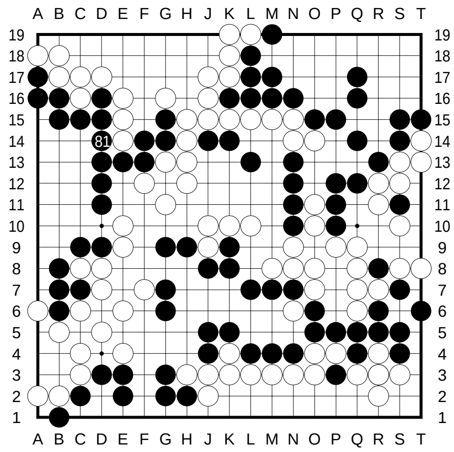
foo(4d) b is about 3 pts ahead on board

zodiac(2k) w should g4 better



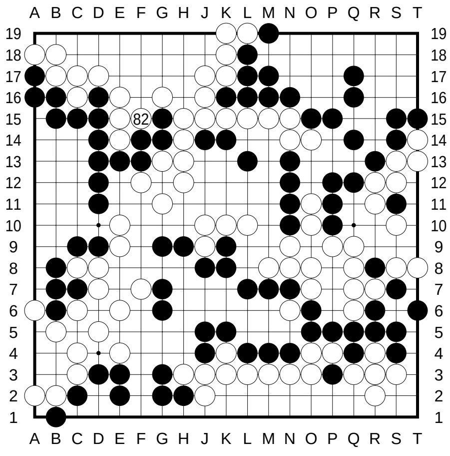
White 176 – White 180

zhuge(NR) wow l19–k19 ended up sente.



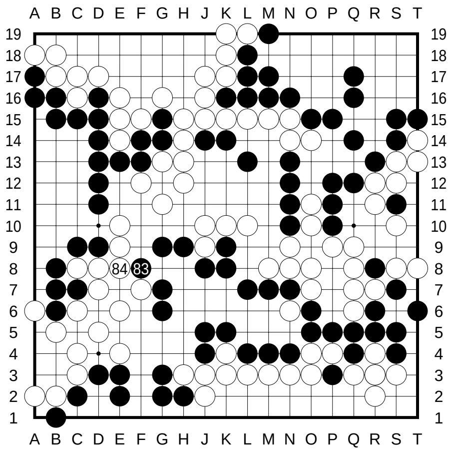
Black 181

mpark(5d) B may not come up with komi?



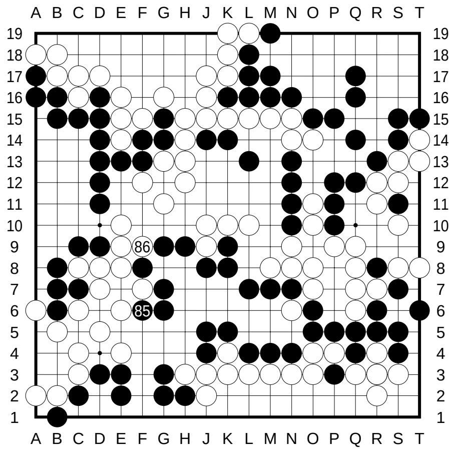
White 182

REM(4k) After move 169 I counted black 3 points ahead on board, not enough to offset komi.



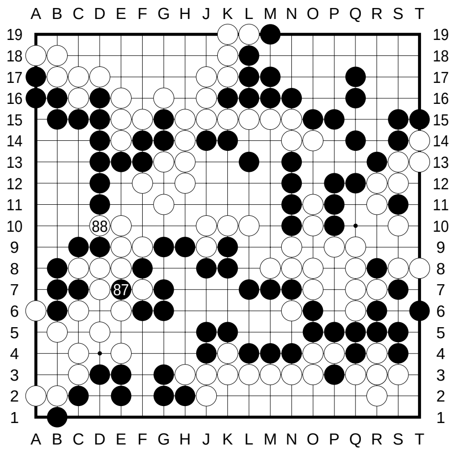
Black 183 – White 184

yueqi(5d) seems to me W is still 5pts ahead.
zodiac(2k) why server is so slow
zhuge(NR) not so slow from my connection.
khuang(7d) f6



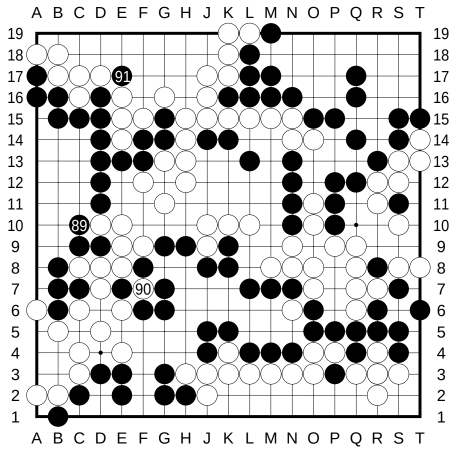
Black 185 – White 186

khuang(7d) :–)
zhong(NR) what is the count?
zhuge(NR) khuang's endgame is as good.



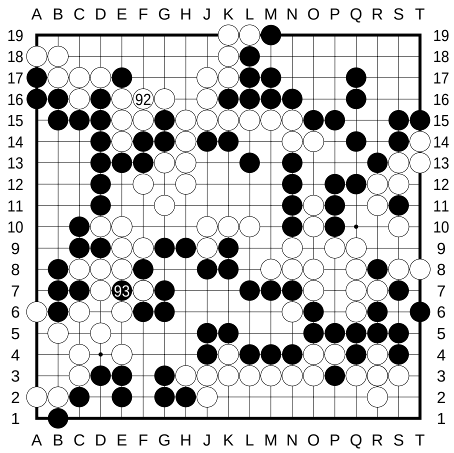
Black 187 – White 188

cops(NR) you should tell us



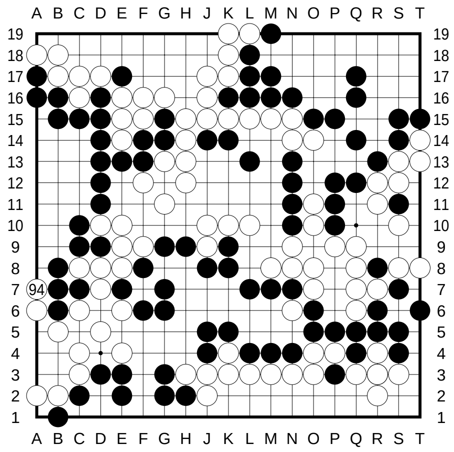
Black 189 – Black 191

zhong(NR) usually jjs does the counting for me. :)
hulei(1k) who is khuang? W or B.



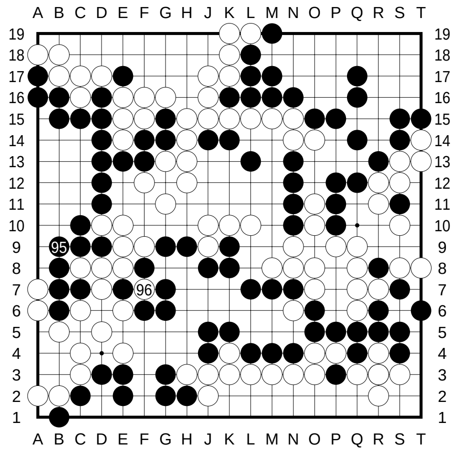
White 192 – Black 193

zhuge(NR) jjs seems too busy these days.



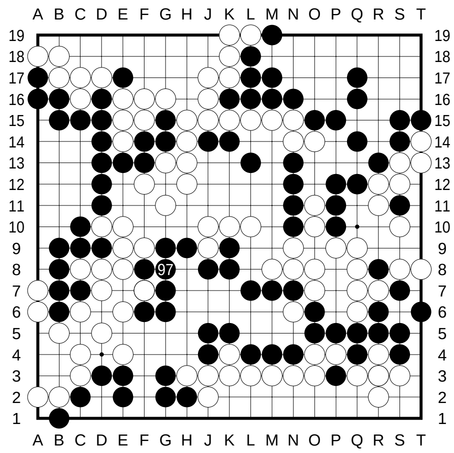
White 194

zodiac(2k) it is not a good idea for b to ko
khuang(7d) khuang is nothing. :–)



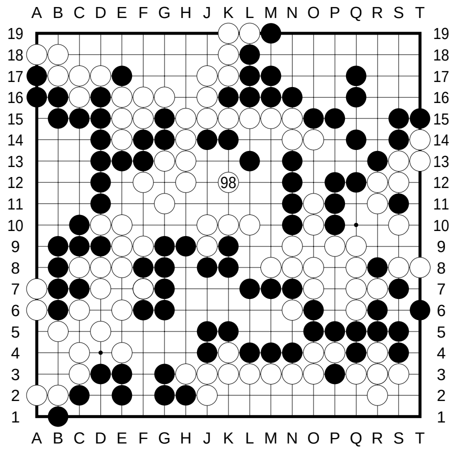
Black 195 – White 196

zhuge(NR) khuang is yellow. :–)
yellow(2d) khuang is not W, not B, but Y



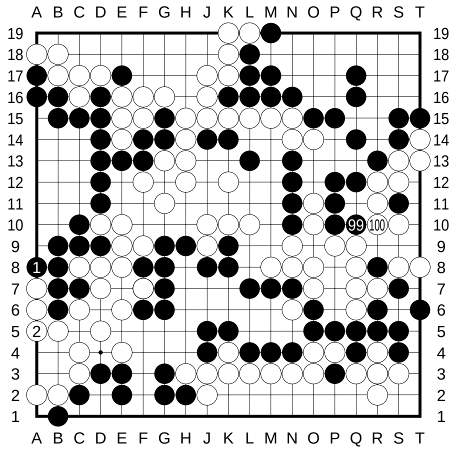
Black 197

zhuge(NR) oops, there *is* a yellow. :–)



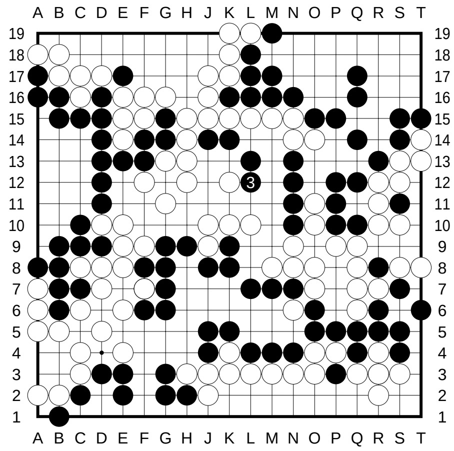
White 198

yellow(2d) yellow is yellow,
bn(2k) E18 still ko threat.
khuang(7d) khuang is not yellow. ———yellow is yellow. :–)
hulei(1k) thanks yellow.
bn(2k) why not continue koing?



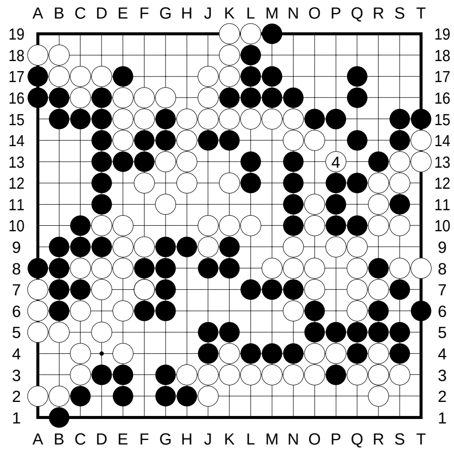
Black 199 – White 202

pepboy(20k) b has 65 pts, w has 63 pts
zodiac(2k) f4 is Very Big
zhong(NR) b may not have enough for komi. on board, it is very close.
lanlan(1d) where are you from zodiac?
pjiang(NR) this is 5.5 komi?



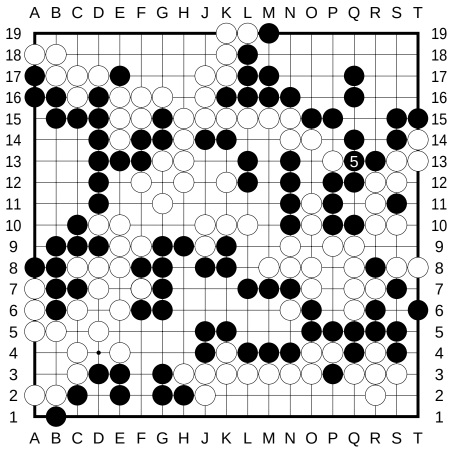
Black 203

zhong(NR) yes, komi 5.5
lanlan(1d) i was told you are in Houston too
dp(6d) i had stones in the wrong places, no wonder i couldn't usnerstand
zodiac(2k) from the earth, lanlan



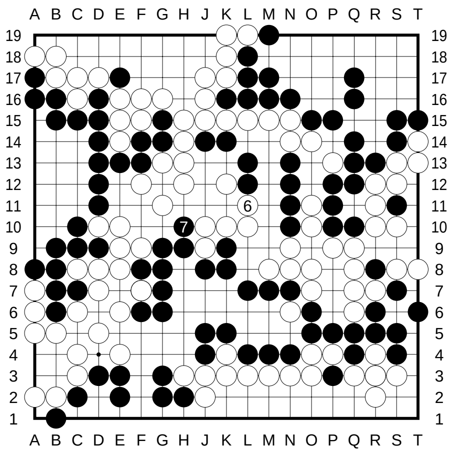
White 204

pjiang(NR) then why b not resign?
lanlan(1d) and sb mixed you with me
khuang(7d) still 2.5 points behind
zodiac(2k) refresh 1,000 times, dp



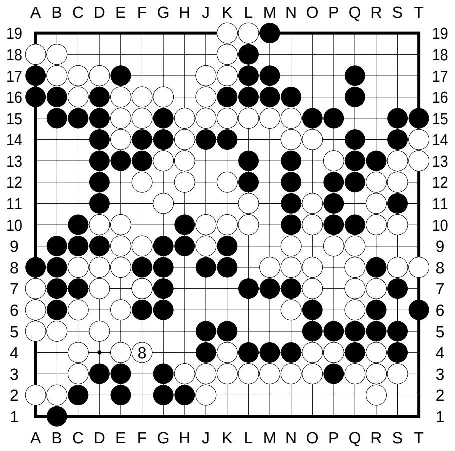
Black 205

stand(NR) like 66:66



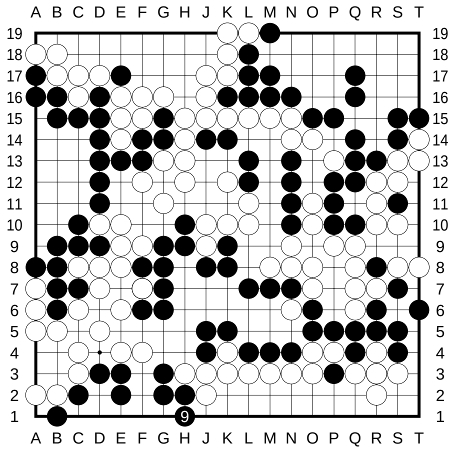
White 206 – Black 207

al(NR) y not f4?
cccc(4k) because h4 is not closed
zodiac(2k) f4 5 pts
cccc(4k) f4 doesn't mean much
al(NR) sorry :–)
khuang(7d) f4 is big
tom(1k) b f4 w h4
lanlan(1d) f4 mean much
stand(NR) b lost for sure.
zhong(NR) jy23 faired pretty well.
khuang(7d) now for w. otherwise b f5 is good.
Brigitta(2d) agree
al(NR) about 3–4 pts behind.



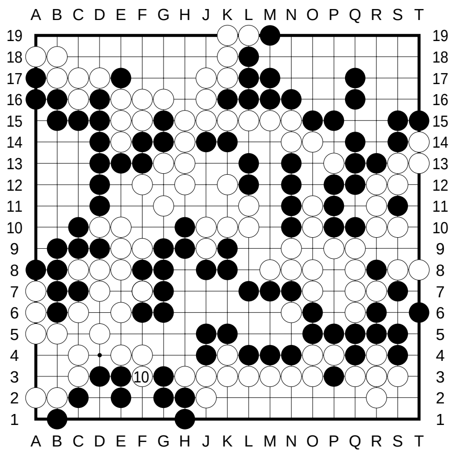
White 208

khuang(7d) :–)
pjiang(NR) the final count is close, but it's onesided throughout,



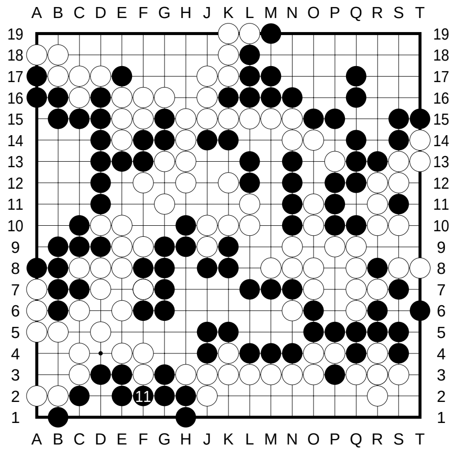
Black 209

pjiang(NR) so not very exciting



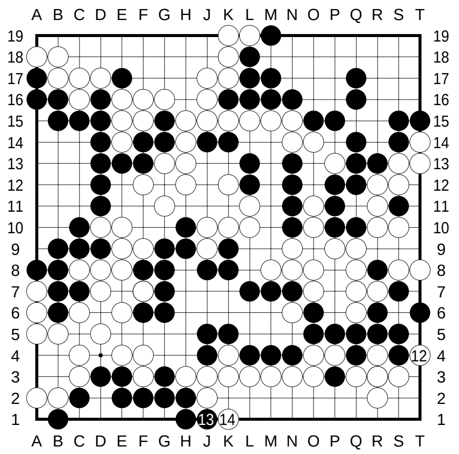
White 210

zodiac(2k) b lose 4 pts from not playing at f4



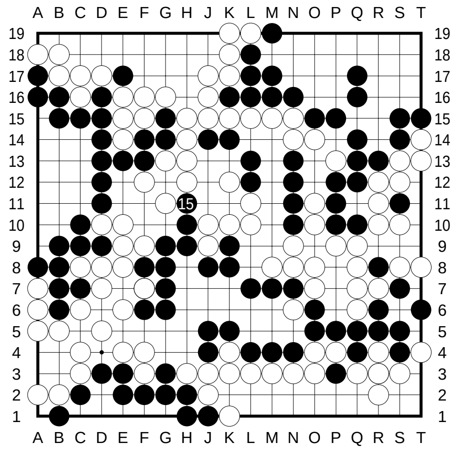
Black 211

al(NR) no one side, b4 l16 b was better.
zhuge(NR) are you sure, zodiac?
zodiac(2k) maybe 5 pts, yes
yueqi(5d) zodiac has improved a lot recently.
lanlan(1d) h4?
zhuge(NR) unfortunately.
mmc(1d) b will win
zodiac(2k) thx, yueqi
zhong(NR) zodiac's kibitz is as good as zhuge's these days. :)
entropy(NR) h5
zhuge(NR) i am embarrassed. :–)
al(NR) way to go z2k.
zodiac(2k) me toooo



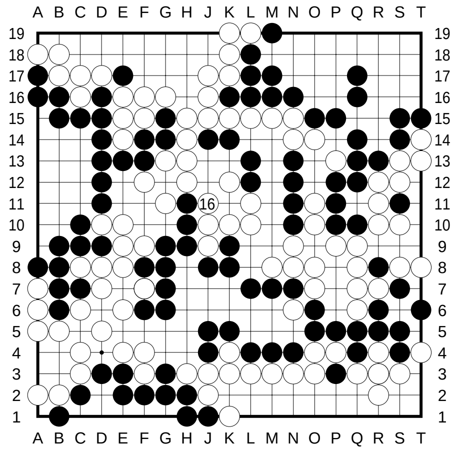
White 212 – White 214

zodiac(2k) i guess h10 is losing move
khuang(7d) f5



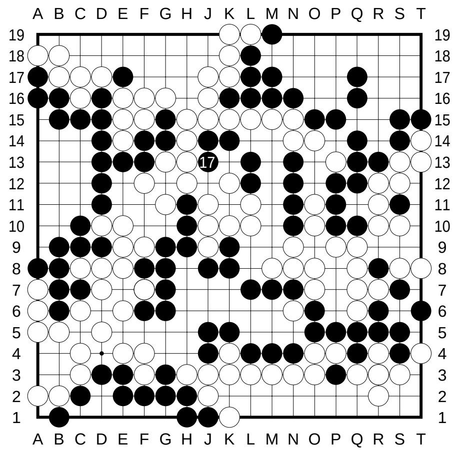
Black 215

khuang(7d) :–(



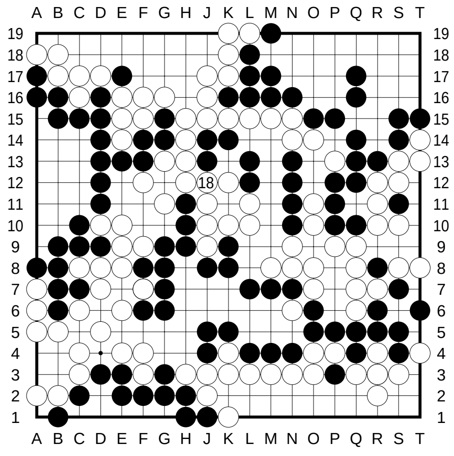
White 216

zhuge(NR) :–)



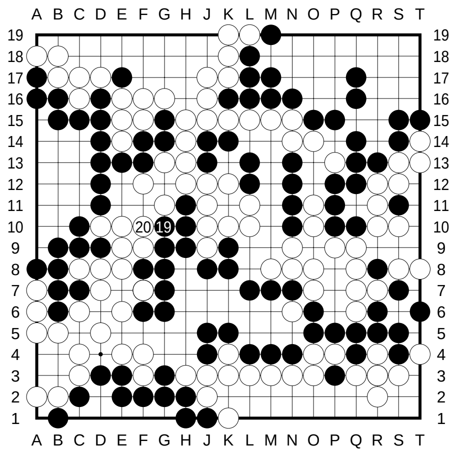
Black 217

khuang(7d) j13



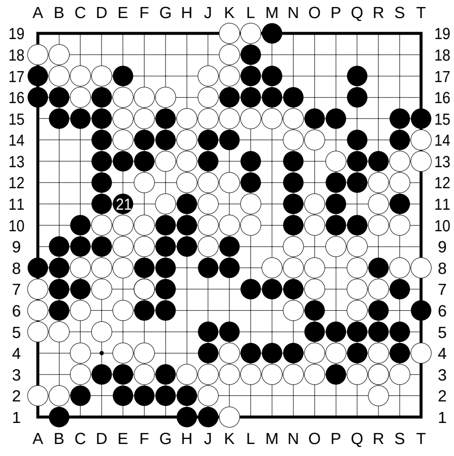
White 218

khuang(7d) :-)
f5. again?
pp(1d) i think suqi is bad
al(NR) maybe g4 is better than f5.
zhuge(NR) khuang bought a lottory ticket, he got right on first, second... to fifth number, but wrong on the sixth. :-)
zodiac(2k) v_v
al(NR) that is still a small fortune, zhuge.
bn(2k) what's v_v, zodiac?
pp(1d) because he said he was la jibi sa
zodiac(2k) v_v is opposite of ^_^
zhuge(NR) yeah, i usually get only one number right.



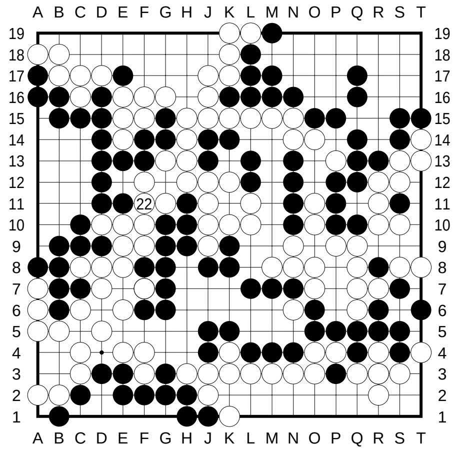
Black 219 – White 220

cccc(4k) e11



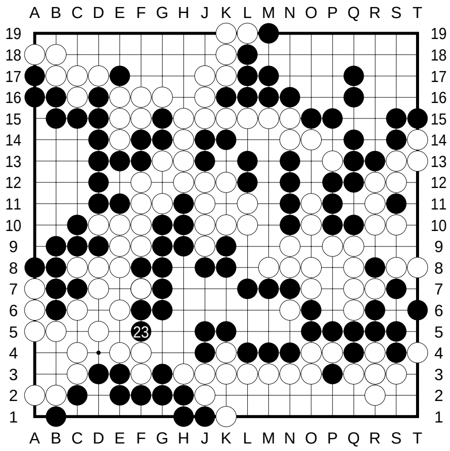
Black 221

mpark(5d) what if W plays h5?

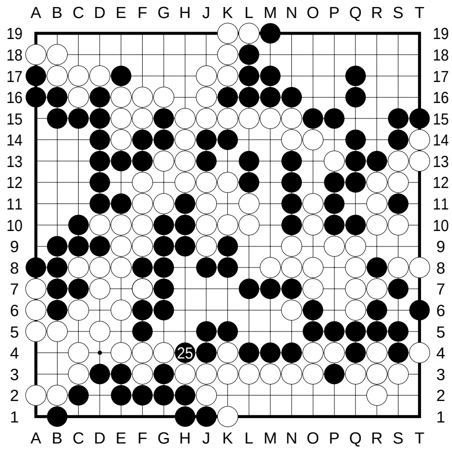


White 222

zodiac(2k) f5
al(NR) what is la jibi sa
ZZZ(NR) seems f5 before h4 for W



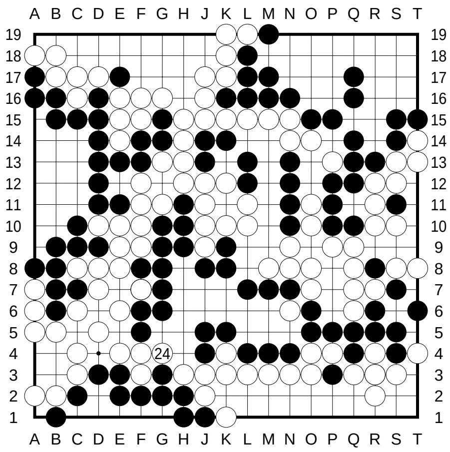
Black 223



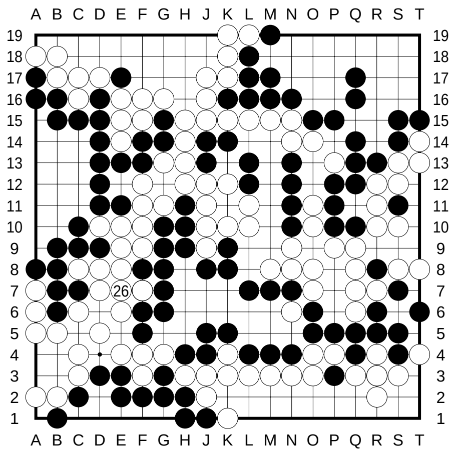
Black 225

khuang(7d) :–)
zodiac(2k) ^_^
al(NR) w h4.

pp(1d) that is up sea lamguage
zhuge(NR) :–(



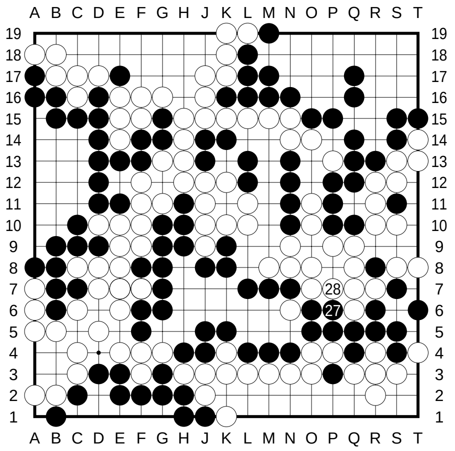
White 224



White 226

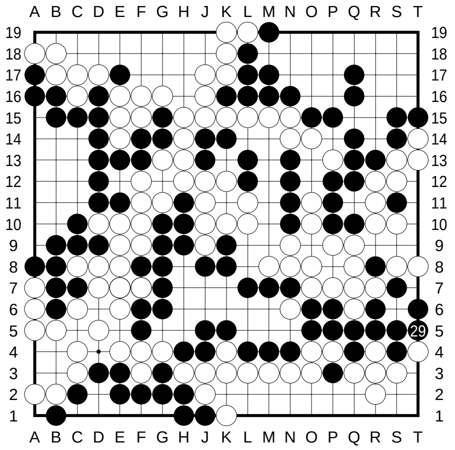
pp(1d) why dont u ask suqi he himself?. :)
khuang(7d) e5

khuang(7d) :–(
suqi(NR) la si be sa means gangdu. :0
khuang(7d) owo, the same. :–)
ZZZ(NR) only e5 ?



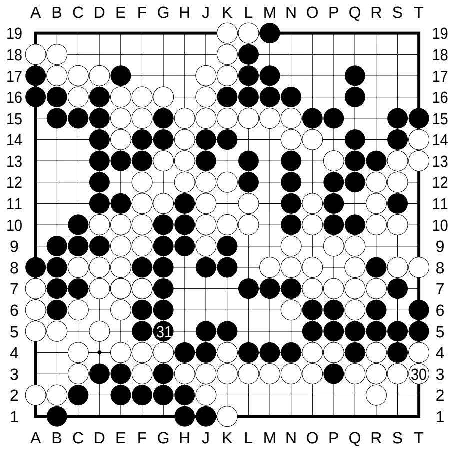
Black 227 – White 228

zodiac(2k) n5
ox(4d) t7
zhuge(NR) t5
al(NR) what laguange is this? chinese? japanese? or what? just tell me the english translation.



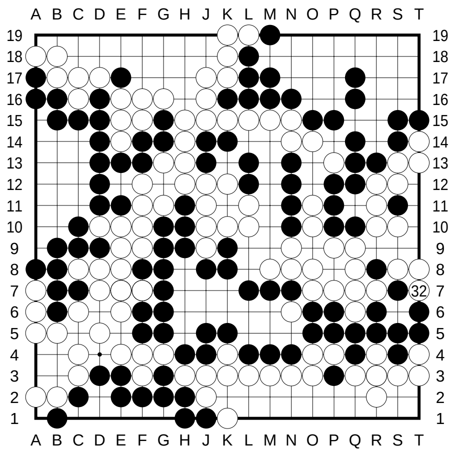
Black 229

zhuge(NR) :–)
MrBig(2k) why b not b3?



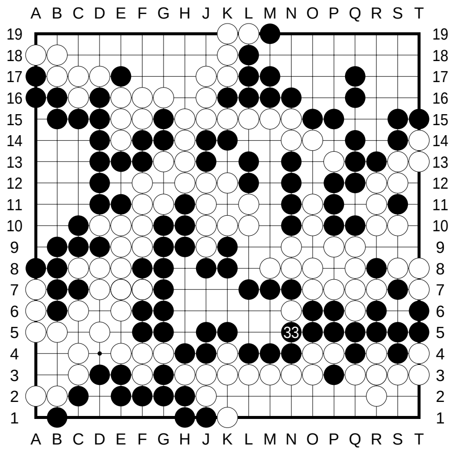
White 230 – Black 231

ox(4d) sorrt t7 bad
zhuge(NR) e5?



White 232

zhuge(NR) :–(?



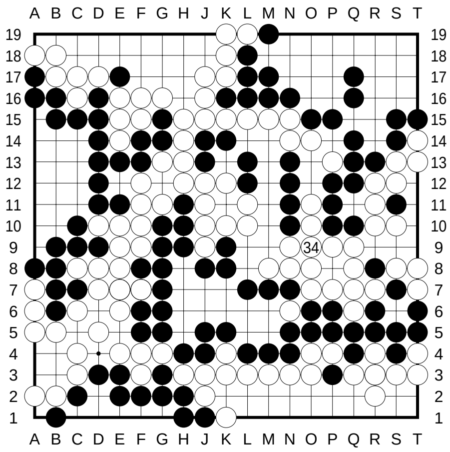
Black 233

zhuge(NR) i see!

asi(1d) t7 is big.

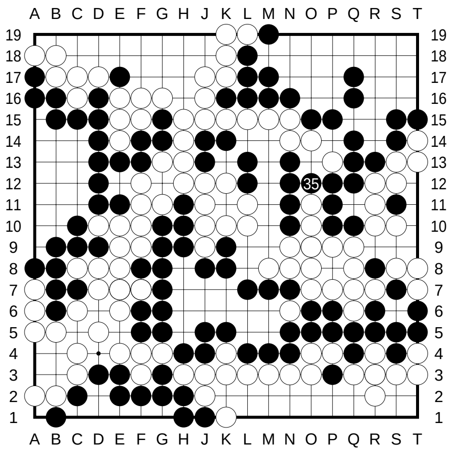
zhuge(NR) ### = 108!
must be the record!

pp(1d) u r welcome al. :)



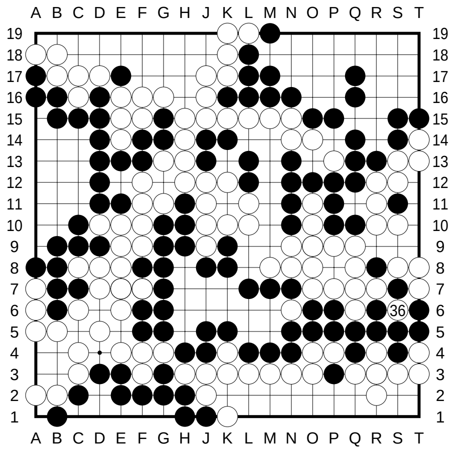
White 234

zodiac(2k) slow server



Black 235

zhuge(NR) ### = 109

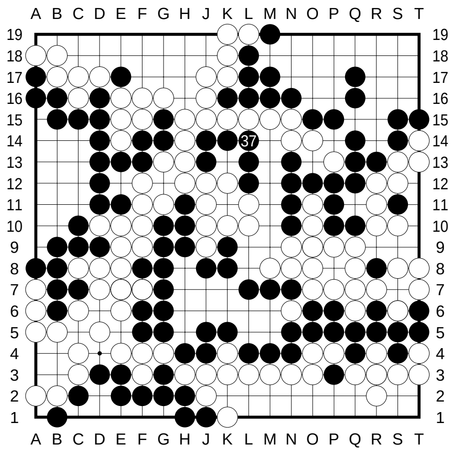


White 236

cccc(4k) game over

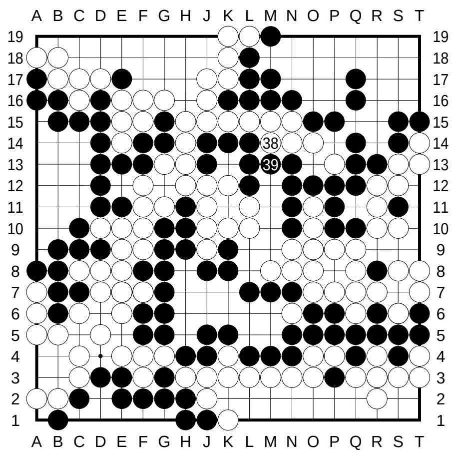
zhuge(NR) ### = 110!

khuang(7d) b3?



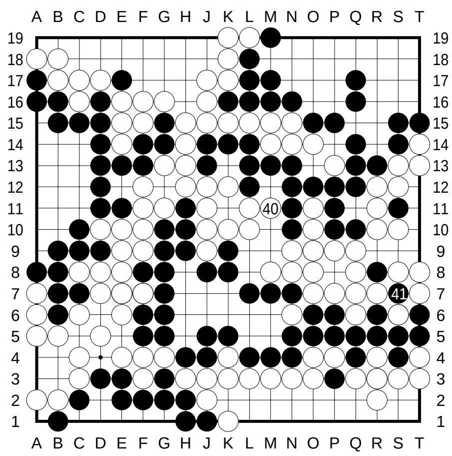
Black 237

eric(6k) I guess this is the end.



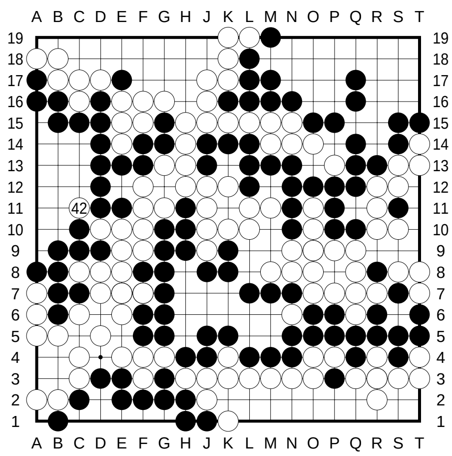
White 238 – Black 239

yjw(5d) b lost for sure
zhuge(NR) too bad ManyFaces is too stubborn, otherwise we'd have 112 instead of 110.



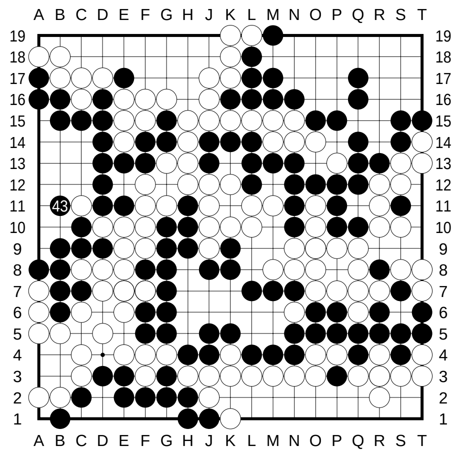
White 240 – Black 241

zhong(NR) what a game!



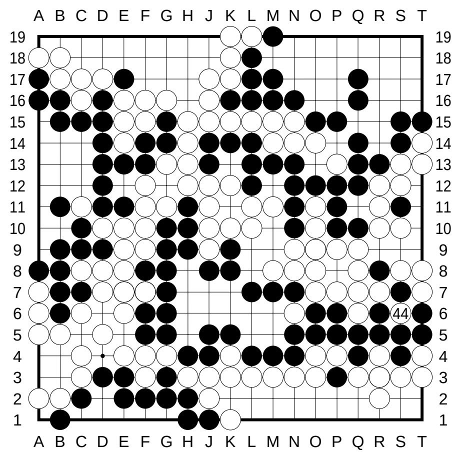
White 242

dp(6d) .5 or 4.5?
foo(4d) w 65 b67



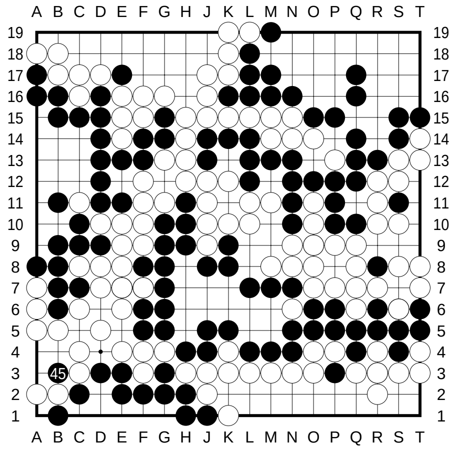
Black 243

zhuge(NR) great game.
eric(6k) board score: B 58, W 69.5.
mmc(1d) its 67 vs 67 b won by 5



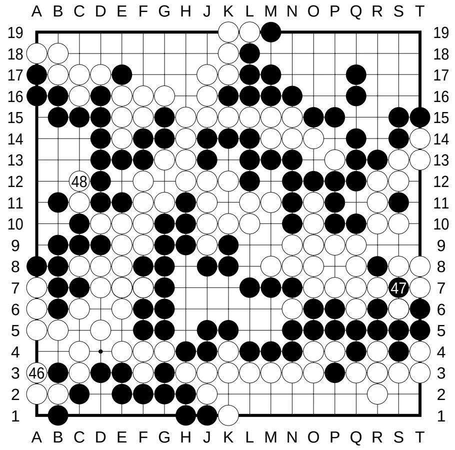
White 244

pepboy(20k) nonsense, eric



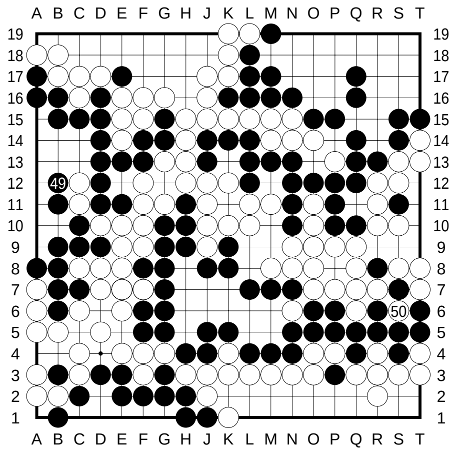
Black 245

eric(6k) well, depends on the outcome of the ko.



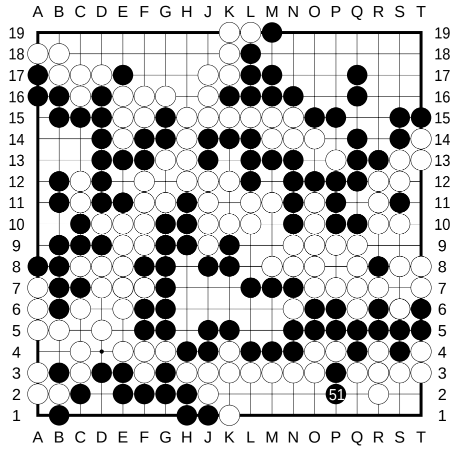
White 246 – White 248

zhuge(NR) huh?
cccc(4k) b will win the ko



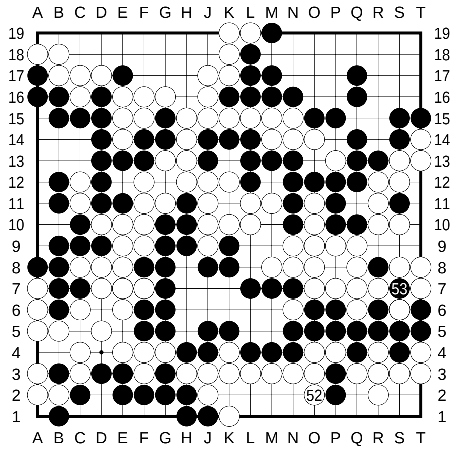
Black 249 – White 250

bn(2k) e18 ko threat.



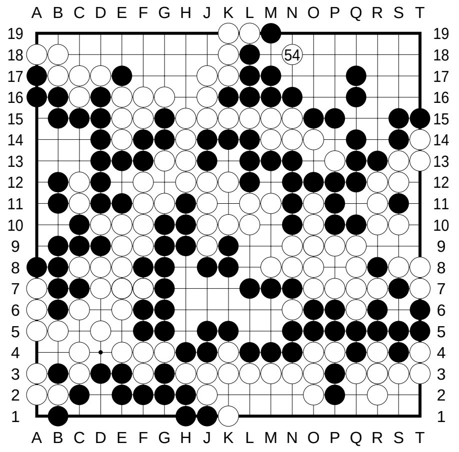
Black 251

al(NR) but b lost 2.5 even he wins the ko.
zhuge(NR) yeah, b18 produces a few, i guess.
dp(6d) what's sheah doing now, if he WAS a pro? anybody know?



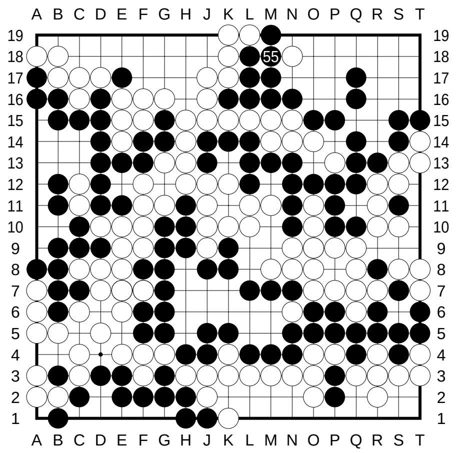
White 252 – Black 253

cccc(4k) ko threats all over the board for b
al(NR) m10 is one for w.
zhuge(NR) but the ko is not big enough.



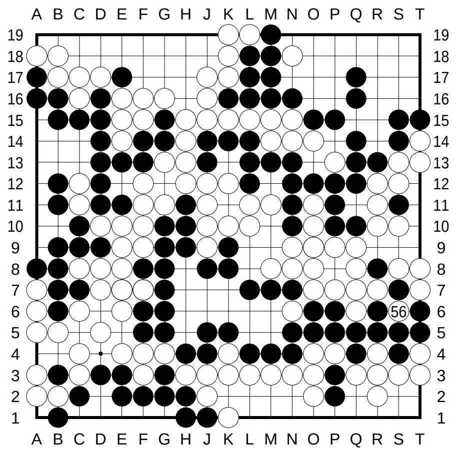
White 254

beast(5d) what is sheah's full name?
pepboy(20k) sheah is in post–game discussion :–)



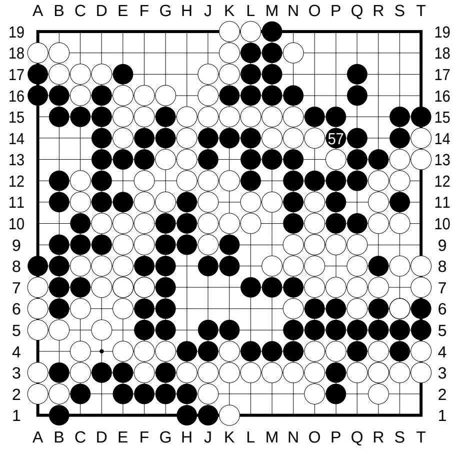
Black 255

ZZZ(NR) could sheah have filled after Bp2 ???



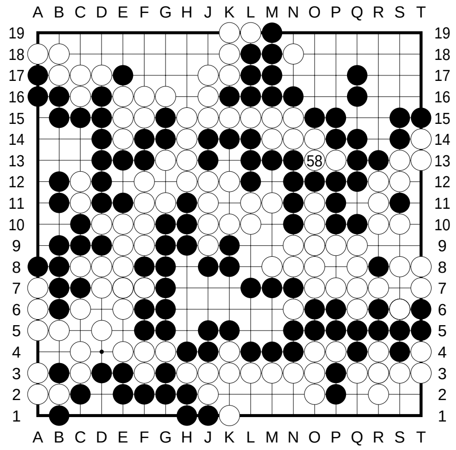
White 256

zhuge(NR) chen sheah, i believe.



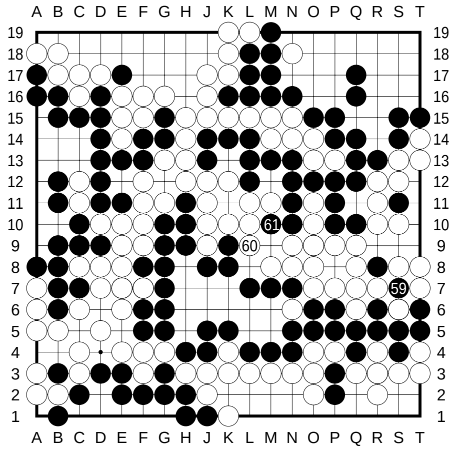
Black 257

beast(5d) where did he become pro?
zhuge(NR) Taiwan.



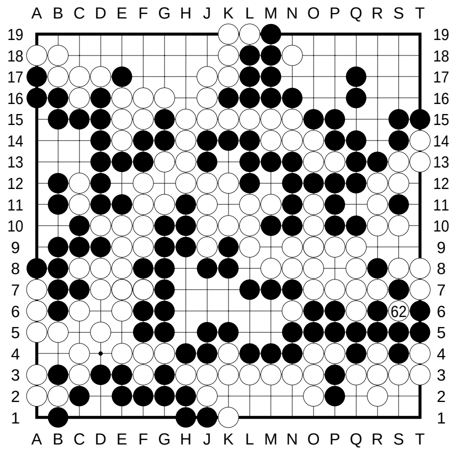
White 258

pepboy(20k) okay, zhuge is zhuge



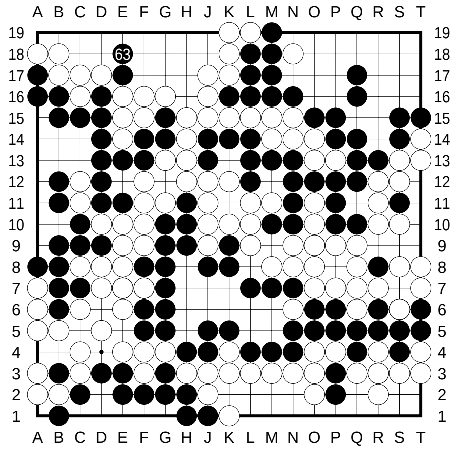
Black 259 – Black 261

zodiac(2k) how many pts for this ko, 1 or 2?



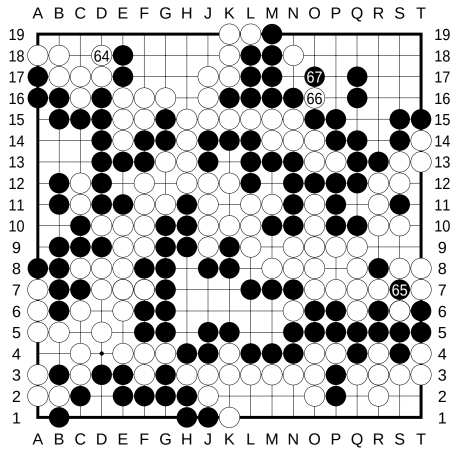
White 262

zhuge(NR) half?
al(NR) just 1
Agogo(6d) i suppose this must be a komi 0.5 game
zodiac(2k) then not too much sense to ko it endless



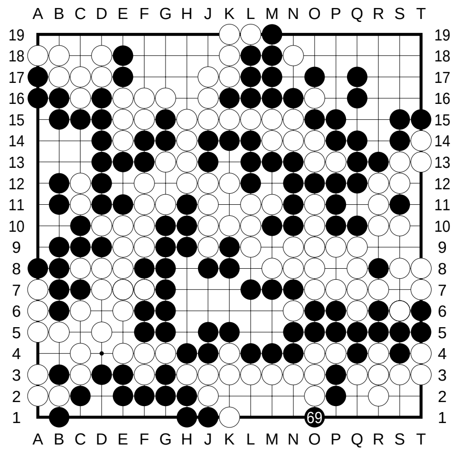
Black 263

kompella(6k) w ahead by 1 pt on board?



White 264 – White 268

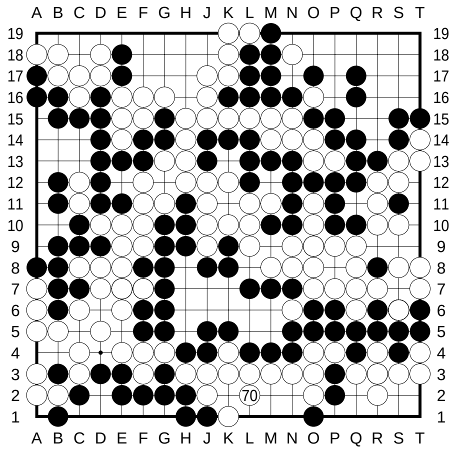
al(NR) b 2—3 pts ahead on board.



Black 269

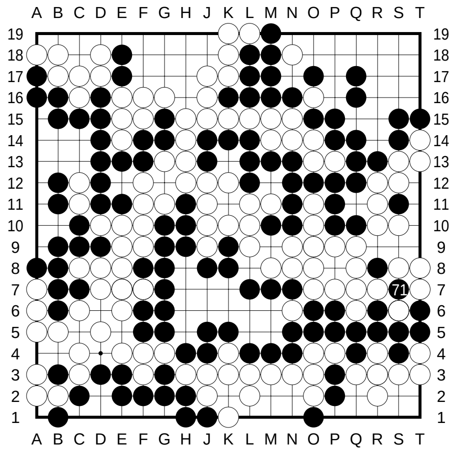
Agogo(6d) d18 is better than e18

rjs(18k) is 5.5 komi
zhuge(NR) hmmm, o1 interesting.
bn(2k) L1
pp(1d) what is o1?
bn(2k) threaten L1
cccc(4k) o1 looking at l1
zodiac(2k) a potential at L1, pp
hana(2d) w over komi....
Agogo(6d) b and w are even in pts except for the ko
aaron(6d) l1 leaves l2 as ko threat.
jonathan(10k) what's the score? my inaccurate counting puts b ahead by 2 1/2
MrBig(2k) why doesn't w just give up the ko?



White 270

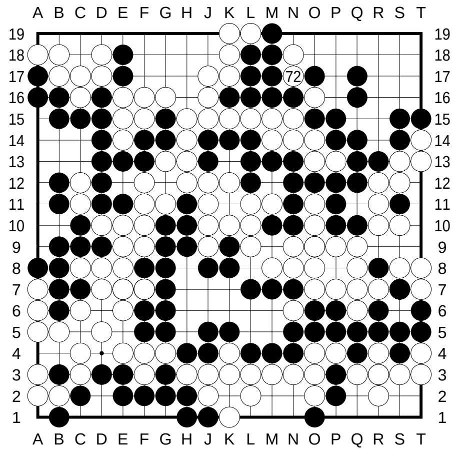
zhuge(NR) that's on the board, jonathan?
zodiac(2k) slow going



Black 271

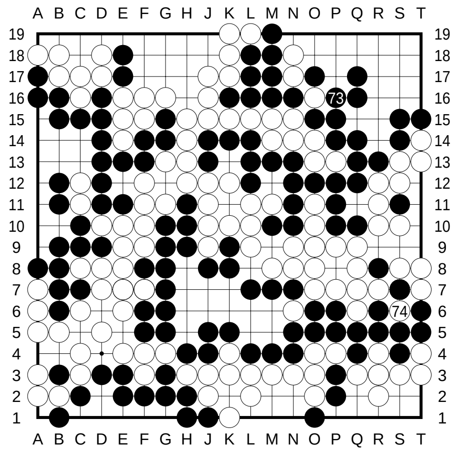
bn(2k) did you count the prinsoners?
zodiac(2k) let's play chess
jonathan(10k) I count b 67 w 60 on the board – but I'm only 10k ...
khuang(7d) this ko belogs to b, then 2.5pts.
zhuge(NR) go ahead, zodiac!
pepboy(20k) relax, jon

jonathan(10k) so that makes 1 1/2 – sorry.
bn(2k) what's your rating in chess, zodiac?



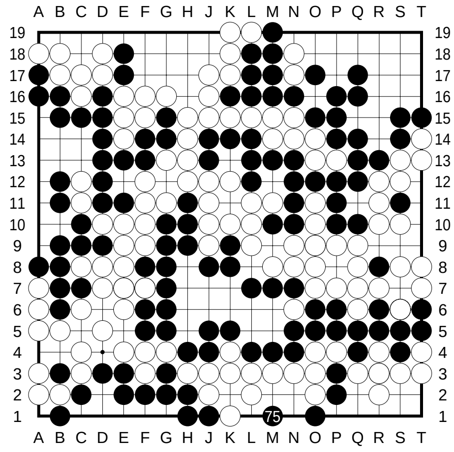
White 272

lanlan(1d) m6 is a ko threat



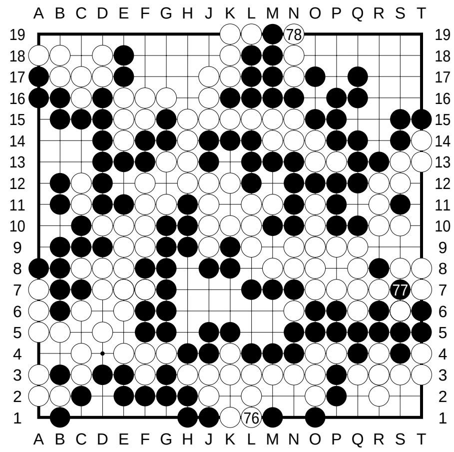
Black 273 – White 274

dhao(19k) who win this game?



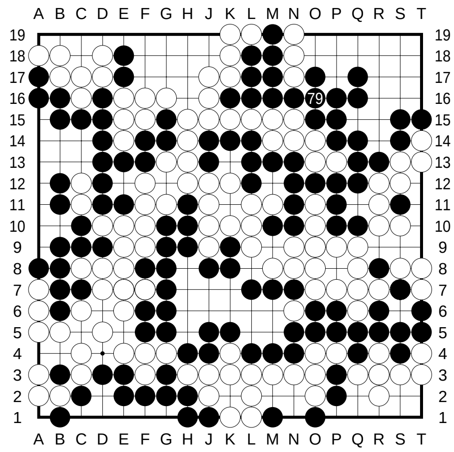
Black 275

yjw(5d) w can not win the ko



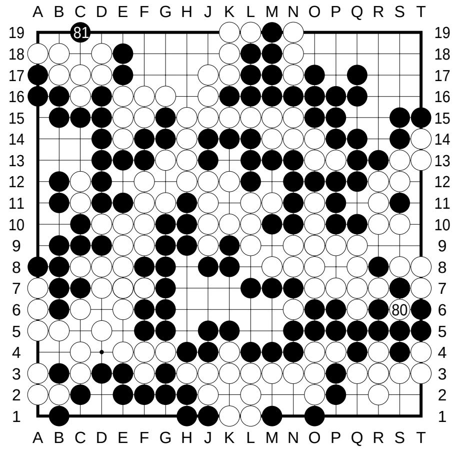
White 276 – White 278

dp(6d) w wins the ko to make the difference to 4.5



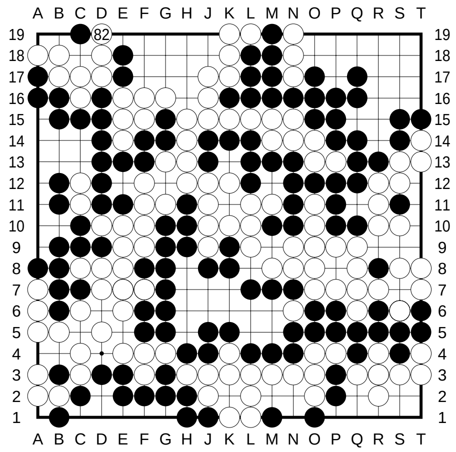
Black 279

dhao(19k) this game is too long. i



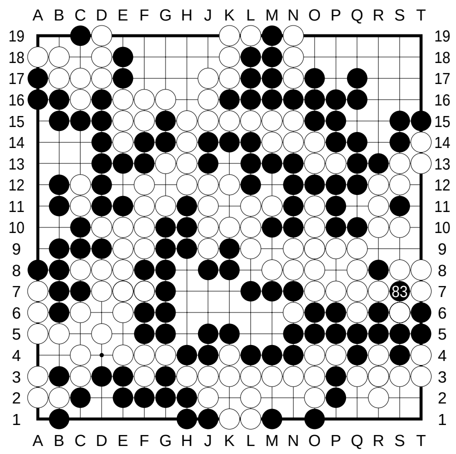
White 280 – Black 281

aaron(6d) w has at least 5 threats left.
pepboy(20k) yes, to our kyu players :–)



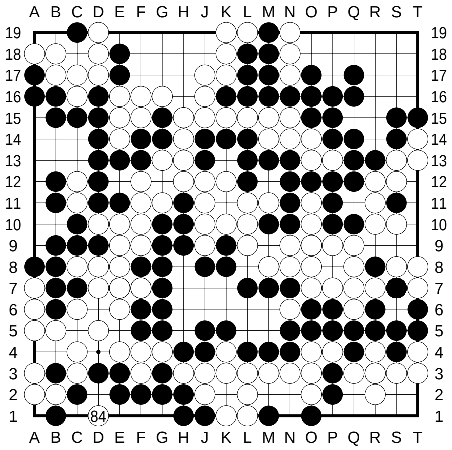
White 282

jonathan(10k) dp: white wins by 4.5 ?



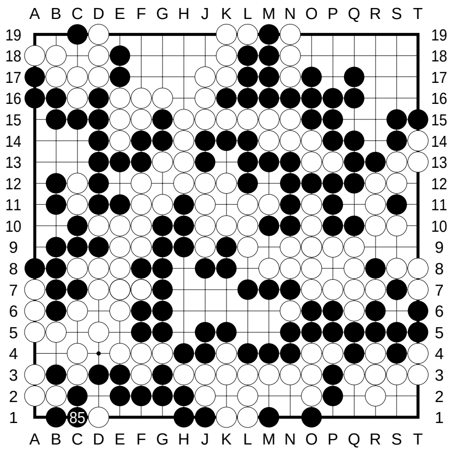
Black 283

pepboy(20k) dp is quite precise
kompella(6k) C1
dhao(19k) this game is too long. i come back dinner, still going.
al(NR) is g17 still a threat?
aaron(6d) d1 better.
tom(1k) a9
tweet(NR) take a nap
zhuge(NR) a dinner is a short time, dhao!



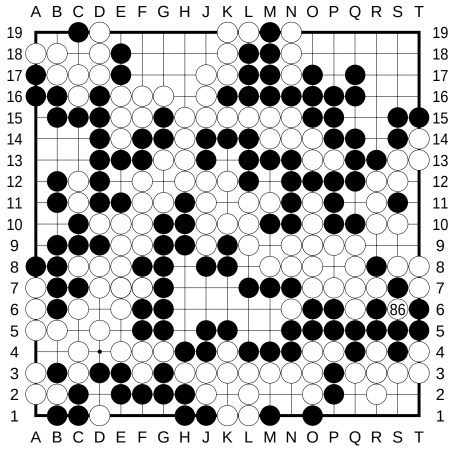
White 284

kompella(6k) you win, aaron!



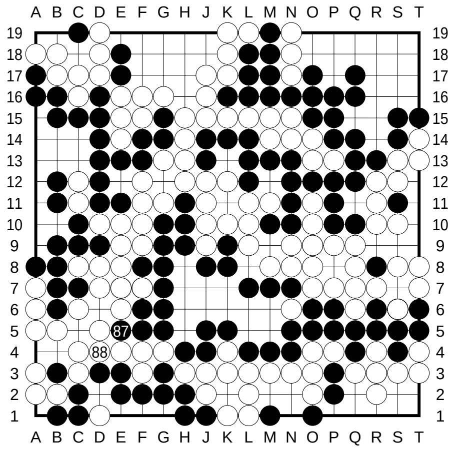
Black 285

zhuge(NR) tweet must have had a few naps already. :–)



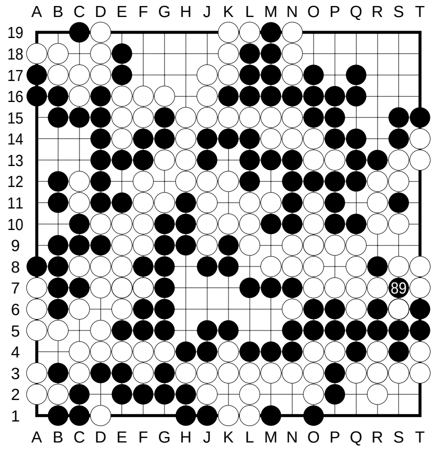
White 286

chaos(NR) how do pro ranks relate to amateur ranks?
yjw(5d) g17?
aaron(6d) not very well :)
cccc(4k) d4
aaron(6d) a 1p is about a strong 7d, I would guess?
lounela(3d) g17 is not threat.
dp(6d) then it would be a shame for 1p, aaron. ;)
ajikeshi(NR) n2
pp(1d) q1?
upchurch(6d) b can not win the ko
yueqi(5d) "1p is about a strong 7d"??
aaron(6d) is 1p stronger than strong 7d?
bn(2k) b lose the ko.
aaron(6d) is a 1p stronger than a 7d?



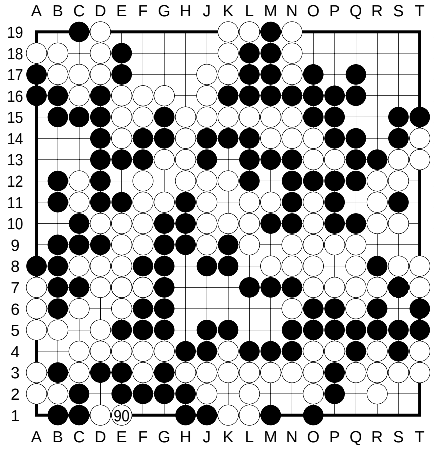
Black 287 – White 288

dp(6d) in korea they are



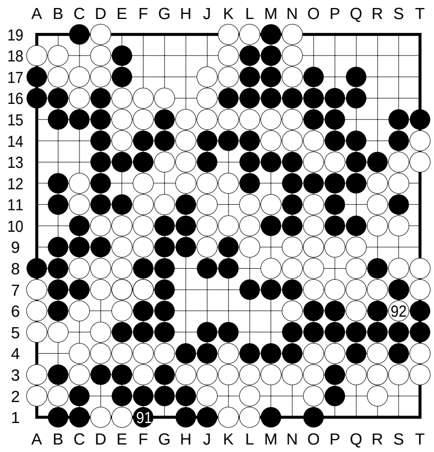
Black 289

pjiang(NR) yes



White 290

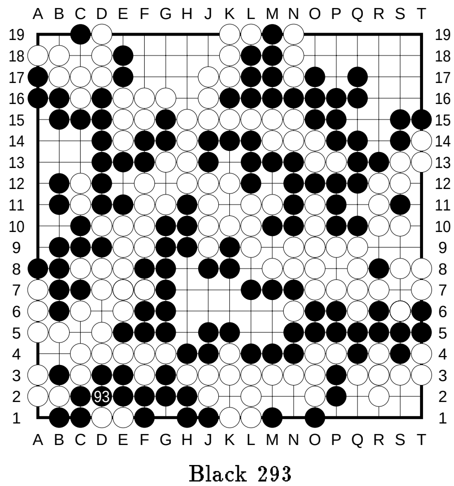
yueqi(5d) I know, in china some ama 6d is as strong as a average 1p.



Black 291 – White 292

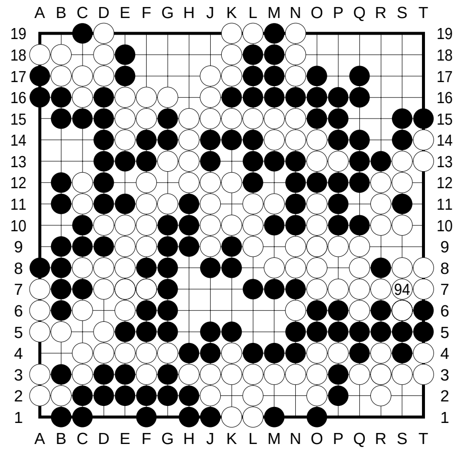
hana(2d) 1p_7d..

ZZZ(NR) B d4 gave another at b4
yueqi(5d) p, i mean.
Agogo(6d) d18 could have created more ko threat
pjiang(NR) but 1p could also be stronger than 9p
cccc(4k) had b d18 instead of e18, b wins the ko
bn(2k) yes, e18 is a mistake.
isp(3d) usually there exist am 5d 6d.
pjiang(NR) the ko doessnot matter. w wins
isp(3d) am 5d 6d enter pro after hard test
dp(6d) agogo is absolutely right about d18
KjetilT(NR) b4?
dp(6d) it would have given the ko to the black too.
REM(4k) Still 103 watching, but I'm giving up, bye.
KjetilT(NR) w b4, then what?
chaos(NR) ok i found it in book. 1p is usualy 2 stones stronger then ama 6d
hana(2d) w 2.5 win ?
zhong(NR) b is 1 pt better on board. but b can't afford komi.
pjiang(NR) u r right, zhong
yellow(2d) maybe 3.5
Agogo(6d) then why b keep trying to win this ko?
fei(4d) u r not right chaos
yueqi(5d) depends what kind of ama 6d he is.
pp(1d) is q1 a ko threat?
al(NR) not true. some am's are stronger then 3p.
bn(2k) no.
isp(3d) it is 2.5!
zhuge(NR) serious players don't give in any point they can earn, i guess.
chaos(NR) japanese book
bn(2k) w has an eye.



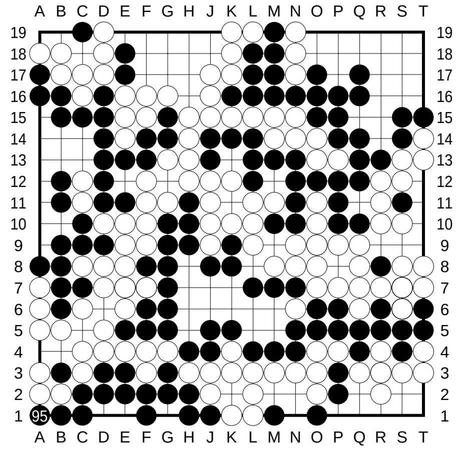
Black 293

pjiang(NR) ams like jy or khuang are once pro
dp(6d) just for the show
fei(4d) a 9p can only give 2 stones to 6d



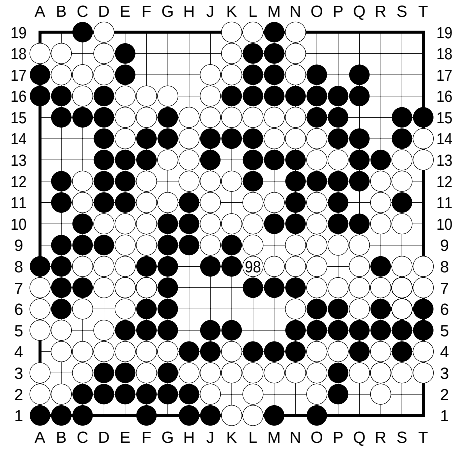
White 294

pjiang(NR) or trained as pro



Black 295

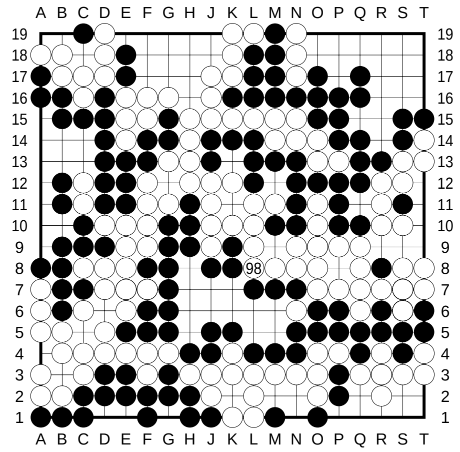
pjiang(NR) so they r not reallly am



White 296 – Black 297

zhuge(NR) but they are amateurs now...

dp(6d) is there 1p in china? anybody would tell me?
yellow(2d) Jiang gave 4 stone to dong, but dong lost a lot
pjiang(NR) they were....
jonathan(10k) I still count black by at least 1 1/2 >:^P – anyone wanna argue?
dp(6d) or even 4p or 5p in china?
zhuge(NR) there should be, dp.
pjiang(NR) b one more on the board
pp(1d) what if b r1?
Jin(1k) at least 7 9p in china
fei(4d) china's 9p would be more than in which in korea
yueqi(5d) dong is a good ama 6d here, but not in china, I think he is at 3d level according to chinese atandard.
dp(6d) is 1p there stronger than 7d?
isp(3d) well am 6d in KOREA lost 92% games of his first pro yr.
zhong(NR) hope u all enjoyed the game.
cccc(4k) if b r1 b lose one more point
zhuge(NR) korea has 5 9p's i think.
i did, zhong. thanks.
pjiang(NR) china 's d does not have a standard
cops(NR) how's your count zhuge?
hana(2d) agree isp..
pepboy(20k) i played last two moves, :–)
eric(6k) black won by .5? ???
aaron(6d) yes, thank you very much.



White 298
